**ANNUAL
REPORT
2024**

Introduction

As we step into the future, our commitment to sustainability, growth, and innovation remains stronger than ever. This annual report is a reflection of Packages Group creating a better tomorrow—one built on responsible practices, resilience, and a shared vision for progress.

At Packages Group, we strongly believe in progress driven by innovation, sustainability, and responsible leadership. As a key player in Pakistan's corporate landscape, we remain committed to creating lasting value for our stakeholders, employees, and communities surrounding us.

About Cover

The cover for our Annual Report 2024 features a lush green forest with mist; symbolizing sustainability, growth, and an eco-friendly future. The overall design emphasizes corporate sustainability and a forward-looking vision of Packages Group.

The green forest background conveys the message of sustainability, renewal, and environmental consciousness; all strongly advocated at Packages Group. The lush greenery, misty atmosphere, and natural pathway symbolize the Group's consistent journey toward a more sustainable and responsible future. The use of nature imagery in our cover aligns with Packages Limited's commitment to eco-friendly practices, particularly in packaging, production methods and responsible material sourcing.

The integration of text with the forest reinforces the idea and our belief that sustainability and corporate success should go hand in hand. The pathway is a metaphor for progress, guiding the Group, and its stakeholders towards a greener, more responsible tomorrow.

The Synergy of Prosperity and Preservation

In the grand tapestry of modern enterprise, sustainability is no longer a mere ethical aspiration but the very cornerstone of enduring corporate triumph. True success is not measured solely by financial gain but by the delicate equilibrium between profit, purpose, and planetary stewardship.

At Packages, we believe and strive to nurture, replenish, and innovate the world we operate in; by weaving innovation into our operations while embracing the ethos of environmental guardianship. Sustainability is the alchemy that transforms responsibility into reputation, efficiency into excellence, and ethical commitment into economic ascendancy.

Nurture Nature, One Tree at a Time

Plants, the verdant sentinels of our planet, stand as nature's most benevolent gift, weaving an intricate tapestry of life that sustains the very essence of existence. Their emerald canopies breathe vitality into the world, exhaling the life-giving oxygen that fuels all living beings while graciously absorbing the noxious carbon dioxide that taints our atmosphere. With roots that delve deep into the bosom of the earth, plants serve as guardians against erosion, holding the soil steadfast against the ravages of time and tempest. Their leafy embrace shelters the weary traveler, while their boughs cradle a symphony of avian melodies. Within their verdant shadows, biodiversity flourishes, as creatures great and small find sanctuary in their arms.

Here, tender human hands cradle the rich, dark soil, forming a protective barrier around a delicate young seedling. The vibrant green leaves of the fragile plant, kissed by the earth's nourishment, are a symbol of new beginnings, resilience, and growth. The contrast between the supple hands and the rugged texture of the soil accentuates the harmony between humanity and nature, a silent testament to the nurturing spirit that fosters life. This scene, simple yet profound, whispers of hope, patience, and the quiet beauty of cultivation.

Wisdom Unlocks the Doors to a Greener Tomorrow

The enlightenment of young minds with the wisdom of the environment is not merely an academic pursuit but a sacred duty—one that ensures the preservation of our planet's splendor for generations yet to come. Like tender saplings, children must be nurtured with an awareness of the natural world, for in their hands lies the power to shape the future. Moreover, in an age where the specter of climate change looms ominously, making the younger generation knowledgeable about dangers to environment will make them stalwart warriors in the battle for ecological equilibrium.

Here, in this heartwarming tableau, a group of children, clad in earthy tones and matching white shirts, engage in the noble act of tree planting, their hands cradling the fragile sapling as if safeguarding a precious dream.

Safeguard Every Drop

Water, the elixir of life, cascades through the veins of our planet, sustaining all forms of existence with its crystalline embrace. It is the silent architect of flourishing civilizations, the sculptor of verdant landscapes, and the very essence of vitality itself. Yet, despite its boundless benevolence, this sacred resource teeters on the precipice of scarcity, imperiled by reckless consumption. To conserve water is not merely a choice but an imperative—a solemn vow to safeguard the lifeblood of nature for generations yet unborn. Its conservation is the cornerstone of ecological equilibrium, ensuring that parched lands bloom with renewal, that the symphony of rain-fed harvests continues unabated, and that future civilizations do not languish in the shadows of drought. It is an act of reverence, a tribute to nature's generosity, and a testament to human foresight.

This image beautifully symbolizes the importance of water in sustaining life and nurturing our planet. A drop of water, reflecting Earth, hovers above a lush green tree being cradled by a hand that appears to grow from nature itself. It highlights how water is essential for growth, greenery, and a thriving environment. The hand represents human responsibility to protect and nourish the planet. Together, the imagery calls for water conservation and sustainable living to ensure a greener, healthier future for generations to come.

Mindful Consumption: A Symphony of Intentionality

Mindful consumption is not merely an act - it is a philosophy and a conscious symphony of discernment, gratitude, and reverence for the world around us. It is the art of embracing necessity without surrendering to excess, of weaving intention into every choice, and of cultivating an existence where consumption is not an impulse but an ode to sustainability and self-awareness. It is the realization that every object, every resource, and every indulgence carries an unseen narrative: story of creation, labor, and impact. To consume mindfully is to honor these narratives and to foster a connection between ethics, aesthetics, and sustainability.

Here, a woman sits in tranquil solitude beneath the majestic canopy of a towering tree. She embodies a moment of mindfulness that to consume mindfully is to recognize that the Earth does not belong to us alone; it is a shared inheritance, deserving of care, gratitude, and unwavering respect.

The Potion of Pristine Power

Renewable energy stands as a beacon of hope, a celestial gift woven into the very fabric of nature, offering an inexhaustible wellspring of power to those who dare to harness its grace. Unlike its finite and polluting counterparts, it dances to the rhythm of the sun, the whisper of the wind, and the ceaseless flow of rivers, bestowing upon humankind an elegant solution to its insatiable thirst for energy. Beyond mere utility, renewable energy is a testament to human wisdom—an ode to foresight and responsibility, a commitment to preserving the planet's splendor for generations to come. It is not merely an alternative; it is the inevitable dawn of a new era, where the earth and its inhabitants flourish in perfect harmony, powered by the eternal gifts of nature.

Here, against the backdrop of rolling mountains and an endless blue expanse, this scene is a testament to humanity's potential to coexist harmoniously with the natural world. It symbolizes a future untethered from the shackles of fossil fuels—a vision of progress where the sun and wind, eternal and unwavering, fuel the dreams of a greener, more resilient planet.

CEO's Message

2024 has been a year of resilience, transformation, and progress for the Packages Group. Amid dynamic market conditions, we remained steadfast in our commitment to excellence, innovation, and the creation of long-term stakeholder value. Our strategic focus on expansion, operational efficiency, and sustainability has further strengthened our leadership across the industries we serve.

Throughout the year, we delivered strong financial performance, entered new markets, and continued optimizing our operations to drive greater efficiency. Our investments in digital transformation and process automation have enhanced our productivity and agility in a rapidly evolving business environment.

Sustainability remains at the core of our strategy. We have accelerated efforts to reduce environmental impact, enhance resource efficiency, and develop sustainable packaging solutions. Our continued focus on ESG (Environmental, Social, and Governance) practices reflects our commitment to responsible corporate leadership.

Our people are central to our success. We have cultivated a culture that values innovation, collaboration, and continuous learning, empowering our teams to lead with excellence. Our diversity and inclusion efforts have further strengthened engagement and unlocked new potential across the organization.

As we enter 2025, our focus remains on business expansion, deepening customer relationships, and driving sustainable growth. We will continue investing in technology, talent development, and operational excellence to seize new opportunities and navigate emerging challenges.

I extend my heartfelt gratitude to our employees, customers, partners, and shareholders for their continued trust and support. Together, we will shape a future defined by innovation, resilience, and enduring success.

CODE OF CONDUCT

The way we do business.

Our Values

Values are reasons which we regard as higher than our self-interests.

Code of Conduct

Packages Group has built a reputation for conducting its business with integrity, in accordance with the highest standards of ethical behavior and in compliance with the laws and regulations that govern our business. This reputation is among our most valuable assets and ultimately depends upon the individual actions of each of our employees.

Packages Group Code of Conduct has been prepared to assist each of us in our efforts to not only maintain but enhance this reputation. It provides guidance for business conduct in a number of areas and refers to more detailed corporate policies for further direction.

The adherence of all employees to the highest standards of integrity and ethical behavior is mandatory and benefits all stakeholders which include customers, communities, shareholders and ourselves.

All Group Companies carefully check for compliance with the Code of Conduct by providing suitable information, prevention and control tools and ensuring transparency in all transactions and behaviors by taking corrective measures, if and as required.

Packages Code of Conduct applies to all Packages Group companies, employees, business partners, suppliers, vendors, financial advisers, agents, affiliates, and others who act for us within all sectors, regions, areas and functions. As per the regulatory guidelines, there is a separate document highlighting the code of conduct for external directors of the Group.

CARE

Fairness and consideration are integral to our culture.

- We provide care through empathy, fairness, trust and openness.
- We care for the communities in which we exist; we are conscious of the impact of our activities on our environment.
- We strive to improve our lives and the lives of others; we care for and grow people.
- We care for all our customers; we succeed when our customer succeeds!

Health and Safety:

The health and safety of our employees are paramount. We are committed to maintaining a safe and healthy workplace by adhering to stringent safety standards, providing necessary training, and promoting a culture of safety. We are also committed to promoting a safe and healthy environment in our broader community.

We are dedicated to promoting a safe and healthy environment both within the company and in the communities where we operate. This includes adhering to environmental regulations and supporting sustainable practices.

Environment, Sustainability and Governance:

We conduct our business with integrity, ensuring that our operations are sustainable and contribute positively to society and the environment. We are committed to fair trade practices, ethical sourcing, and minimizing our environmental impact. We encourage Environmental, Social, and Corporate Governance (ESG) practices as a fundamental part of our business approach. This includes developing and implementing policies that address key sustainability issues, engaging with stakeholders, and continuously improving our practices to meet our organizational goals and societal expectations. The Packages Group Sustainability Policy reflects this commitment.

Diversity and Inclusion:

We celebrate diversity and are committed to building an inclusive workplace where all individuals feel valued and respected. We believe diversity drives innovation and enhances our ability to serve our Global customers.

Human Rights:

We are committed to respecting and promoting human rights in all aspects of our business. This includes the prohibition of child labor and forced labor, the promotion of diversity and women's rights, and respect for the rights of people to use their natural resources and the right to health. We ensure that our operations do not infringe on the rights of individuals and communities and that we actively contribute to their protection.

Third-Party/Supplier Engagement:

We are committed to fair and responsible sourcing practices. Our relationships with suppliers and business partners are based on mutual respect, and we select suppliers based on objective criteria, including quality, reliability, and adherence to ethical practices.

- We expect our suppliers to share our commitment to ethical conduct.
- We communicate clearly with our suppliers/third-parties.
- We listen to all our suppliers/ third-party and seek to engage with them constructively.

There is a separate Code of Conduct for our suppliers to ensure adherence to our values and commitments.

RESPECT

We treat people with respect and dignity.

Equal Opportunity Employer:

Packages Group recognizes the value of striving for a balanced workforce and is committed to the principles of equal opportunity, equality of treatment and creating a dynamic environment where diversity is valued as a source of enrichment and opportunity. All phases of the employment relationship – including recruitment, hiring, training,

promotion, compensation, benefits, transfers, layoffs and leaves of absence will be carried out by all managers without regard to any race, color, religion, gender, age, ethnicity, national origin or disability.

Abuse of Alcohol or Drugs and Gambling:

All employees shall personally contribute to promoting and maintaining a climate of common respect in the workplace. Particular attention should be paid to respect the feelings of others.

No employee in Packages Group shall work under the effect of alcohol or drugs, or substances with similar effects.

It is strictly prohibited to:

- Hold, consume, offer or give for whatever reason, alcohol or drugs, at work and in the workplace.
- Smoke in areas where smoking is not allowed.
- Gamble or bet within the workplace.

Workplace Harassment:

We believe that it is the right of every employee at Packages Group to work in a dignified environment. To achieve this and to promote a harmonized work culture, we will provide equal opportunities for development and growth regardless of gender, race, color, creed or religion.

'Harassment' means any unwelcome sexual advance, request for sexual favors or other verbal or written communication or physical conduct of a sexual nature, or sexually demeaning attitudes, causing interference with work performance or creating an intimidating, hostile or offensive work environment, or an attempt to punish the complainant for refusal to comply to such a request or is made a condition for employment. Its scope covers both male and female employees. There are three significant manifestations of harassment in the work environment:

a) Abuse of authority:

A demand by a person in authority, such as a supervisor, for sexual favors in order for the complainant to keep or obtain certain job benefits, be it a wage increase, a promotion, a training opportunity, a transfer or the job itself.

b) Creating a hostile environment:

Any unwelcome sexual advance, request for sexual favors or other verbal or physical conduct of a sexual nature, interferes with an individual's work performance or creates an intimidating, hostile, abusive or offensive work environment. The typical "hostile environment" claim, in general, requires finding of a pattern of offensive conduct, however, in cases where the harassment is particularly severe, such as in cases involving physical contact, a single offensive incident will constitute a violation.

c) Retaliation:

The refusal to grant a sexual favor can result in retaliation, which may include limiting the employee's options for future promotions or training, distorting the evaluation reports, generating gossip against the employee or other ways of limiting access to his/her rights. Such behavior is also a part of the harassment.

Process for Filing a Complaint

1. The employee (the victim) shall raise a complaint in accordance with the Anti-Harassment Policy of the respective group company. The complainant may wish to discuss the case with the immediate supervisor for guidance in this regard.
2. The Chief Anti-Harassment Officer (CAHO), usually the HR Head of the respective company, will study the complaint in detail and determine if the complaint comes under the purview of the Anti-Harassment Policy. In case if the complaint is outside the purview of the Anti-Harassment Policy, the complainant would be informed accordingly by giving reason(s). In case the complaint is found to be under the purview of the Anti-Harassment Policy, the CAHO will then forward the complaint to the Special Inquiry Committee established for this purpose. During this course, the CAHO may contact the complainant by phone or may require the complainant to meet in person, so that the details of the complaint can be further clarified.
3. To block the implication of the misuse of this Policy, the basic requirement for the implementation of its clauses and formal undertaking of an inquiry, the following two conditions are hereby kept as pre-requisites:
 - All allegations must either have at least one witness, or in case of no witness, any other written or recorded or pictorial evidence or in case of no such evidence to support the allegations, at least a circumstantial evidence or an inference based on incidental logic and reasoning.
 - The complainant shall declare and disclose her/his full name and correct identity, at the time of filing of the complaint, which will be kept confidential at all times.
4. No anonymous or conditional complaint shall be entertained.
5. All complaints shall be reported and investigated in accordance with this policy and any other applicable laws and regulations on Harassment.

Furthermore, harassment can occur in a variety of circumstances such as:

- Advances, propositions, suggestions or pressure for social activities outside of work, where it has been made clear that these are unwelcome.

- Conduct which is discriminatory, intimidatory, physically or verbally abusive, including the display of explicit material, humour or comments of a sexual or racial nature or related to a person's abilities or disabilities whether directed specifically at any particular individual or not.
- Spreading malicious rumours or insulting someone by word or behaviour (particularly on the grounds of age, race, sex, disability, sexual orientation and religion or belief).
- Unfair treatment or misuse of power and position.
- Making threats or comments about job security without foundation.
- For further details please refer anti-harassment policy of the respective company.

Email, Computers and Network Security:

Protection of the Company's assets and proprietary information.

All employees must follow the Group's policy to limit Internet access to official business during work.

All employees using the Company's Internet connection and e-mail accounts are acting as representatives of Packages and therefore should act accordingly, in order to avoid damaging the reputation of the Company.

The introduction of viruses or malicious tampering with any computer system is expressly prohibited.

No employee shall visit illegal or unethical sites or distribute illegal or unethical material. Obscene, derogatory or racially intolerant websites and material is also forbidden.

Activities that compromise network security are strictly forbidden. The disclosure of system IDs, passwords or information which can cause penetration into our network and security framework, is also not allowed. Employees shall not place Company material (copyrighted software, internal correspondence, etc.) on any publicly accessible Internet computer without proper permission.

The Company reserves the right to inspect the computer system of any employee of Packages Group for violations of this policy.

Packages Group's physical and intangible assets, as well as its proprietary information, are the key to the Packages Group's success. They should be used only to achieve business goals and should be protected to preserve their value. Any use of the Group Company's assets or proprietary information by any employee in other business or personal activities is forbidden. All Group Company assets and proprietary information must be returned to the Group Company on cessation of employment.

Employees may know considerable amounts of proprietary or other information i.e. "confidential information" as part of their job which may be in written, electronic, or any other

form. It should not be disclosed to anyone outside Packages Group without the express permission of his/her supervisor. It is the duty of every employee to protect, use and operate all the corporate assets (all moveable and immovable assets) with the utmost care, due diligence and honesty. In case, it is observed by any employee that the corporate assets are being misused/mishandled by some other employees/individuals, the matter should be immediately reported to the management of the respective Group Company.

All Group employees are responsible for the security and proper use of the Company's physical and intangible assets under their control and of third-party assets in their care.

LEAD

We aspire to lead in everything that we do.

Leadership opportunity:

- We expect our leaders to maximize our present and seize the future; the underlying leadership philosophy for us is the "Care and growth model".
- We believe in possibilities; nothing is impossible.
- We take leadership positions in all our markets.
- We aspire to build authentic leaders who say what they mean and mean what they say.
- We live by our values and, appreciate and recognize the same in others.
- We add value daily and look for future opportunities. We are committed to making a great organization.

Packages Group encourage its employees to lead from the front and provides opportunities for learning and development to its young and seasoned executives to grow and take up senior roles and become future leaders.

Public Activities and Relationships with Stakeholders:

Agreements with all our stakeholders working for any of Packages Group Company in any capacity including business partners, suppliers, vendors, financial advisers, agents or consultants shall clearly specify the services to be performed for the Company, the amount to be paid, and all other relevant terms and conditions. All payments and transactions shall be supported by documents.

Code of Conduct Compliance:

Compliance:

Packages Group will enforce this Code of Conduct by investigating any reports of misconduct or rules being broken. Where infringements are proven, actions will be taken to prevent this from happening again.

This process will be full and fair for everyone involved. We will ensure confidentiality for anyone reporting violations. Those reporting potential wrongdoings in good faith will not be

fired, suspended or discriminated against. Correspondingly, action will not be taken against anyone accused of wrongdoing before an accusation has been duly investigated.

If it is established that the Code of Conduct has been broken, Packages Group may take disciplinary action and in serious cases even terminate employment agreements.

Code of Conduct for Partners:

We also require all agents, consultants, vendors and business partners who work on behalf of Packages Group to comply with these same laws and practices that defines our conduct and how we do business (including Packages Group sustainability requirements for suppliers).

Whom to Report:

If you have any questions about issues related to this Code of Conduct you may wish to contact your own supervisor first or send your questions to your respective Head of Internal Audit.

Packages Group is recognized for its strong cultural and ethical values. Likewise, it expects all its employees to demonstrate exemplary conduct during all their dealings. Compromising ethics almost always leads to failure!

Ask Before You Act:

It's important that you fully understand the Code of Conduct and what it means for you. You must take responsibility for learning the rules and ensuring that they are followed everywhere you work.

If you need more information or advice on the Code of Conduct, don't hesitate to get in touch with someone who can help you. Such people include your own supervisor, Head of Internal Audit or Head of HR of the respective group company. This Code of Conduct is a summary of the key ethical policies, principles and guidelines relating to Packages group operations. The company's official policies and guidelines are available at the intranet portal of the respective companies.

Note: Certain jobs within Packages Group are covered by further specific policies and guidelines that need to be understood in addition to the rules set out in this code of conduct.

HONESTY

Truthfulness, integrity, and trust form the backbone of all our activities.

- Our actions are ethical and credible. We ensure transparency and fairness in all our dealings.
- We are respectful in our interactions with others and maintain the highest moral standards even in the most difficult situations.
- Our commitment to honesty is evident in our appreciation and welcoming attitude towards candid feedback.
- We remain truthful with ourselves, our people, our organization, our customers and our community in all of our dealings.

Responsible Business:

- We comply with all applicable local, national and international laws, regulations and voluntary commitments wherever we do business.
- We conduct business transactions with the best interests of Packages Group and the community in mind.
- We show zero tolerance for corrupt activities of any kind, either in our own operations or when we work with partners.
- We support free and fair competition by never becoming involved in price-fixing, market sharing or other anti-competitive practices.
- We take care of the Company's valuable property and safeguard confidential information.
- We communicate with our stakeholders in a clear manner.
- We listen to all our stakeholders and seek to engage with them constructively.

Ethics, Transparency, Fairness and Professionalism:

In conducting business, Packages Group is inspired by and complies with the principles of loyalty, fairness, transparency and efficiency.

Any action, transaction and negotiation performed and generally, the conduct of all employees in the performance of their duties is inspired by the highest principles of fairness, completeness and transparency of information, clarity and truthfulness of all accounting documents, in compliance with the applicable laws in force and internal regulations.

Bribes, illegitimate favors, and requests for the personal benefit of oneself or others, either directly or through third parties, are prohibited without any exception.

It is prohibited to pay or offer, directly or indirectly, money and material benefits and other advantages of any kind to third parties, whether representatives of governments, public officers or private employees, in order to influence or remunerate the actions of their office.

Conflict of Interest:

Packages Group expects all employees to be free from actual or potential conflicts of interest.

A conflict of interest occurs whenever the prospect of direct or indirect personal gain may influence or appear to influence an employee's judgment or actions while conducting the business in which the employee has a prime responsibility towards the Company and is expected to avoid activities or transactions that clash directly with the interest of the Company. Such situations can arise in a number of ways.

Some of the specifically forbidden situations are outlined below. This list is, however, neither exhaustive nor all-inclusive. In case of doubt, management advice should be sought. For further information, please refer to the Conflict of Interest Policy.

- Any employee or his/her family member in a position to exert influence, having an interest in any organization supplying goods or services to the Company.
- Any employee conducting personal business activities on the Company premises or using company facilities for such purposes.
- Gaining personally from, performing any work for, or serving as a consultant, advisor, employee, or director of any competitor, supplier, or customer.
- Any employee serving as an officer or Chief Executive Officer (CEO) of any other Company, or in any management capacity for, or as a consultant to any individual, firm or Company seeking to do business with any Group Company or its affiliate, except with the knowledge and prior consent of top management of the Group Company.

For the purpose of this Code, Family includes Spouse, parents, Children, grandparents, grandchildren, Cousins, Aunt/Uncle, Niece/Nephew, domestic partner, siblings, Step/Half family relations, In-Laws or a person living in one house or any other person with such a close bond as to suggest conflict in the employment. For further details, please refer to the Family Relations Policy.

- Using Group equipment, assets, or time to engage in non-Group activities, unless expressly authorized in writing by the CEO of your Group Company.
- Engaging in any financial transaction with or possessing or controlling any financial interest in any competitor, customer, or supplier, whose securities are publicly traded on a stock exchange.
- Family Members can work in Packages Group, provided they are not working in the same unit or in any capacity where one position might be able to influence the other one. If the employee's family member has applied for a position at Packages Group, then the employee will not be allowed to participate in the selection or recruitment of that position.

In case a family relationship develops within the organization or within a Group company after employment, then the employee will be required to inform Human Resource (HR) in writing immediately.

- Accepting compensation or anything of material value (equivalent to Rs.10,000 or above) from third parties that have or propose to have a business relationship with any Group.

Reporting Conflicts:

Any actual or potential conflict of interest has to be reported in writing to HR.

Confidentiality:

Employees shall not keep or make copies of correspondence, documents, records, or lists of clients or customers without prior approval of the Head of Department. An employee shall not disclose or reveal any information on behalf of the

Company to print or electronic media as well as any other information medium, unless he/she is authorized to do so.

All copies of correspondence, documents, records, and lists of clients or customers, shall be surrendered to the Company when an individual leaves the Company's employment or is no longer affiliated or connected with the Company.

The Company information and records should be kept within the Company premises and on approved company devices e.g. laptops. Unpublished information may be disclosed to external organizations or individuals only on a "need-to-know" basis upon explicit management approval.

Corruption:

We show zero tolerance for any kind of corrupt activities.

Taking or giving bribes is strictly prohibited in our Group Companies. We comply vigorously, with the relevant anti-bribery laws. It is also our policy to require all our stakeholders working for, or representing, any of the Packages Group Companies, in any capacity, including business partners, suppliers, vendors, consultants, financial advisers, and agents, to comply with these laws and practices.

Non-compliance with anti-bribery legislation can have serious legal consequences for Packages Group and the individuals involved. It is also important to remember that offering or accepting gifts, hospitality, or expense payments is prohibited if they are of unreasonably high value more than Rs. 5,000 (this amount to be reviewed every year) or could inappropriately affect business transactions.

Allowed:

- Gifts or hospitality must never consist of cash or cash equivalents. Gifts or hospitality should not be extravagant or excessive in value. Maximum value should not exceed Rs. 10,000.
- Gifts or hospitality should not be offered in ways that make recipients feel that the giver expects something in return.
- Gifts or hospitality should be given and accepted openly in front of others, to make it clear that there is nothing to hide.
- Packages Group always pays the travel and accommodation expenses of the Company's own personnel.
- Normal business courtesies such as paying for a meal or sharing a taxi may be considered as reasonable hospitality.
- Any gift or hospitality which is of greater value and can potentially impact the business dealings, should be immediately reported to the supervisor and surrendered to HR for appropriate action.

Professional Relationships:

Every employee of Packages Group needs to maintain a professional relationship with suppliers, customers and other stakeholders. They need to ensure that Packages Group inculcates the value of professionalism in all its subsidiaries

and among its employees. So, all employees working in the Packages Group dealing directly with suppliers and customers need to make sure that professional relationships is before any personal interest of the employee. Being in business everyone has to ensure their professional commitment and the reputation of the Group.

Anti-Fraud Policy:

Fraud is defined as an intentional, false representation or concealment of a material fact for the purpose of securing an unfair or unlawful gain. Fraud that may involve any of the following matters must be reported. This list is only for reference purposes and should not be considered exhaustive:

- Misrepresentation of facts;
- Misappropriation/theft or misuse of the Company's assets such as money, equipment or supplies;
- Unlawfully obtained revenue and/or assets;
- Falsification of revenue, costs and expenses;
- Making profit as a result of insider knowledge of Company activities;
- Bribery or corruption;
- Disclosing confidential and proprietary information to outside parties;
- Forgery or alteration of documents;
- Paying of excessive prices or fees to third parties with the aim of personal gain.
- Accepting or offering kickbacks or gifts intended to, or which may appear to, influence the business judgment.

Fraud in all its forms is wrong and is unacceptable to the Group. All stakeholders must carry out their activities/business in such a way that it prevents fraud from occurring.

Confidentiality and Non-Retaliation:

All reported instances of fraud including the identity of those providing information will be kept confidential in order to conduct an appropriate, fair and thorough investigation. Necessary protection would be provided to the informant. No retaliatory action against any individual for reporting in good faith under this policy will be tolerated. However, false reports would be subject to disciplinary action.

Blacklisting:

Any vendor, service provider, customer, contractor, agency, distributor etc. will be blacklisted who is convicted of fraud under this policy. Details of such blacklisted parties will be shared with all Group Companies to curtail business relations with them and avoid potential financial or reputational loss.

Responsibility for Prevention and Detection:

All employees are responsible for the prevention and detection of fraud, misappropriation and other irregularities. All employees are required to be familiar with the types of

fraud that might occur in their respective areas, be alert for any indication of fraud or improper activities and maintain controls to avoid such occurrences.

In case of knowledge, suspicion or detection of any such activity by any person, the information must be promptly reported for thorough investigation and prevention. It can also be reported through a whistleblowing platform.

Disciplinary action will be taken against any person found guilty as per company policy.

Dealings in Securities/Shares and Insider Trading:

Packages Group employees shall not trade or pass on inside information at any time to any other person, inside or outside Packages Group. Inside information refers to the information about Packages Group, its business, or other companies with which Packages Group is doing business or negotiating, that is not generally known to the public, but would likely, if known generally, affect the price of a Company's shares or influence a person's investment decisions.

Packages Group employee or his/her family (spouse, parents, grand-parents, sons and daughters) must not deal in shares of a listed company in which they work and its listed Group Companies in following circumstances:

- during the closed period; or
- if he/she is in possession of inside information about the company; or
- deal in shares for short term gains (less than six months).

If any executive or his/her relatives mentioned above, purchase or sell shares of a listed company in which they work, the concerned executive must immediately inform the Company Secretary, in the prescribed format, about the quantity and price of the shares purchased/sold. The Company Secretary shall pass on this information to the stock exchange and the Securities and Exchange Commission of Pakistan (SECP) in the prescribed format.

The concerned executive will also need to report electronically to SECP, on the prescribed format, the purchase or sale of shares using his or her own password/PIN within seven days of the date of the transaction.

Packages Group employee should not pass on inside information at any time to any other person or encourage another person to deal in shares of its listed group companies on the basis of such information, even if the employee does not gain directly from the arrangement.

Packages Group employees should be aware of and comply with any local laws and regulations governing share dealings.

Organizational Structure

Some employees, because of their roles and responsibilities, will be in regular possession of inside information or may have access to such information, at particular times of the year. These individuals are referred to as Employee Insiders. The employee will be notified in writing by the Company Secretary if he/she is in this category and hence may not deal in stock until he/she obtains written confirmation that he/she may deal or has been taken off the Insider List. The Company Secretary may be contacted for advice in this area.

COURAGE

We Stand up for what we believe in.

- We are passionate and courageous in pursuing our dreams.
 - The other side of fear is freedom; we value freedom.
 - We have the audacity to look at new challenges and adjust our sails accordingly.
 - We stress upon suspending self-interest for the greater good.

Packages Group expects its employees to show courage in all their dealings and conduct by working with the highest professional and ethical standards. They should have the courage to speak up if they identify any violation of the Code of Conduct, rules and regulations of the Company, Group or Country.

Whistle Blow:

Packages Group is committed to the highest standards of ethical, moral and legal business conduct. In line with this commitment and the Company's commitment to open communication, this policy aims to provide an avenue for employees to raise concerns with reassurance that they will be protected from reprisals or victimization for whistle-blowing.

The types of issues which can be reported under this policy include but are not limited to:

- Breach of the Code of Conduct;
 - Corruption and bribery;
 - Harassment;
 - Misappropriation of financial data/reports;
 - Fraud/Forgery/financial malpractices;
 - Deliberate falsification of company records;
 - Misuse of company's assets;
 - Violation of applicable laws and regulations;
 - Actions raising safety, security, and environmental concerns;
 - Damage to the company's reputation or business; and
 - Disrespect and/or discrimination of employees on the basis of race, color, gender, ethnicity, age, nationality, ancestry, religion, physical/mental disability or marital status.

Complaint Reporting and Investigation

Procedure

Note: Complainants have the right to raise complaints anonymously but they are encouraged to include contact information which would be useful during the investigation. However, anonymous complaints are discouraged and may not attract any action thereon unless there is sufficient evidence provided along with it to proceed further.

Confidentiality and protection of the complainant's identity would be ensured. Internal Audit Department may involve/ consult relevant departments for investigation of the complaint.

Complaints regarding harassment or employee grievances will be referred to HR for handling the matter as per the “Anti-Harassment Policy” and “Grievance Policy”.

- Any employee, contractor or stakeholder who believes that he/she has been a victim of discrimination, or harassment, or becomes aware of any activity which is not in the best interests of the company or breaches the Code of Conduct or law should immediately report the issue. Confidentiality of all complaints would be ensured and appropriate remedial action would be taken after thorough verification/investigation of underlying facts and details.
 - All personnel reporting must ensure confidentiality of the information and must not share or spread any unsubstantiated/false claims. Spreading false claims could result in disciplinary action against such personnel.
 - Whistle-blowing complaints can be raised through communication means mentioned in the respective whistle-blowing policy or by directly approaching the Head of Internal Audit of the respective company or sending an email to the respective company's whistle-blowing email address.

FROM THE PAST

Packages Limited was born in 1956 as a joint venture between the Ali Group of Pakistan and Akerlund & Rausing of Sweden.

Historical Overview

Packages Limited was established in **1956** as a joint venture between Ali Group of Pakistan and Akerlund & Rausing of Sweden, to convert paper and paperboard into packaging for consumer industry. Over the years, Packages has continued to enhance its facilities to meet the growing demand of packaging products.

In **1968**, with IFC participation, Packages integrated upstream by establishing a Pulp and Paper Mill with a capacity of 24,000 tons per year based on waste paper and agricultural by-products i.e. wheat straw and river grass. With growing demand, the capacity was increased periodically.

In **1982**, Packages modified a paper machine to produce tissue paper in response to growing awareness and demand for hygienic and disposable tissues. The "Rose Petal" brand name was launched with facial tissues and was later expanded to include toilet paper, kitchen roll, and table napkins.

In **1986**, the Company established a flexible packaging unit to cater to the increasing demand from consumers for sophisticated packaging used primarily in the food industry.

In **1993**, a joint venture agreement was signed with Mitsubishi Corporation of Japan for the manufacture of Polypropylene films at the Industrial Estate in Hattar, Khyber Pakhtunkhwa. This project, Tri-Pack Films Limited, commenced production in June 1995 with equity participation by Packages Limited, Mitsubishi Corporation, Al-Tawfeek Company for Investment Funds, Saudi Arabia and general public.

In July **1994**, Coates Lorilleux Pakistan Limited (currently DIC Pakistan Limited), in which Packages Limited has 54.98% ownership, commenced production and sale of printing inks. During the same year, the Company initiated the capacity expansion of its Paper and Board Mill to 65,000 tons per year and conversion capacity to 56,000 tons per year. At the same time, the Company also upgraded the quality of Packages' products and substantially improved pollution control to meet the World Bank environmental guidelines. The said expansion was completed in 1998 at a cost of PKR 2.7 billion.

In **1996**, Packages entered into a joint venture agreement with Printcare (Ceylon) Limited for the production of flexible packaging materials in Sri Lanka. The project, Packages Lanka (Private) Limited, in which Packages Limited has 79.07% ownership, commenced production in 1998.

During **1999-2002**, Packages successfully completed the expansion of the flexible packaging line by installing a new rotogravure printing machine and enhancing the carton line by putting up a new lemanic rotogravure inline printing and cutting creasing machine. In addition, a new 8-color flexographic printing machine was also installed in the flexible packaging line in 2001. Packages commenced production of corrugated boxes from its plant in Karachi in 2002.

In **2005**, the Company embarked upon its Paper & Board expansion plan at a new site in Kasur by the name 'Bulleh Shah Paper Mills' (currently Bulleh Shah Packaging (Private) Limited), almost tripling its capacity from 100,000 tons per annum to 300,000 tons per annum. Capacity expansion at Bulleh Shah Paper Mills was completed in two phases. In the first phase, Brown Board Machine (PM-6) along-with high yield straw pulping & OCC plants and its back processes such as 11 MW Power House, Gas Turbine and Primary Effluent Treatment Plant were capitalized and commercial operations commenced during the year 2007. Second phase comprising of Writing and Printing Paper Machine (PM-7), De-inking Pulp Plant, 41MW Power House, Steam Turbine and Secondary Effluent Treatment Plant was completed in the year 2009.

In **2008**, the Company embarked upon capacity expansion in its tissue division through installation of a new tissue paper manufacturing machine (PM-9) with production capacity of 33,000 tons per annum.

During **2011**, a lamination machine was installed in the flexible department at a cost of PKR 96 million. This was Pakistan's first high speed solvent-less automatic lamination machine. It has turret winders for automatic reel and a capacity of 450 meters per minute.

The rebuild project of Paper Machine (PM-6), installed at Bulleh Shah Paper Mills, was completed in the second quarter of 2011 leading to capacity expansion of 30,000 tons. The machine started commercial operations with enhanced capability of producing high value added liquid packaging and bleached board. Moreover, the Corrugator Machine in Kasur Plant was upgraded in 2011 to improve efficiency, reliability, enhance capacity and reduce waste. This upgrade activity resulted in increased capacity of 14%.

In **2012**, the Company invested in a rotogravure machine for its Flexible Packaging business with a total estimated project cost of PKR 326 million as part of the Company's efforts to remain abreast of improved technological developments in the packaging business. In the same year, to enable continuous growth and technical development in the Paper & Board segment, Packages

signed a 50/50 joint venture agreement with Stora Enso OYJ Group of Finland in its 100% wholly owned subsidiary, Bulleh Shah Packaging (Private) Limited. The joint venture included Paper & Board and Corrugated business operations at Kasur and Karachi. The Agreement signed in 2012, was implemented in 2013 and Packages completed the transfer of assets and related obligations of Paper & Board and Corrugated business operations to Bulleh Shah Packaging (Private) Limited along with cash equity injection for a 65% stake.

During **2014**, the Company invested in an Offset Printing Line in continuation of its efforts to remain abreast of improved technological developments in the packaging business. The Offset Printing Line commenced its commercial operations during the first quarter of 2014 and had made available additional capacity to meet growing customer demands in the Folding Carton business. In May 2014, as part of its asset and income diversification strategy, the Company initiated development of a high-quality retail mall at its Lahore land through its subsidiary, Packages Real Estate (Private) Limited [formerly Packages Construction (Private) Limited]. The Company currently holds 75.16% equity in Packages Real Estate (Private) Limited.

In **2015**, as a part of its continuing efforts towards technological up gradation, the Company invested in a new toilet roll line to cater to the growing demand. A new brand by the name of "Maxob" produced on this machine was launched. In line with strategy to diversify and enter into new high growth markets, in June 2015, the Company completed the acquisition of 55% share in the operation of a flexible packaging company in South Africa. Further, during 2015, the Board of Directors resolved to start a 50/50 joint venture with Omya Group of Switzerland with an intent to set up a production facility to supply a range of high-quality ground calcium carbonate products.

In **2016**, as a part of Company's continuing efforts towards technological up gradation, the Company invested Rs 292 million in a new offset printing line having double coating capability to cater to the growing demand in the folding cartons business. The Company also made an investment of Rs 122 million in the pre-press department for a state of art engraving machine and cylinder making line. This investment was in line with the Company's efforts to provide its customers with the highest quality of printing. Further, the Company made strategic investments of Rs 82 million including a new facial line, toilet roll line and a fully automated party pack machine to meet growing customer demand.

In line with strategy to diversify, the Company incorporated a wholly-owned subsidiary, Packages Power (Private) Limited, for the purpose of setting up a 3.1 MW hydropower project with an initial equity injection of Rs 25 million.

The Company also made an additional investment of Rs 309.5 million in the equity of Omya Pack (Private) Limited [formerly Calcipack (Private) Limited].

In **2017**, the Company invested Rs 540 million in upgradation of the flexible packaging line that includes wide-web Flexo Printing Press as well as a state of the art 7-layer blown film extruder which not only boasts of higher production capabilities but also adds depth to the packaging solutions. Further investments to the tune of Rs 105 million was made in the downstream operations of lamination, slitting and bag making to complement the additional capacity brought in. All these investments were in line with the Company's efforts to provide its customers with the highest quality of packaging solutions for Flexible Packaging line and to grow the market share despite ever growing competition by staying ahead of the technological curve.

Packages Mall was inaugurated on April 20, 2017 and the customer response since then has been very encouraging. The mall has been designed on international standards by a team of foreign and local professionals. Packages Mall offers over 180 brands, a multiplex cinema, food court, play area and grocery solution all under one roof.

During the year **2017**, the Company acquired 35% shares held by Stora Enso in Bulleh Shah Packaging (Private) Limited and hence BSPL became the fully owned subsidiary of the Company from September 18, 2017.

In **2018**, investment was made for upgradation of flexible packaging line that includes wide-web Flexo Printing Press as well as a state of the art 7-layer blown film Extruder which was successfully completed and made fully operational. This packaging line has not only boosted of higher production capabilities but also given the Company a competitive edge over its competitors. The Company has yet again proven itself to be a pioneer in Flexible Packaging by investing Rs 230 Million to bring in the first ever Extrusion Lamination machine in Pakistan. The Company has invested an approximate Rs 400 Million in enhancing and upgrading its Rotogravure printing capabilities by bringing in a new wide web Roto Printing Press. Further, the Company invested Rs 581 million on installation of a new offset packaging line that includes a 7 color printing press with 2 coating units and cutting creasing machine as well as a state of the art folding gluing machine with speed wave technology which has not only boosted of higher production capabilities but also added depth to the packaging solutions.

During the year **2019**, the Company made investment to enhance the capability of one of its Rotogravure presses installed in its folding cartons business unit. This expansion not only boosted the Company's production capability but also gave the Company a competitive edge over its competitors. The Company yet again proved itself to be a pioneer in Packaging industry and the only one to have a 10 colour Rotogravure press with an additional UV unit in Pakistan.

The Company also invested in a bag making machine during the year to get into new markets including growing E-Commerce Market. New inroads were developed to further grow the label printing business. In line with Company's environmental sustainability initiatives, an Energy Monitoring System was installed to monitor/improve power consumption.

In **2020**, Packages Limited transferred its manufacturing businesses to a wholly-owned subsidiary, Packages Convertors Limited ('PCL') after securing all applicable regulatory approvals. Packages Limited now operates as an investment holding Company and derives income from dividends, rentals, and technical fee from its investee companies. The performance of the Company is determined by the financial performance of its portfolio investments & group companies which are operating within and outside Pakistan. The Company makes investment in line with the overall objective to improve shareholder's value by increasing and diversifying revenue streams, expanding existing customer base and through prospects in new technology.

In **2021**, the Board of Directors of Packages Limited approved the formation and funding of a new company called StarchPack (Private) Limited to engage in the business of manufacturing and distributing corn-based starch and its derivative products.

Packages Limited also entered into an agreement with Mitsubishi Corporation to purchase its stake of 19.33% in the shareholding of Tri-Pack Films Limited. On December 31, 2021, the Company concluded the transaction and acquired a further 16.59% of shareholding in Tri-Pack Films Limited from the public following the conclusion of the public offer. Packages Limited now has a total shareholding of 69.26% in Tri-Pack Films Limited.

In **2022**, subsequent to the approval of the Board, the Company, as part of Investor Consortium, entered into Share Purchase Agreement with Sanofi Foreign Participations B.V. on April 29, 2022 for acquisition of its 52.87% shareholding in Sanofi Pakistan.

Board of Directors of the Company in a meeting held on April 27, 2022 accorded its approval for incorporation of a wholly owned foreign subsidiary in the UAE, subject to all applicable regulatory approvals. This subsidiary has been incorporated under Dubai Integrated Economic Zones Authority Implementing Regulations, 2022 and registered with Dubai Integrated Economic Zones Authority under the name Packages Trading FZCO. The subsidiary will be primarily engaged in commercial trading with import, export, distribution and warehousing as its ancillary activities.

In **2023**, subsequent to the share purchase agreement with Sanofi, Packages Limited further acquired 35% shareholding in Sanofi Pakistan at a negotiated purchase price of Rs 940 per share. In September 2023, the name of Sanofi Pakistan was changed to Hoechst Pakistan Limited (HPL). Sanofi-Aventis has been present in Pakistan for over half a century and was incorporated in 1967 as Hoechst Pakistan Limited, started manufacturing pharmaceuticals and specialty chemicals in 1972 and went public in 1977. The name 'Hoechst' encapsulates the rich legacy of the Company since making its footprint in Pakistan and embodies its vision in enhancing value for the community and its stakeholders. Packages Limited has a total shareholding of 41.07% in HPL. StarchPack (Private) Limited also started its native starch manufacturing operations at Kasur at the end of 2023.

In **2024**, the commercial production of value-added starch products were started by StarchPack (Private) Limited. Further, an offset packaging line was installed at Korangi, Karachi to enhance the production capacity of business unit Folding Carton of Packages Convertors Limited.

- Obtaining a new user ID requires approval from the HR.

Disaster Recovery Plan (DRP)

Packages Group business functions are heavily dependent on Information Services including networks, systems, and applications for daily business operations. The inability of Information Services to function specifically the inability to ensure data center operations, would immediately impact Packages Group's various business departments which may result in significant monetary loss, work backlog, and have an adverse effect on the company's reputation. To counter this, an Information Technology Disaster Recovery Plan (IT DRP) is in place which captures, in a single repository, all the information that describes Packages Group's ability to withstand a disaster as well as the processes that must be followed to achieve disaster recovery. This DRP has been developed to guide the efficient recovery of information systems supporting Packages Group Headquarters (Lahore), Shahrah-e-Roomi P.O. Amer-Sidhu, Lahore, and the network of branches is located in different cities (all branches). It outlines the background, and procedures, and recovery team's information to recover critical networks, systems, and applications.

The DRP addresses the IT exposures and solutions based on the priorities and requirements of the business. The goals of the Disaster Recovery strategy are to:

- Continue critical IT operations;
- Minimize the duration of a serious disruption to IT operations and resources;
- Ensure IT operations stability;
- Ensure orderly IT operations recovery in minimum time and data loss.

Sustainability Policy

1. Scope and Philosophy

This Policy applies to all employees and third parties who undertake activity for and on behalf of Packages Limited. It applies to all goods and services we procure, our direct operations and services we provide to our customers. At Packages Group we are committed to creating a sustainable society, managing our operations in a way that covers the social, environmental, and economic objectives throughout the value chain, with human rights integrated into all that we do. We are guided by our Core Values – Lead, Care, Respect, Honesty and Courage.

Our Sustainability Agenda is based on the Triple Bottom Line approach of People, Planet and Prosperity, supporting the UN Global Compact on human rights, labor, environment and anti-corruption aiming to follow and promote good sustainability practices where we have influence.

All business activities are carried out under this philosophy and aspire for sustainable results for stakeholders' benefits and acceptance. To do this, sustainability considerations are woven throughout a suite of interdependent policies and procedures, which are implemented collectively to deliver the objectives of our Sustainability Policy.

We are committed to accountability and transparency in our sustainability performance.

2. Objectives

- To promote an ethical company culture that goes beyond complying with regulations.
 - To integrate sustainability into all our business models and decisions.
 - To ensure employees are fully aware of our Sustainability Policy and are committed and empowered to implementing and improving it.
 - To minimize the impact of our activities and products on the environment.
 - To ensure our products and services respond to a growing awareness of sustainability.
 - To make partners aware of our Sustainability Policy and encourage them to adopt sound sustainable management practices.

To review, annually report, and to continually strive to improve our sustainability performance.

3. Policy

Packages Group is committed to contributing to a more sustainable society and to continually improve the positive impacts by:

- Complying with and exceeding where practicable, applicable legislations, regulations, codes of practices and ethical standards.
 - Ensuring the human rights of everyone under the influence of the organization are provided as per the United Nations Guiding Principles.
 - Ensuring a safe and rewarding workplace for all employees, free of discrimination and harassment while aiming to contribute to the vitality of the communities around our operations.
 - Utilizing natural resources with care by creating and seeking approaches and methods of optimized consumption, waste reduction and resource efficiency measures.
 - Ensuring our systems and procedures prevent pollution, and minimize resource consumption.
 - We ensure responsible sourcing of goods and services.

We articulate our shared values, and wherever possible, establish clear metrics and use them to track our sustainability performance.

4. Compliance

Packages Group as part of its sustainability objectives is committed to communicating these objectives to its suppliers, employees and other stakeholders and to support, promote and conform with this Policy.

This Policy and the actions arising from it will be annually reviewed as part of the business strategy.

SUSTAINABILITY

“Sustainable development is the development that meets the needs of the present without compromising the ability of future generations to meet their own needs”

Gro Harlem Brundtland

Sustainability Actions and Drives

Packages Limited was founded in 1956 with a promise! The promise to create a better tomorrow for our people, our planet, and prosperity for everyone. Inspired by these principles, today Packages Group is one of Pakistan's leading business conglomerates. Given the extent of our businesses, ensuring a sustainable operating environment is a top priority. All Packages Group's subsidiaries are aligned with the core values of Care, Respect, Lead, Honesty, and Courage and have come together to create one of the leading examples of sustainability sensitivity in Pakistan.

To ensure that our processes and products comply with the best global standards and are aligned with the United Nations Global Compact, we comply with the various certifications & voluntary commitments we are proud of.

Our people are the most valued asset and we aim to provide a safe and rewarding workplace with equal growth opportunities for everyone. A robust training and development function cater to the capacity-building needs of our people. Aspiring to become a "zero-accident" workplace. We treat safety as a shared responsibility. We provide transportation and a state-of-the-art day-care facility to our female workforce. So that they have the support needed to grow and excel in their professional and personal endeavors. A strong network for women is present in the form of ACTS (Actively Caring Through Sharing) which is our internal platform providing a safe space for mentorship, guidance, and capacity building.

Almost 36% of our Group's energy needs in Pakistan are met through renewable energy sources including solar and biomass. An 8.53 Mega 8.53-watt solar installation in Lahore, 7.47-megawatt Solar installation in Kasur, 7.24 Mega 7.24-watt solar installation in Karachi, and a 15 MW biomass boiler has been installed alongside the existing 30 MW biomass boiler in Kasur., and an OCC recycling plant in Kasur which recycles approximately 1100 tons of waste paper per day, are just a few examples of our commitment to protecting the planet.

We have recently installed Pakistan's first Solvent Recovery Plant which recovers up to 95% of the solvents evaporated during the printing and lamination process.

Wheat straw, an agricultural waste is being utilized as a raw material for making paper as well as a fuel for biomass boilers. The ash from the biomass boiler is also utilized for making pavement tiles replacing 50% of sand. To further utilize this ash, we have partnered with a leading specialty fertilizer

manufacturer in Pakistan for the extraction and conversion of potash-based fertilizer for farmers. Besides working extensively to reduce our freshwater consumption, we have installed an effluent treatment plant in Kasur, one of the largest in the country, which can treat up to 19,000 cubic meters of water per day.

Packages Group's Quality Management System undergoes strict internal and external audits to ensure compliance with the best global standards of quality and food safety to meet our customers' requirements and expectations.

We help in the capacity building of our suppliers and ensure that we take care of our supply chain communities by helping address major issues of healthcare and education. Our primary well-being program, Sehat Mobile provides quality healthcare services to the communities in our supply chain that have limited or no access to medical facilities. To date, over 19,000 patients have benefitted from this project. LSK schools target children of the waste picking communities and facilitate their transition into an education-driven mindset. Now they have a school to attend, free books, tuition-free classes, food and transport, and absolutely no reason to not go to school. The women from these communities are also provided skills that can give them decent livelihood opportunities.

The sponsors of Packages Group have a rich history of educational enablement with examples including the LUMS, Ali Institute of Education, and Naqsh School of Arts to name a few. The Syedanwala Schools in Kasur were established to provide quality education to more than 500 children from 19 different villages.

Packages Group has come a long way in its sustainability journey. We at Packages Group will only work harder, smarter, and faster in our mission to serve the planet and its people in pursuit of sustainable prosperity.

Packages Group: “Creating a better tomorrow”

Sustainability at Packages Group

At Packages Group, sustainability is more than a responsibility – it is a fundamental part of our business strategy. Our mission is to embed environmentally conscious practices into every aspect of our operations, transforming them into a competitive advantage while upholding our commitment to ethical and responsible business. Our vision is to lead the markets we serve by providing quality, sustainable products and continuously innovating to meet evolving customer needs.

Strengthening Our Commitment to a Sustainable Future

In 2024, we took bold steps to strengthen our sustainability commitments, ensuring our business remains resilient, future-proof, and aligned with global best practices. A key milestone this year was the launch of SAP Sustainability Control Tower (SCT), making Packages Group the first company in Pakistan to implement this data-driven sustainability management system. Additionally, our Group Certification under EnMS ISO-50001 now covers 98% of our total energy consumption across eight companies, reinforcing our focus on energy efficiency and responsible resource management.

Taking Action on Climate and Renewable Energy

Our climate action efforts continue to accelerate, with 22.061 MW of installed solar capacity, meeting 32% of our energy needs through renewable sources. At Bulleh Shah Packaging, biomass energy contributed 110.19 million kWh (63%) of total energy, reducing our reliance on fossil fuels while supporting local farmers and rural economies. In our continued efforts toward environmental stewardship, we planted 30,000 trees in 2024, bringing our total to over 90,000 trees – a significant step toward biodiversity conservation and carbon sequestration.

Empowering People: Diversity, Well-being, and Healthcare

People are at the heart of our sustainability efforts. Through ACTS, our women's forum, we expanded initiatives that foster an inclusive and supportive workplace, benefiting 1,980+ employees this year. Our focus on well-being led to free Hepatitis B and C screenings for 734 employees, alongside cervical and breast cancer awareness sessions for 426 women, with 130 free mammograms conducted since 2017. Extending our impact beyond the workplace, our Sehat Mobile Clinic provided primary healthcare to 7,925 individuals across Punjab, Sindh, and Balochistan, making essential medical services more accessible to communities within our supply chain.

Engaging Stakeholders and Building Knowledge

Beyond our operations, we actively engage with stakeholders to drive meaningful change. As part of our commitment to the UN Global Compact, we have engaged 21,000+ stakeholders and trained 15,000+ people on sustainability topics, including Energy & Water Management, Human Rights, Gender Equality, and Climate Action. Our employee learning programs also saw increased participation, with 1,500 employees trained in energy efficiency, 200+ in human rights, and 500+ in responsible business practices and supplier engagement.

Recognition for Our Efforts

The impact of our sustainability initiatives has been recognized at the national level. Our Climate2Equal project, developed in collaboration with the International Finance Corporation (IFC), the Centre of Excellence in Responsible Business (CERB), and the Lahore University of Management Sciences (LUMS), was awarded first place at the Employer of Choice Awards by the Pakistan Business Council and IFC. This reinforces our commitment to workplace equality, inclusion, and responsible business practices.

A Future Built on Trust, Stewardship, and Excellence

Our sustainability approach has evolved from People, Planet, and Prosperity to a sharper focus on Trust, Stewardship, and Excellence. Through our GreenVantage and SustainRight strategies, we continue to lead in low-carbon, circular economy solutions, setting ambitious sustainability targets for the future. We recognize that sustainability is a collective effort, and we invite our employees, customers, suppliers, and stakeholders to join us in shaping a more sustainable tomorrow.

Annual Sustainability Reporting

Transparency and accountability are fundamental to our sustainability approach. Every year, we publish a standalone sustainability report that details our progress, initiatives, and ESG performance. This report is available on our website: <https://www.packages.com.pk/sustainability-reports/>

Stakeholders' Relationship & Engagement

Packages understand listening to stakeholders is vital to our success. That's why your Company is an active participant in identifying and engaging its stakeholders to stay adaptable. The management of your Company believes in having open communication with its stakeholders and ensuring that all information is disclosed to promote transparency and visibility.

The Company engages with a wide range of stakeholders through day-to-day interactions with its partners, regulators, and government bodies; regular dialogue with stakeholders, employees, and investors to follow its business priorities of Innovation, Performance, and Trust in letter and spirit.

In the performance of its legal duty to promote the success of the Company, we have regard to a number of factors, including listening to and considering the views of shareholders and other key stakeholders and are familiar with the potential impacts of decisions it makes on our stakeholders, the environment and the communities in which we operate.

We try to engage with shareholders in several ways. This includes regular communications, the general meetings, corporate briefing sessions and other investor relations activities. We announce our financial results on a quarterly basis and our annual results are included in our Annual Report. All shareholders receive Annual Report and Notice of our Annual General Meeting. We strive to make full disclosure of all material information to all stakeholders by various announcements on our website, to the Stock Exchange and other sources available to help investors to make informed decisions.

Dialogues with stakeholders enable the Company to identify and prioritize significant issues and develop responses that

are in the best interests of society, as well as shareholders. Engagement with the Company's main stakeholder groups, including shareholders, investors and employees, at all levels of the organization and across the enterprise is summarized below:

Shareholders and Investors

- General meetings of shareholders
- Corporate briefing sessions

The frequency of aforementioned engagements is based on business needs and corporate requirements as specified by the Listed Companies (Code of Corporate Governance) Regulations, 2019, Companies Act, 2017 and / or PSX Rule Book or as stipulated and required under defined procedures.

Investors' Grievance / Redressal of Investors' Complaints

Packages Limited is committed to ensure that grievances notified by the shareholders are handled and resolved efficiently at an appropriate level within shortest possible time.

The Company is also committed to provide equal and fair treatment to all shareholders through transparent investor relations, increased awareness, effective communication and prompt resolution of shareholders' complaints. Further, the Company maintains a record of all such grievances along with actions taken for resolution.

Company's ethics for the Shareholders Grievance are as follow:

- All the Shareholders are always treated fairly and equally.
- Complaints raised by shareholders are dealt with courtesy and in a timely manner.
- The Management works in good faith and without prejudice towards the interests of any of the shareholders.

The Company has internally established a mechanism for shareholder grievances handling. The Company has a dedicated Shares Department and appointed an independent Share Registrar (FAMCO Share Registration Services Pvt. Limited) to provide share related services and to resolve issues of the shareholders.

Complaints are initially lodged with the Shares Department and Share Registrar of the Company who expeditiously takes necessary actions. The Share Registrar forwards the complaints to the Company if these fall outside their domain.

The shareholders can submit a complaint through a dedicated email address (share.desk@packages.com.pk) which is also available at the Company's website in line with directives of SECP. The grievances can also be notified through phone call or post to the Company.

Issues Raised at the last General Meeting

No significant issues were raised by the shareholders during the General Meeting, however an interactive Q&A session took place amongst the shareholders and the Management and the queries were answered to the satisfaction of the former by the latter.

Investors' Section on Website

In order to provide ease of access to information, Company's latest information for investors and other stakeholders is available on our website, under the "Investors" section and can be accessed at <https://www.packages.com.pk/investor-relations/>

This page is updated in order to provide transparent, adequate and updated information to all investors and stakeholders in compliance with the rules and regulations of SECP.

Reasonable opportunity to the shareholders for participation in the General Meetings

Keeping in line with the rules and laws, Packages circulates the notice(s) for its general meetings in widely circulated English and Urdu newspapers across Pakistan along with due publication using PUCARS, the automated system of the Pakistan Stock Exchange. In addition to the above, general meetings are held at a convenient location in order to facilitate the attendance of the shareholders. Also in line with requirements of the SECP, the meetings are held on a hybrid model i.e. in-person and via video conferencing arrangements to ensure maximum participation while being socially responsible in context of holding large public gatherings.

Brief Roles and Responsibilities of the Chairman and Chief Executive Officer

The Board of Directors has appointed a Chairman from among the non-executive directors. The Chairman and the Chief Executive have separate and distinct roles. The Board has defined the respective roles and responsibilities of the Chairman and Chief Executive Officer.

The Chairman has all the powers vested in him under the Code of Corporate Governance and presides over all Board meetings. The primary role of the Chairman is to ensure that the Board of Directors remains effective in its tasks of setting and implementing the Company's direction and strategy, entrusted with the overall supervision and direction of the Board's proceedings, and has the power to set the agenda, give directions and sign the minutes of the Board meetings. He is also responsible to ensure that the Board plays an effective role in fulfilling its responsibilities, besides assessing and making recommendations on the efficiency of the Committees and individual directors in fulfilling their responsibilities and avoidance of conflicts of interests.

The Chief Executive Officer performs his duties under the powers vested by the law and the Board, recommends and implements the business plans and is responsible for overall control and operation of the Company. The CEO of the Company is to whom all business and functional heads report.

The responsibilities of the Chief Executive Officer include:

- Plan, develop, implement and direct the organization's operational and fiscal function and performance.
- Act as a strategic partner by developing and implementing the company's plans and programs.

Decisions taken by the Board

The Board operates as stewards on behalf of shareholders for the governance of the Company. The Board performs its duties by giving guidelines to the Management, setting performance targets and monitoring their achievements.

As the leaders who oversee the governance of the Company, the Board of Directors' key responsibility is to ensure the Company's prosperity, by collectively monitoring and directing the Company's affairs, whilst protecting the appropriate interests of its shareholders and stakeholders. The Board of Packages is responsible for the Company's system of internal controls, policy frameworks, corporate governance, risk assessments and ultimately accountable for reviewing its effectiveness. The Board is also accountable to the shareholders for ensuring that the Company is appropriately managed and achieves business objectives. The Board remains committed to the highest standards of corporate governance and integrity.

The Board of Directors of the Company meets on quarterly basis, as minimum, as required by the Companies Act, 2017. Moreover, Board meetings can also be convened to approve significant matters such as approval of revenue and capital budget of the Company, to review significant changes in the operations of the Company including plans for expansion, capital and operational restructuring, approval of new policies & procedures and significant amendments to current policies & procedures etc. Due communication is made of all such meetings and their outcome as required by the PSX Rule Book and Securities and Exchange Commission of Pakistan.

In order to adequately delegate, the Board has constituted Board Committees. Each Committee has its own charter along with goals and responsibilities. The Committees report on their activities and results to the Board.

For effective and smooth operations of the Company, the Board has delegated the executive and operational management of the Company to the Chief Executive Officer and the Management team.

Annual Evaluation of Performance of the Board including CEO, Chairman and Board's Committees

In accordance with the Listed Companies (Code of Corporate Governance) Regulations, 2019 (the Regulations), the Board has opted for an in-house assessment with the support of the Company Secretary to carry out an evaluation of its own performance as well as of its individual members and committees.

On yearly basis, Board evaluation process is conducted internally by the Company Secretary who prepares an Evaluation Assessment Questionnaire which is circulated amongst the Board Members to provide their feedback and further insights and perspectives on the performance of the Board.

The salient features of the Board self-evaluation criteria are given below:

- Board composition and quality
- Understanding the business including risks
- Strategic planning
- Board's overall scope of responsibilities, processes and procedures
- The effectiveness and efficiency of the operation of the Board, CEO and its committees
- Oversight of the financial reporting process, including internal controls
- Ethics and compliance
- Evaluating the flow of information

The Company Secretary then draws all the responses together from the information gathered. A strict level of confidentiality is practiced upon receiving of filled questionnaire and Directors' comments by the Company Secretary. Results from performance evaluations are then discussed in detail in the subsequent Board meeting to address the highlighted areas and improve the Board's performance.

In alignment with the statutory requirements, it has been determined that the Board Performance Evaluation will now be conducted by external consultants once every 3 years. This strategic approach aims to enhance the effectiveness and governance of our Board through independent and expert evaluation.

Board Induction and Orientation

The Company Secretary plays a pivotal role in collaborating with the Chairman to design and facilitate individual induction programs for new Board members. These programs are meticulously crafted to orient and familiarize new Directors with the industry in which the Company operates, its organizational structure, governance framework, and overarching objectives. All new Directors receive a comprehensive induction to ensure a smooth transition and alignment with the Company's vision, strategic direction and code of conduct.

Directors' Training Program

As per the requirements of the Regulations, the directors on the Board are required to be trained from SECP's approved institutions.

All the Directors on the Board of Packages Limited have either acquired the Directors' Training Program and hence are certified as such or are exempt from the requirements of Directors' Training Program based on the criteria stipulated in the Regulations.

Significant Changes in Objectives and Strategies

Objectives and strategies are in line with the mission statement and corporate strategy of the Company and there is no material change in Company's objectives and strategies from the prior years.

External Oversight

The Board Audit Committee has ensured safeguarding of the assets of the Company as well as shareholders' wealth through effective operational and compliance controls and risk management.

Policies and procedures are in place for all the areas of the organization. These policies are strictly followed. Further, these are also regularly reviewed and updated for changes.

The Company's Internal Audit function is being looked after by the Head of Internal Audit in compliance with the Code of Corporate Governance. The Head of Internal Audit, who has the required qualifications as prescribed under the Regulations, reports directly to the Chairman of the Board Audit Committee.

Conflict of Interest

The Board has been constituted in compliance with the provisions of the Companies Act, 2017. The members of the Board, including Non-Executive and Independent Directors, exercise full independence and are expected to highlight and recuse themselves in case of any possible conflict of interest. All observations / suggestions of Board members during their proceedings are accordingly recorded and made part of the minutes.

The Company has a clear policy on conflict of interests and the same is contained in the Code of Conduct duly approved by the Board of Directors. As per the Regulations, every Director is required to bring to the attention of the Board complete details regarding any material transaction which has a conflict of interest for prior approval of the Board. The interested Directors neither participate in discussions nor vote on such matters.

Remuneration of Directors

Packages Limited has implemented a policy purpose of which is to have a transparent procedure for fixing the remuneration of individual directors for attending meetings of the board and its committees.

Keeping in view the Company's objectives, Packages operates an independent and transparent method in order to fix Independent/ Non-Executive directors' remuneration. The key element of determining the remuneration is by market benchmarking against other key players of the industry and remuneration is not at a level that could be perceived to compromise the independence of the directors. For the purposes of clarity, no director is involved in deciding own remuneration.

Independent/Non-Executive Directors are only entitled to receive fixed fees in lieu of remuneration for attendance of the Board and Committee Meetings together with travelling and lodging costs borne by the Company.

In light of Directors' Remuneration Policy, executive directors are not paid any fee for attending the Board, committee or general meetings. Further, the policy does not restrict to executive directors from retaining meeting fee earned for the services as non-executive director to other companies.

Chief Executive Officer of the Company is an executive director on Packages Board and holds position as Non-Executive director on the Boards of various other companies. The fee remunerated by these companies are in line with their respective Board remuneration policy, approved by their Board of Directors.

Security Clearance of Foreign Directors

Foreign directors on the Board of Packages are required to submit relevant documents, including declarations and/or undertaking and any document required to facilitate security clearance undertaken by the Ministry of Interior and required by the SECP. During the year, no new foreign director was appointed.

Board Meetings Outside Pakistan

No Board of Directors meeting was held outside Pakistan during the year 2024.

Human Resource Management and Succession Planning

The Company takes great pride in not only recognizing its people as its key asset, but also ensures that this belief is translated into a working environment that provides growth opportunities, respect, empowerment and inspiration. As a company that is geared towards helping people to 'create a better tomorrow', we ensure that our employees are not only committed to this vision with the utmost passion and sincerity, but are also well equipped to perform and deliver at their best potential.

The Human Resource department engages and develops policies including competitive remuneration, performance management and succession planning. This includes exposure to a wide range of development opportunities as well as international assignments.

In addition to this, we prioritize the highest standards of individual accountability, and are constantly trying to evolve in terms of our ability to recognize and reward the deserving talent that demonstrate the right mix of commitment and dedication.

Through implementation of an internal talent development system that helps provide leaders with the data needed for strategic alignment and decision making. Along with this, it carries out continuous feedback, evaluation and communication programme, through which we ensure that our employees are well aligned with, and really believe in, our core values care, honesty, courage, respect, lead.

Safeguarding of Records of the Company

In line with regulatory requirements and our Code of Conduct, we ensure documentation practices meet our requirements for design, management and control of instructions, reports and master documents. We also have checks in place that cover archive requirement for all our stored data, both physical and electronic. Under records retention requirements all staff in all business units, regions, areas and functions must follow approved retention periods in managing their records.

We implement the highest standards of record safeguarding through our document management and control systems. We have strict data lifecycle management guidelines in place which are implemented across all our activities and processes. These guidelines outline procedures for our data approvals, use, access and retention as well as the use of third-party archive service. This helps ensure document accuracy, consistency integrity, availability and legibility.

Business Continuity Plan

The Company has established a comprehensive business continuity plan to ensure that it is able to continue operations in the event of a shutdown or other emergency. This plan includes detailed procedures for addressing potential disruptions, identifying critical functions and resources, and maintaining essential services and operations. The Company has also developed a comprehensive risk management program including risk assessment, mitigation, and response strategies, as well as plans for the orderly resumption of operations. The Company is committed to ensuring that the business continuity plan is regularly reviewed and updated to meet changing needs, and is compliant with relevant government regulations.

We use effective crisis management and business continuity planning to provide for the health and safety of our people and to minimize impact to us, by maintaining functional operations following a natural or man-made disaster, or a public health emergency. A corporate policy requires each business and functional area head to ensure effective crisis management and business continuity plans are in place that include authorised response and recovery strategies, key areas of responsibility and clear communication routes, before any business disruption occurs.

Compliance with the Best Practices of Code of Corporate Governance

The Company is compliant with all the mandatory applicable regulations and requirements.

Attendance at the General Meeting

In view of Packages' priority of being transparent with all its shareholders and stakeholders, Chairman of the Board of Directors, members of the Board, Chairman of the Audit Committee and members of senior management attended the last General meeting of the Company.

External Search Consultancy- Appointment of Directors

No external search consultancy has been used in the appointment of the Chairperson or a Non-Executive Director.

Chairman's Significant Commitments and any Changes Thereto

Mr. Towfiq H. Chinoy is serving Packages Limited as the Chairman of the Board. Details of his other commitments are mentioned on the page no.85.

Governance Practices Exceeding Legal Requirements

Packages Limited strives to ensure transparent, consistent and timely compliance with all prevailing laws and regulations of Pakistan. We take pride in proactively and voluntarily complying with many additional legal requirements which are not mandatory. In line with this strategy, the Company has complied with all mandatory legal compliances under the Code of Corporate Governance, the Companies Act, 2017 and other applicable rules, regulations and standards.

Diversity & Inclusion

We take a progressive approach to inclusion and diversity because we want everyone to be themselves and bring their own perspectives to our business. Together, these unique perspectives and wide variety of personal experiences make our business stronger, enhancing our ability to innovate and respond to the diverse needs of patients and consumers around the world.

We believe that everyone has a part to play in creating a fair and inclusive work environment that respects human rights and the diversity of the cultures we operate in. When we embrace diversity and individuality, we can support and inspire each other to achieve great things.

We do not tolerate harassment, unwelcome, unreasonable or offensive behavior, or discrimination of any kind. We included a module in our mandatory Code of Conduct training to reinforce our zero-tolerance approach. This emphasised the importance of bystander intervention to empower our employees to intervene if they see harassment occurring.

To achieve its diversity and inclusion aspirations, the Company has:

- i. Ensured that the Board's composition considers the right balance of skills, experience, knowledge, perspectives and gender in alignment with the strategic needs of the Company.
- ii. Fostered a culture that promotes and values diversity among staff at all levels.
- iii. Integrated diversity and inclusion objectives in line with this Policy in its strategic plan.
- iv. Reviewed the gender pay gap analysis within the Company, its retention and development of skills of the female employees, provision of a conducive work environment including provision of daycare facilities, better maternity leaves, anti-harassment and speak up policies and forums, with a specialized committee overseeing harassment complaints.
- v. Set concrete targets and review its implementation progress annually.
- vi. Ensured that diversity objectives are a part of Key Performance Indicators (KPIs) of Senior Management.
- vii. Encouraged the female members who hold management positions to move into senior management or executive level positions and take up additional responsibilities based on their performance. This will help reinforce the Company's culture and public image of diversity and inclusion, thus allowing Company to retain and cultivate their best talent at all levels.

INDEPENDENT AUDITOR'S REVIEW REPORT

TO THE MEMBERS OF PACKAGES LIMITED

REVIEW REPORT ON THE STATEMENT OF COMPLIANCE CONTAINED IN LISTED COMPANIES (CODE OF CORPORATE GOVERNANCE) REGULATIONS, 2019

We have reviewed the enclosed Statement of Compliance with the Listed Companies (Code of Corporate Governance) Regulations, 2019 (the Regulations) prepared by the Board of Directors of Packages Limited (the Company) for the year ended December 31, 2024 in accordance with the requirements of regulation 36 of the Regulations.

The responsibility for compliance with the Regulations is that of the Board of Directors of the Company. Our responsibility is to review whether the Statement of Compliance reflects the status of the Company's compliance with the provisions of the Regulations and report if it does not and to highlight any non-compliance with the requirements of the Regulations. A review is limited primarily to inquiries of the Company's personnel and review of various documents prepared by the Company to comply with the Regulations.

As a part of our audit of the financial statements, we are required to obtain an understanding of the accounting and internal control systems sufficient to plan the audit and develop an effective audit approach. We are not required to consider whether the Board of Directors' statement on internal control covers all risks and controls or to form an opinion on the effectiveness of such internal controls, the Company's corporate governance procedures and risks.

The Regulations require the Company to place before the Audit Committee, and upon recommendation of the Audit Committee, place before the Board of Directors for their review and approval, its related party transactions. We are only required and have ensured compliance of this requirement to the extent of the approval of the related party transactions by the Board of Directors upon recommendation of the Audit Committee.

Based on our review, nothing has come to our attention which causes us to believe that the Statement of Compliance does not appropriately reflect the Company's compliance, in all material respects, with the requirements contained in the Regulations as applicable to the Company for the year ended December 31, 2024.

UNCONSOLIDATED FINANCIAL STATEMENTS

“Accounting is the language of business”

Gro Harlem Brundtland

Chairman's Review

I am pleased by the performance of Packages Limited for the year ended December 31, 2024.

Packages Limited is operating as a Holding Company and derives value for its shareholders from its equity participation in Nestle Pakistan Limited and group companies, namely, Packages Convertors Limited, Tri-Pack Films Limited, Bulleh Shah Packaging (Private) Limited, DIC Pakistan Limited, Packages Real Estate (Private) Limited, Packages Lanka (Private) Limited, StarchPack (Private) Limited, Packages Trading FZCO, Hoechst Pakistan Limited (formerly Sanofi-Aventis Pakistan Limited), Anemone Holdings Limited and other strategic investments.

Dividend income constitutes the major source of income of the Company and as a result, its income pattern follows the dividend distribution pattern of the group companies.

The Board is responsible for overall management of the Company and to carry out its fiduciary duties with a sense of objective judgement in the best interest of the Company and its stakeholders.

The Board has ten (10) directors including five (5) non-executive, three (3) independent including one (1) female director and two (2) executive directors. The Directors have rich and varied experience in the fields of business, finance, banking and regulations. The Board provides strategic direction as well as guidance to the management.

The Board evaluated its own performance and its committees in order to facilitate and enable the Board members to play an effective role as a coordinated team for the ongoing success of the Company.

During the year, eight (8) board meetings were held in which the Board fulfilled all of its responsibilities including:

- Reviewing the operating results and approving the quarterly and annual financial statements of the Company;
- Approving related party transactions;
- Approving budgets including capital expenditure;
- Reviewing and approving revised terms of reference of Audit and Human Resource & Remuneration Committee which have been brought in line with Code of Corporate Governance, 2019;
- Approving investments in subsidiaries and joint ventures;
- Reviewing and approving bank borrowings; and
- Recommending appointment of external auditors.

The Board ensured that all the legal and regulatory requirements have been complied with by the management of the Company.

I pray to Allah that the Company and its subsidiaries continue to maintain its momentum of growth in the future.

TOWFIQ HABIB CHINOY

Packages Limited is operating as an investment holding company and its performance is determined by the financial performance of its group companies located within & outside Pakistan, which in turn, would be influenced by the general economic environment.

Dividend income constitutes the major source of income of Packages Limited. As a result, its income pattern will follow the dividend distribution pattern of the group companies. The management believes that this corporate structure is conducive to focused management of the group companies leading to better operating performance.

The Company has earned dividend income amounting to Rs 4,060 million during the year 2024 as compared to Rs 5,840 million last year. The decreased profitability was mainly attributable to receiving no dividends from Bulleh Shah Packaging (Private) Limited in the current year (2023: Rs 1,750 million). The finance cost for the year 2024 was higher by Rs 150 million mainly on account of long-term loans obtained to finance the investments in group companies (StarchPack (Private) Limited, Tri-Pack Films Limited and Hoechst Pakistan Limited (formerly Sanofi-Aventis Pakistan Limited)). There was a one-time impairment loss of Rs 1,202 million recognized on the investment made in Anemone Holdings Limited, Mauritius during last year. This translated to a decrease in earnings for the year of 31% from Rs 2,778 million earned last year to Rs 1,912 million during the current year.

INVESTMENTS IN GROUP COMPANIES

Your Company contributed Rs 852.2 million as equity investment in Packages Trading FZCO ('FZCO') and StarchPack (Private) Limited ('SPAC').

EQUITY INJECTION IN PACKAGES TRADING FZCO, DUBAI, UNITED ARAB EMIRATES

During the year, the Company made an investment of Arab Emirates Dirham ('AED') 1.330 million (2023: AED 2.670 million) equivalent to Rs 102.277 million on the date of translation (2023: Rs 202.928 million) as equity in Packages Trading FZCO. The entity is incorporated as a wholly owned subsidiary, with an aim to increase exports of finished goods offered by the group entities and to identify and implement cost saving initiatives to reduce import bill at group level.

EQUITY INJECTION IN STARCHPACK (PRIVATE) LIMITED

Pursuant to the decision taken by the Board of Directors, the Company made a capital injection of Rs 500 million as share deposit money (2023: Rs 250 million) and the conversion of an outstanding loan of Rs 250 million to equity in the form of 2.5 million ordinary shares having face value of Rs 100 each.

RENT OF LAND ON LEASE FROM GOVERNMENT OF PUNJAB (GoPB)

A portion of the land on which the Company's buildings are situated (as mentioned in note 17 of the accompanying financial statements), measuring 231 kanals and 19 marlas, was leased out to the Company by GoPB from December 1955 till November 2015 after which the lease has not been renewed. The matter was elevated to the Honorable Supreme Court, and in accordance with its directions the Company deposited Rs 500 million and subsequently two surveyors were appointed to calculate the rent of the land for industrial usage. The surveyor reports were submitted and henceforth the matter is pending for further action as of the date of the authorization for issue of these unconsolidated financial statements. Moreover, the Court has decided that the land shall be sold as industrial land through an open auction with the Company getting the first right of refusal.

The management has, on the basis of assessment of fair value of the said portion of land by independent valuers, recognised an expense of Rs 150 million (2023: Rs 90 million) in respect of rent for the year ended December 2024.

Furthermore, the management intends to acquire the title of the said portion of land when the matter is decided by the court.

FINANCIAL MANAGEMENT

The Company has an effective cash flow management system in place whereby cash inflows and outflows are projected on regular basis and rigorously monitored.

Capital expenditure is managed carefully through evaluation of profitability and risk. Large capital expenditure is further backed by long-term contracts so as to minimize cash flow risk to the business. Capital expenditure during 2024 was at Rs 770.3 million.

The investment portfolio of the Company is fairly diversified, as reflected by equity participation in Nestle Pakistan Limited, Packages Convertors Limited, Tri-Pack Films Limited, Bulleh Shah Packaging (Private) Limited, DIC Pakistan Limited, Packages Real Estate (Private) Limited, Packages Lanka (Private) Limited, StarchPack (Private) Limited, Packages Trading FZCO, Hoechst Pakistan Limited (formerly Sanofi-Aventis Pakistan Limited), Anemone Holdings Limited and other strategic investments.

The Board is satisfied that there are no short-term or long-term financial constraints including access to credit and a strong balance sheet with net debt:equity ratio at 14:86 on 31 December 2024.

RISK MANAGEMENT

The Board of Directors and the Audit Committee of the Board regularly review risk matrix in terms of impact and probability of occurrence. The senior management team, led by the Chief Executive Officer is responsible for risk mitigation measures. The Company's ability to continuously assess market conditions and its timely response enables the Company to manage risks effectively.

CREDIT RISK

All financial assets of the Company, except cash in hand, are subject to credit risk. The Company believes that it is not exposed to major concentration of credit risk and continues to evaluate the impact on financial assets through 'Expected Credit Losses' (ECL) approach. Exposure is also managed through diversification of its investment portfolio, placed with 'A' ranked banks and financial institutions.

LIQUIDITY RISK

Prudent liquidity risk management implies availability of sufficient funds for meeting contractual commitments. The Company's fund management strategy aims at managing liquidity risk through internal cash generation and committed credit lines from financial institutions.

INTEREST RATE RISK

Variable rate long-term financing is hedged against interest rate risk by holding "prepayment option", which can be exercised upon any adverse movement in the underlying interest rates. The Company's interest rate risk arises from long-term financing and short-term borrowings. Financial instruments at fixed rates expose the Company to fair value interest rate risk. Financial instruments at variable rates expose the Company to cash flow interest rate risk. Our organization actively monitors and manages interest rate exposure to mitigate potential impacts on financial outcomes.

FOREIGN EXCHANGE RISK

Foreign currency risk arises mainly where receivables and payables exist due to transactions in foreign currencies.

CAPITAL MANAGEMENT

The Company's policy is to maintain a strong capital base so as to maintain investor, creditor and market confidence and

to sustain future development of the business. There were no changes in the Company's approach to capital management during the year.

CONTRIBUTION TO NATIONAL EXCHEQUER

Your Company is a significant contributor to the national economy and has paid Rs 487 million during the year 2024 to the national exchequer on account of sales tax, income tax, import duties and statutory levies.

RETIREMENT FUNDS

There are three retirement funds currently being operated by the Company namely Provident Fund, Gratuity Fund and Pension Fund. The value of investment of these funds based on their audited accounts as on December 31, 2024 were as follows:

	Rupees in thousand
Provident Fund	Rs 4,098.52 million
Gratuity Fund	Rs 704.42 million
Pension Fund	Rs 3,082.19 million
Available for appropriation	2,311,494
Cash dividend	(1,340,693)
To be carried forward to 2025	970,801

AUDITORS

The present auditors M/s A.F. Ferguson & Co., Chartered Accountants retire and have offered themselves for reappointment. They have confirmed having achieved satisfactory rating by the Institute of Chartered Accountants of Pakistan (ICAP) as well as compliance with the Guidelines on the Code of Ethics of the International Federation of Accountants (IFAC) as adopted by ICAP.

As suggested by the Audit Committee, the Board of Directors has recommended their reappointment as Auditors of the Company for the year ending December 31, 2025, at a fee to be mutually agreed.

IMPACT OF COMPANY'S BUSINESS ON ENVIRONMENT AND CORPORATE SOCIAL RESPONSIBILITY

Steps taken by your Company with respect to Company's business impact on environment and towards corporate social responsibility are mentioned on page 64 in the Annual Report.

COMPLIANCE WITH THE CODE OF CORPORATE GOVERNANCE

The Listed Companies (Code of Corporate Governance) Regulations, 2019 have been adopted by the Company and have been duly complied with. A statement to this effect is annexed to the Report, please refer page 95.

MATERIAL CHANGES

There have been no material changes since December 31, 2023 and the Company has not entered into any commitment, which would affect its financial position at the date except for those mentioned in the audited financial statements of the Company for the year ended December 31, 2024.

COMPANY'S STAFF AND CUSTOMERS

The management is thankful to the Company's stakeholders especially its customers for their continuing confidence in its products and services.

The management also wishes to express its gratitude to all the Company's employees who have worked tirelessly. We appreciate their hard work, loyalty and dedication.

FUTURE OUTLOOK

Pakistan's macroeconomic performance in 2024 demonstrated resilience and gradual improvement. The Company expects that the economic outlook of the country would continue to improve on the back of prudent policy management, continued implementation of reforms aimed to maintain fiscal discipline, improving foreign exchange reserves, political stability and economic assistance from friendly nations.

The first loan tranche received in 2024 from Extended Fund Facility Arrangement (EEF) of \$7 billion under the International Monetary Fund (IMF) program has also been crucial in providing much-needed financial support, helping to restore investor confidence and stabilize the macroeconomic environment. Overall, these measures are setting a positive trajectory for economic diversification, future sustainable growth and stability.

Owing to first year operating losses sustained by StarchPack (Private) Limited ('SPAC'), higher depreciation and finance cost of Tri-Pack Films Limited ('TPFL') owing to strategic capital expenditure and adverse market conditions faced by Bulleh Shah Packaging (Private) Limited ('BSPL'), the returns from these investments had been affected. The management is confident of an eventual recovery and is taking steps to ensure a return to profitability. In this regard, a revised three-year strategy was developed after which the Board of Directors of the Company approved injection of up to Rs. 3 billion into SPAC and Rs. 8 billion into BSPL in various forms including ordinary share capital, subordinated debt and potential conversion of prior loan to equity in order to optimize the capital structure of both the companies.

**INDEPENDENT AUDITOR'S REPORT****To the members of Packages Limited****Report on the Audit of the Unconsolidated Financial Statements****Opinion**

We have audited the annexed unconsolidated financial statements of Packages Limited (the Company), which comprise the unconsolidated statement of financial position as at December 31, 2024, and the unconsolidated statement of profit or loss, the unconsolidated statement of comprehensive income, the unconsolidated statement of changes in equity, the unconsolidated statement of cash flows for the year then ended, and notes to the unconsolidated financial statements, including material accounting policy information and other explanatory information, and we state that we have obtained all the information and explanations which, to the best of our knowledge and belief, were necessary for the purposes of the audit.

In our opinion and to the best of our information and according to the explanations given to us, the unconsolidated statement of financial position, the unconsolidated statement of profit or loss, the unconsolidated statement of comprehensive income, the unconsolidated statement of changes in equity and the unconsolidated statement of cash flows together with the notes forming part thereof conform with the accounting and reporting standards as applicable in Pakistan and give the information required by the Companies Act, 2017 (XIX of 2017), in the manner so required and respectively give a true and fair view of the state of the Company's affairs as at December 31, 2024 and of the profit and other comprehensive loss, the changes in equity and its cash flows for the year then ended.

Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs) as applicable in Pakistan. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Unconsolidated Financial Statements* section of our report. We are independent of the Company in accordance with the International Ethics Standards Board for Accountants' *Code of Ethics for Professional Accountants* as adopted by the Institute of Chartered Accountants of Pakistan (the Code) and we have fulfilled our other ethical responsibilities in accordance with the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matter

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the unconsolidated financial statements of the current period. These matters were addressed in the context of our audit of the unconsolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Following is the Key audit matter:

S. No.	Key audit matter	How the matter was addressed in our audit
1.	Assessment of recoverable amounts of investments in subsidiaries <i>(Refer notes 4.7, 19.1 and 19.4 to the annexed unconsolidated financial statements)</i>	Our audit procedures included the following: <ul style="list-style-type: none"> Considered management's process for identifying the existence of impairment indicators in respect of the Company's investments;

S. No.	Key audit matter	How the matter was addressed in our audit
	<p>As disclosed in note 19.4, certain impairment indicators were observed regarding the Company's investment in certain subsidiaries, which triggered management to conduct an impairment test of these investments at the reporting date.</p> <p>Management assessed the recoverable amount of these investments as required by International Accounting Standard 36 - Impairment of Assets, determining it to be higher than the carrying amount. The recoverable amount was determined as the higher of its value-in-use and fair value less costs of disposal.</p> <p>The determination of recoverable amounts of investments is a significant area of judgment and estimation. Because of the significance of the impact of these judgments and estimations, we consider the assessment of the recoverable amount of investments to be a key audit matter.</p>	<ul style="list-style-type: none"> Assessed the methodology used by management to calculate the recoverable amounts for each investment; Obtained an understanding of the work performed by management for the purpose of computing the recoverable amounts; Where cash flow techniques were used to calculate recoverable amounts, assessed the reasonableness of the key assumptions used for each investment, including revenue, profit and cash flow growth rates, terminal growth rates, and the discount rates that management has applied; Assessed the professional qualifications, competence, and experience of management's personnel in the field; and Checked the adequacy of the disclosures made by the Company regarding applicable accounting and reporting standards.

Information Other than the Unconsolidated and Consolidated Financial Statements and Auditor's Reports Thereon

Management is responsible for the other information. The other information comprises the information included in the annual report, but does not include the unconsolidated and consolidated financial statements and our auditor's reports thereon.

Our opinion on the unconsolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the unconsolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the unconsolidated financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Board of Directors for the Unconsolidated Financial Statements

Management is responsible for the preparation and fair presentation of the unconsolidated financial statements in accordance with the accounting and reporting standards as applicable in Pakistan and the requirements of Companies Act, 2017 (XIX of 2017) and for such internal control as management determines is necessary to enable the preparation of unconsolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the unconsolidated financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Board of directors are responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Unconsolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the unconsolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs as applicable in Pakistan will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these unconsolidated financial statements.

As part of an audit in accordance with ISAs as applicable in Pakistan, we exercise professional judgement and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the unconsolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the unconsolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the unconsolidated financial statements, including the disclosures, and whether the unconsolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the board of directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the board of directors with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with the board of directors, we determine those matters that were of most significance in the audit of the unconsolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes

public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

Based on our audit, we further report that in our opinion:

- a) proper books of account have been kept by the Company as required by the Companies Act, 2017 (XIX of 2017);
- b) the unconsolidated statement of financial position, the unconsolidated statement of profit or loss, the unconsolidated statement of comprehensive income, the unconsolidated statement of changes in equity and the unconsolidated statement of cash flows together with the notes thereon have been drawn up in conformity with the Companies Act, 2017 (XIX of 2017) and are in agreement with the books of account and returns;
- c) investments made, expenditure incurred and guarantees extended during the year were for the purpose of the Company's business; and
- d) zakat deductible at source under the Zakat and Ushr Ordinance, 1980 (XVIII of 1980), was deducted by the Company and deposited in the Central Zakat Fund established under section 7 of that Ordinance.

The engagement partner on the audit resulting in this independent auditor's report is Khurram Akbar Khan.

Notes to and Forming Part of the Unconsolidated Financial Statements

For the Year Ended December 31, 2024

1. The Company and its operations

Packages Limited (the ‘Company’) is a public company limited by shares incorporated in Pakistan in 1956 under the repealed Companies Act, 1913 (now, the Companies Act, 2017). The Company’s ordinary shares are listed on the Pakistan Stock Exchange Limited. The registered office of the Company is situated at 4th floor, the Forum, Suite No. 416 - 422, G-20, Block 9, Khayaban-e-Jami, Clifton, Karachi, Pakistan. Head office is located at Shahrah-e-Roomi, P.O. Amer Sidhu, Lahore, Pakistan.

The principal activities of the Company are to rent out its land and buildings and to manage investments in subsidiary companies, associates and joint ventures, which are engaged in various businesses including manufacturing of packaging materials, tissue, consumer products, industrial inks, paper, paperboard products and corrugated boxes, biaxially oriented polypropylene ('BOPP') and cast polypropylene ('CPP') films, biopharmaceutical products, ground calcium carbonate products, corn-based starch products, insurance, power generation and real estate.

These financial statements (hereinafter may be referred to as ‘unconsolidated financial statements’) are the separate financial statements of the Company in which investments in subsidiaries have been accounted for at cost less accumulated impairment losses, if any. The consolidated financial statements of the Company and its subsidiaries are presented separately. Details of investments held by the Company in its subsidiaries have been presented in note 19.

2. Basis of preparation

2.1 Statement of compliance

These unconsolidated financial statements have been prepared in accordance with the accounting and reporting standards as applicable in Pakistan. The accounting and reporting standards applicable in Pakistan comprise of:

- i) International Financial Reporting Standards ('IFRS') issued by the International Accounting Standards Board (IASB) as notified under the Companies Act, 2017; and
- ii) Provisions of and directives issued under the Companies Act, 2017 ('Act').

Where provisions of and directives issued under the Companies Act, 2017 differ from the IFRS, the provisions of and directives issued under the Companies Act, 2017 have been followed.

2.2 Change in accounting policy

The Institute of Chartered Accountants of Pakistan has issued application guidance on accounting of minimum and final taxes vide its circular No. 07/2024 dated May 15, 2024 ('the Guidance'). According to the Guidance, the minimum taxes in excess of normal tax liability and tax deducted at source other than from dividends from subsidiaries, joint ventures and associates under final tax regime, are out of scope of IAS 12 'Income Taxes' and fall in the ambit of IFRIC 21 'Levies' and IAS 37 'Provisions, Contingent Liabilities and Contingent Assets'.

Accordingly, the Company has changed its accounting policy to recognise such taxes as 'levies' which were previously being recognised as 'income tax'. This change has been accounted for retrospectively in line with the requirements of IAS 8 "Accounting Policies, Changes in Accounting Estimates and Errors". There has been no effect on the unconsolidated statement of financial position, the unconsolidated statement of comprehensive income, the unconsolidated statement of cash flows, the unconsolidated statement of changes in equity and earnings per share as a result of this change.

The effects of change in accounting policy are as follows:

Had there been no change in accounting policy	Impact of change in accounting policy	After incorporating effects of change in accounting policy
(Rupees in thousand)

Final taxes - levy	-	150,357	150,357
Profit before income tax	3,087,588	(150,357)	2,937,231
Income tax	309,557	(150,357)	159,200

2.3 Initial application of standards, amendments or an interpretation to existing standards

The following amendments to existing standards have been published that are applicable to the Company’s unconsolidated financial statements covering annual periods, beginning on or after the following dates:

2.3.1 Standards, amendments and interpretations to accounting standards that are effective in current year

Certain standards, amendments and interpretations to IFRS are effective for accounting period beginning on January 1, 2024 but are considered not to be relevant or to have any significant effect on the Company’s operations (although they may affect the accounting for future transactions and events) and are, therefore, not detailed in these unconsolidated financial statements, except for the following:

a) Amendment to International Accounting Standard (IAS) 1 – Non-current liabilities with covenants

The amendment clarifies how conditions that an entity must comply with within twelve months after the reporting period affect the classification of a liability. The amendment also aims to improve the information an entity provides related to liabilities subject to these amendments. The amendment clarifies that a liability should be classified as a current liability if a breach of covenant that gives the lender the right to demand immediate repayment occurs at or prior to the end of the reporting period, unless sufficient relief is granted by the lender before or at the end of the reporting period.

The above amendment did not result in any significant changes to these unconsolidated financial statements.

2.3.2 Standards, amendments and interpretations to existing standards that are not yet effective and have not been early adopted by the Company

There are certain standards, amendments to the accounting standards and interpretations that are mandatory for the Company’s accounting periods beginning on or after January 1, 2025 but are considered not to be relevant or to have any significant effect on the Company’s operations and are, therefore, not detailed in these unconsolidated financial statements, except for the following:

(a) Amendments to IFRS 9 and IFRS 7 - Classification and Measurement of Financial Instruments (effective for annual period beginning on January 1, 2026)

The amendments:

- clarify the requirements for the timing of recognition and derecognition of some financial assets and liabilities, with a new exception for some financial liabilities settled through an electronic cash transfer system;
- clarify and add further guidance for assessing whether a financial asset meets the solely payments of principal and interest (SPPI) criterion;

- add new disclosures for certain instruments with contractual terms that can change cash flows (such as some instruments with features linked to the achievement of environment, social and governance (ESG) targets); and
- make updates to the disclosures for equity instruments designated at Fair Value through Other Comprehensive Income (FVOCI).

An important clarification brought about in these amendments is that a payment instruction (e.g. a cheque) that is prepared for a future payment will generally not meet the requirements for the financial liability to be discharged and hence derecognised. The previous practice of financial liabilities being derecognized upon issuance of cheques would need to be reconsidered.

(b) Annual improvements to International Financial Reporting Standards – Volume 11 (effective for annual period beginning on January 1, 2026)

Annual improvements are limited to changes that either clarify the wording in an Accounting Standard or correct relatively minor unintended consequences, oversights or conflicts between the requirements in the Accounting Standards. The 2024 amendments are to the following standards:

- IFRS 1 First-time Adoption of International Financial Reporting Standards;
- IFRS 7 Financial Instruments: Disclosures and its accompanying Guidance on implementing IFRS 7;
- IFRS 9 Financial Instruments;
- IFRS 10 Consolidated Financial Statements; and
- IAS 7 Statement of Cash Flows.

(c) International Financial Reporting Standard (IFRS) 18, ‘Presentation and Disclosure in Financial Statements’ (effective for annual period beginning on January 1, 2027)

This is the new standard on presentation and disclosure in financial statements, with a focus on updates to the statement of profit or loss. The key new concepts introduced in IFRS 18 relate to:

- the structure of the statement of profit or loss;
- required disclosures in the financial statements for certain profit or loss performance measures that are reported outside an entity's financial statements (that is, management-defined performance measures); and
- enhanced principles on aggregation and disaggregation which apply to the primary financial statements and notes in general.

The Company is yet to assess the impact of this Standard and amendments to existing standards on its unconsolidated financial statements.

3. Basis of measurement

- 3.1** These unconsolidated financial statements have been prepared under the historical cost convention except for the following:
- certain financial instruments and plan assets of defined benefit plans at fair value; and
 - certain employee benefit obligations, provisions and long term advances at present value.

3.2 Critical accounting estimates and judgements

The Company's material accounting policy information is stated in note 4. The preparation of unconsolidated financial statements requires the use of accounting estimates which, by definition, will likely differ from the actual results. Management also needs to exercise judgement in applying the Company's accounting policies.

This note provides an overview of the areas that involved a higher degree of judgement or complexity, and of items which are more likely to be materially adjusted due to the estimates and assumptions turning out to be wrong. Detailed information about each of these estimates and judgements is included in other notes together with information about the basis of calculation for each affected line item in the unconsolidated financial statements.

- i) estimation of useful lives and residual values of property, plant and equipment and investment properties - notes 4.2, 4.4, 16 and 17
- ii) estimation of employee benefit obligations and accumulating compensated absences - notes 4.11, 9 and 10
- iii) estimation of provision for taxation and recognition of deferred tax - notes 4.1, 23 and 32
- iv) Impairment of financial assets (other than investments in equity instruments) - notes 4.8.4, 20 and 22
- v) Impairment of investment in subsidiaries, associates and joint ventures - notes 4.7 and 19
- vi) Other provisions and contingent liabilities - notes 4.21, 4.24 and 13

Estimates and judgements are continually evaluated. They are based on historical experience and other factors, including expectations of future events that may have a financial impact on the Company and that are believed to be reasonable under the circumstances.

4. Material accounting policies

The material accounting policies adopted in the preparation of these unconsolidated financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

4.1 Taxation - levy and income tax

Income tax comprises current and deferred tax. Income tax is recognised in profit or loss except to the extent that it relates to items recognised directly in equity or other comprehensive income, in which case it is recognised directly in equity or other comprehensive income.

Current

The charge for current tax is calculated using prevailing tax rates or tax rates expected to apply to profit for the year if enacted or substantively enacted at the end of the reporting period in accordance with the prevailing law for taxation of income, after taking into account tax credits, rebates and exemptions, if any. Management periodically evaluates position taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation and considers whether it is probable that the tax authorities will accept an uncertain tax treatment. The charge for current tax also includes adjustments, where considered necessary, to provision for tax made in previous years arising from assessments framed during the year for such years. The Company measures its tax balances either based on the most likely amount or the expected value, depending on which method provides a better prediction of the resolution of the uncertainty. Current tax assets and tax liabilities are offset where the Company has a legally enforceable right to offset and intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

Deferred

Deferred income tax is provided in full using the liability method, on temporary differences arising between the carrying amount of assets and liabilities in the unconsolidated financial statements and the corresponding tax bases used in the computation of the taxable profit. Deferred income tax is not accounted for if it arises from initial recognition of an asset or liability in a transaction other than a business combination that, at the time of the transaction, affects neither accounting nor taxable profit or loss. Deferred income tax is determined using tax rates (and laws) that have been enacted or substantively enacted by the end of the reporting period and are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled.

Deferred tax liabilities are generally recognised for all taxable temporary differences and deferred tax assets are recognised to the extent that it is probable that taxable profits will be available against which the deductible temporary differences, unused tax losses and tax credits can be utilised. Deferred tax assets and liabilities are offset where there is a legally enforceable right to offset current tax assets and liabilities and where the deferred tax balances relate to the same taxation authority.

Group taxation

The Securities and Exchange Commission of Pakistan ('SECP') vide its certificate dated March 1, 2023, has registered the Company, Bulleh Shah Packaging (Private) Limited ('BSPPL'), Packages Investments Limited ('PIL'), Packages Convertors Limited ('PCL'), StarchPack (Private) Limited ('SPL') and Packages Power (Private) Limited ('PPPL') (together the 'Group') as a Group for the purpose of group taxation under Section 59AA of the Income Tax Ordinance, 2001. Consequently, the Group is being taxed as one fiscal unit from the tax year 2024 and onwards.

Current tax is based on the consolidated results of the Group and allocated within the Group on the basis of separate return method. Deferred tax asset is recognised in the unconsolidated financial statements to the extent future economic benefit will flow to the Company. Realizability of tax credits and tax losses are assessed at Group level and taxable profits of all entities in the Group are taken into account in assessing whether a deferred tax asset should be recognised in consolidated financial statements. Any adjustments in the taxation of the Company on account of group taxation are credited or charged to the unconsolidated statement of profit or loss in the year in which they arise.

Levies

Minimum taxes that exceed the normal tax liability, as well as tax deducted at source (other than from dividends received from subsidiaries, joint ventures, and associates) under the provisions of the Income Tax Ordinance, 2001 ('the Ordinance'), are not within the scope of IAS 12 - Income Taxes. Instead, these taxes fall under the provisions of IFRIC 21 - Levies, and IAS 37 - Provisions, Contingent Liabilities and Contingent Assets.

Consequently, a liability for these levies is recognized in accordance with IFRIC 21 when the event specified in the Ordinance that triggers the obligation occurs. Therefore, excess minimum taxes and final taxes are recognized as liabilities when they become due, ensuring compliance with the recognition and measurement principles outlined in IAS 37.

4.2 Property, plant and equipment

4.2.1 Operating fixed assets

Operating fixed assets, except freehold land and leasehold land, are stated at cost less accumulated depreciation and any identified impairment loss. Leasehold land is stated at cost less accumulated amortisation and any identified impairment loss. Freehold land is stated at cost less any identified impairment loss. Cost of leasehold land is amortised using the straight-line method over the period of lease term. An item of property, plant and equipment is recognised as an asset if it is probable that future economic benefits associated with the item will flow to the entity and the cost of the item can be measured reliably. Cost includes expenditure that is directly attributable to the acquisition of the asset.

Depreciation on all operating fixed assets is charged to the unconsolidated statement of profit or loss on straight-line method so as to write off the depreciable amount of an asset over its estimated useful life at the following annual rates:

	Rates per annum
- Leasehold land	6.67% to 10.00%
- Buildings	2.50% to 20.00%
- Other equipment	20.00% to 33.33%
- Furniture and fixtures	10.00% to 33.33%
- Vehicles	16.67% to 20.00%

The assets' residual values and useful lives are reviewed, at each financial year end, and adjusted if impact on depreciation is significant. The Company's estimate of the residual values and useful lives of its operating fixed assets as at December 31, 2024 has not required any adjustment as its impact is considered insignificant.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount as fully explained in note 4.3 to these unconsolidated financial statements.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. All other repairs and maintenance costs are charged to the profit or loss during the financial year in which they are incurred.

The gain or loss on disposal or retirement of an asset represented by the difference between the sale proceeds and the carrying amount of the asset is recognized as an income or expense.

4.2.2 Capital work-in-progress

Capital work-in-progress is stated at cost less any identified impairment loss. All expenditure connected with specific assets incurred during installation and construction period are carried under capital work-in-progress. These are transferred to operating fixed assets as and when these are available for use.

4.3 Impairment of non-financial assets

Goodwill and intangible assets that have an indefinite useful life are not subject to amortisation and are tested annually for impairment, or more frequently if events or changes in circumstances indicate that they might be impaired. Other assets are tested for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs of disposal and value in use. For the purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash inflows which are largely independent of the cash inflows from other assets or groups of assets (cash-generating units). Non-financial assets other than goodwill that suffered an impairment are reviewed for possible reversal of the impairment at the end of each reporting period.

An impairment loss is reversed if there is a change in the estimates used to determine the recoverable amount. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortization, if no impairment loss had been recognised.

4.4 Investment properties

Property that is held for long-term rental yields or for capital appreciation or both, and that is not occupied by the Company, is classified as investment property. Land held for an undetermined future use is also classified as investment property. Investment property also includes property that is being constructed or developed for future use as investment property. Investment properties are leased to tenants with rentals payable monthly. The investment properties of the Company comprise of land and buildings. The investment properties, except freehold land, are stated at cost less accumulated depreciation and any identified impairment losses. Freehold land is stated at cost less any identified impairment loss.

Depreciation on buildings is charged to unconsolidated statement of profit or loss on a straight-line method so as to write off the depreciable amount of buildings over its estimated useful life at the rates ranging from 3.12% to 22.22% per annum.

The assets' residual values and useful lives are reviewed, at each financial year end, and adjusted if impact on depreciation is significant. The Company's estimate of the residual values and useful lives of its investment properties as at December 31, 2024 has not required any adjustment as its impact is considered insignificant.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount as fully explained in note 4.3 to these unconsolidated financial statements.

The gain or loss on disposal or retirement of an asset represented by the difference between the sale proceeds and the carrying amount of the asset is recognized as an income or expense.

If an investment property becomes owner-occupied, it is reclassified as property, plant and equipment, and its carrying value at the date of reclassification becomes its cost for subsequent accounting at the date of change in use.

4.5 Intangible assets

Expenditure incurred to acquire computer software, SAP Enterprise Resource Planning ('ERP') System and developed websites are capitalised as intangible assets and stated at cost less accumulated amortisation and any identified impairment loss. Intangible assets having a finite life are amortised using the straight-line method over their estimated useful lives at the rates ranging from 10.00% to 20.00% per annum.

Costs associated with maintaining computer software programmes are recognised as an expense when incurred. However, costs that are directly attributable to identifiable software and have probable economic benefits exceeding one year, are recognised as an intangible asset. Direct costs include the purchase cost of software (license fee) and related overhead cost.

4.6 Leases

The Company is the lessor and has leased out its lands and buildings on operating leases.

Leases where a significant portion of the risks and rewards of ownership are retained by the lessor are classified as operating leases. Rental income received under operating leases (net of any incentives given to the lessee) is recognised as income on a straight-line basis over the lease term, except where an alternative basis is more representative of the pattern of benefits to be derived from the leased asset. The respective leased assets are included in the unconsolidated statement of financial position as investment property.

4.7 Investments

Investments intended to be held for less than twelve months from the reporting date or to be sold to raise operating capital, are included in current assets. All other investments are classified as non-current. Management determines the appropriate classification of its investments at the time of the purchase and re-evaluates such designation on a regular basis.

4.7.1 Investments in equity instruments of subsidiaries, associates and joint ventures

Investments in equity instrument of subsidiaries, associates and joint ventures are measured at cost as per the requirements of IAS-27 "Separate Financial Statements". However, at subsequent reporting dates, the Company reviews the carrying amount of the investment and its recoverability to determine whether there is an indication that such investment has suffered an impairment loss. If any such indication exists, the carrying amount of the investment is adjusted to the extent of impairment loss. Impairment losses are recognised as an expense in the unconsolidated statement of profit or loss.

Cost in relation to investments made in foreign currency is determined by translating the consideration paid in foreign currency into Pak Rupees at exchange rate prevailing on the date of transaction. In case of an increase in the investment in a subsidiary, associate or joint venture, the accumulated cost represents the carrying value of the investment. This is also applicable if the additional investment results in an associate or joint venture becoming a subsidiary.

The Company assesses at the end of each reporting period whether there is any indication that a previously recognised impairment loss may no longer exist or may have decreased. It assesses whether there have been favourable events or changes in circumstances, since impairment loss was recognised. If any such indication exists, the Company estimates the recoverable amount of that investment and reverses the impairment loss. The amount of any reversal recognised is restricted to increasing the carrying value of investment to the carrying value that would have been recognised if the original impairment had not occurred. A reversal of impairment loss is recognised in the unconsolidated statement of profit or loss.

The Company is required to issue consolidated financial statements along with its separate financial statements in accordance with the requirements of IFRS 10, 'Consolidated Financial Statements' and IAS 27, 'Separate Financial Statements'.

4.8 Financial assets

4.8.1 Classification

The Company classifies its financial assets other than investments in subsidiaries in the following measurement categories:

- those to be measured subsequently at fair value [either through other comprehensive income ('OCI') or through profit or loss]; and
- those to be measured at amortised cost.

The classification depends on the Company's business model for managing the financial assets and the contractual terms of the cash flows.

For assets measured at fair value, gains and losses will either be recorded in profit or loss or OCI. For investments in equity instruments that are not held for trading, this will depend on whether the Company has made an irrevocable election at the time of initial recognition to account for the equity investment at fair value through other comprehensive income ('FVOCI').

The Company reclassifies debt instruments when and only when its business model for managing those assets changes.

4.8.2 Recognition and derecognition

Regular way purchases and sales of financial assets are recognised on trade date, being the date on which the Company commits to purchase or sell the asset. Financial assets are derecognised when the rights to receive cash flows from the financial assets have expired or have been transferred and the Company has transferred substantially all the risks and rewards of ownership.

4.8.3 Measurement

At initial recognition, the Company measures a financial asset at its fair value plus, in the case of a financial asset not at fair value through profit or loss ('FVPL'), transaction costs that are directly attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at FVPL are expensed in profit or loss.

Financial assets with embedded derivatives are considered in their entirety when determining whether their cash flows are solely payments of principal and interest.

Debt instruments

Subsequent measurement of debt instruments depends on the Company's business model for managing the asset and the cash flow characteristics of the asset. There are three measurement categories into which the Company classifies its debt instruments:

- i) **Amortised cost:** Assets that are held for collection of contractual cash flows, where those cash flows represent solely payments of principal and interest, are measured at amortised cost. Interest income from these financial assets is included in other income using the effective interest method. Any gain or loss arising on derecognition is recognised directly in profit or loss. Impairment losses are presented as a separate line item in the statement of profit or loss.
- ii) **FVOCI:** Assets that are held for collection of contractual cash flows and for selling the financial assets, where the assets' cash flows represent solely payments of principal and interest, are measured at FVOCI. Movements in the carrying amount are taken through OCI, except for the recognition of impairment gains or losses, interest income and foreign exchange gains and losses, which are recognised in profit or loss. When the financial asset is derecognised, the cumulative gain or loss previously recognised in OCI is reclassified from equity to profit or loss. Interest income from these financial assets is included in other income using the effective interest method. Impairment expenses are presented as a separate line item in the unconsolidated statement of profit or loss.
- iii) **FVPL:** Assets that do not meet the criteria for amortised cost or FVOCI are measured at FVPL. A gain or loss on a debt investment that is subsequently measured at FVPL is recognised in profit or loss in the period in which it arises.

Equity instruments

The Company subsequently measures all equity investments except for investments in subsidiaries, associates and joint ventures at fair value through other comprehensive income. Where the Company's management has elected to present fair value gains and losses on equity investments in OCI, there is no subsequent reclassification of fair value gains and losses to profit or loss following the derecognition of the investment. Dividends are recognised in profit or loss when the right to receive payment is established; it is probable that the economic benefits associated with the dividend will flow to the Company; and the amount of the dividend can be measured reliably. This applies even if they are paid out of pre-acquisition profits, unless the dividend clearly represents a recovery of part of the cost of an investment. In this case, the dividend is recognised in OCI if it relates to an investment measured at FVOCI.

Changes in the fair value of financial assets at FVPL are recognised in profit or loss. Impairment losses (and reversal of impairment losses) on equity investments measured at FVOCI are not reported separately from other changes in fair value.

4.8.4 Impairment of financial assets other than investment in equity instruments

The Company assesses on a forward-looking basis, the expected credit losses ('ECL') associated with its financial assets. The impairment methodology applied depends on whether there has been a significant increase in credit risk. For trade debts and contract assets, the Company applies IFRS 9 simplified approach to measure the ECL ('loss allowance') which uses a life time expected loss allowance to be recognised from initial recognition, while general 3-stage approach is applied for other financial assets such as deposits, other receivables, short term investments and bank balances i.e. to measure ECL through loss allowance at an amount equal to 12-month ECL if credit risk on a financial instrument or a group of financial instruments has not increased significantly since initial recognition.

Following are the financial assets that are subject to the ECL model:

- Long term loan to subsidiary company;
- Long term security deposits;
- Loans, deposits and other receivables;
- Bank balances; and
- Short term investments.

The measurement of expected credit losses is a function of the probability of default, loss given default (i.e. the magnitude of the loss if there is a default) and the exposure at default. The assessment of the probability of default and loss given default is based on historical data adjusted by forward-looking information (adjusted for factors that are specific to the counterparty, general economic conditions and an assessment of both the current as well as the forecast direction of conditions at the reporting date, including time value of money where appropriate). As for the exposure at default for financial assets, this is represented by the assets' gross carrying amount at the reporting date. Loss allowances are forward looking, based on 12 month expected credit losses where there has not been a significant increase in credit risk rating, otherwise allowances are based on lifetime expected losses. The Company considers that a financial asset is in default when a contractual payment is 90 days past due. The definition is based on the Company's internal credit risk management policy.

The measurement of ECL reflects:

- an unbiased and probability-weighted amount that is determined by evaluating a range of possible outcomes;
- the time value of money; and
- reasonable and supportable information that is available at the reporting date about past events, current conditions and forecasts of future economic conditions.

The Company recognizes an impairment gain or loss in the statement of profit or loss for financial assets with a corresponding adjustment to their carrying amount through a loss allowance account.

The Company writes off financial assets, in whole or in part, when it has exhausted all practical recovery efforts and has concluded that there is no reasonable expectation of recovery. The assessment of no reasonable expectation of recovery is based on unavailability of debtor's sources of income or assets to generate sufficient future cash flows to repay the amount. The Company may write-off financial assets that are still subject to enforcement activity. Subsequent recoveries of amounts previously written off will result in impairment gains.

4.9 Financial liabilities

All financial liabilities are recognised at the time when the Company becomes a party to the contractual provisions of the instrument. Financial liabilities at amortised cost are initially measured at fair value less transaction costs. Financial liabilities at fair value through profit or loss are initially recognised at fair value and transaction costs are expensed in profit or loss.

Financial liabilities, other than those at fair value through profit or loss, are subsequently measured at amortised cost using the effective interest method. Gains and losses are recognised in the unconsolidated statement of profit or loss, when the liabilities are derecognised, as well as through effective interest rate amortization process.

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expired. Where an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a derecognition of the original liability and the recognition of a new liability, and the difference in respective carrying amounts is recognised in the unconsolidated statement of profit or loss.

4.10 Offsetting of financial assets and liabilities

Financial assets and liabilities are offset and the net amount is reported in the unconsolidated financial statements only when there is a legally enforceable right to set-off the recognised amount and the Company intends either to settle on a net basis or to realise the assets and to settle the liabilities simultaneously.

4.11 Employee benefits

4.11.1 Short term obligations

Liabilities for salaries, including non-monetary benefits and accumulating annual leaves that are expected to be settled wholly within twelve months after the end of the period in which the employees render the related service are recognised in respect of employees' services up to the end of the reporting period and are measured at the amounts expected to be paid when the liabilities are settled. The liabilities are presented as current employee benefit obligations in the unconsolidated statement of financial position.

4.11.2 Post employment benefits

(i) Defined benefit plans

A defined benefit plan is a post-employment benefit plan other than the defined contribution plan. The Company's net obligation in respect of defined benefit plans is calculated by estimating the amount of future benefit that employees have earned in return for their service in current and prior periods; that benefit is discounted to determine its present value. The calculation is performed annually by a qualified actuary using the "Projected Unit Credit method". The most recent valuation was carried out as at December 31, 2024.

(a) Gratuity plan

There is an approved funded defined benefit gratuity plan for all permanent employees, subject to the attainment of one year of service. Monthly contributions are made to this fund on the basis of actuarial recommendations at the rate of 4.50% per annum of basic salaries. The latest actuarial valuation for the gratuity scheme was carried out as at December 31, 2024. The employees of the Company are entitled to gratuity payments on the basis of their service with the Company and in accordance with the Company policy.

The Company operates defined benefit gratuity plan in accordance with the local regulatory framework in Pakistan. The plan provides benefits to members in the form of a gratuity amount payable at the end of employment. This is a trustee-administered fund. Plan assets held by the fund are subject to local regulations and practice. Responsibility for governance of the plan – including investment decisions and contributions schedules – lies jointly with the board of trustees which are either directors, senior executives or employees of the Company in accordance with the plan's regulations.

The actual return on plan assets represents the difference between the fair value of plan assets at the beginning of the year and as at the end of the year after adjustments for contributions made by the Company as reduced by benefits paid during the year. The actual return on plan assets during the year was Rs 32,999 million (2023: Rs 43,916 million).

The Company ensures that its investment positions are managed within an asset-liability matching (ALM) framework developed to align with its gratuity obligations. Within this framework, the Company's ALM objective is to match assets to the gratuity obligations by investing in equity securities, floating-rate long-term bonds and short-term debt securities. The Company actively monitors how the duration and expected yield of these investments align with the expected cash outflows arising from the gratuity scheme obligations.

The amount recognized in statement of financial position represents the present value of the defined benefit obligation as reduced by the fair value of the plan assets.

Actuarial gains and losses arising from experience adjustments and changes in actuarial assumptions are charged or credited to equity in other comprehensive income in the year in which they arise. Past service costs are recognized immediately in the statement of profit or loss.

The future contribution rate of the plan includes allowances for deficit and surplus. Projected Unit Credit Method, using the following significant assumptions, is used for valuation of this scheme:

	2024	2023
Discount rate per annum	12.25%	15.50%
Expected rate of increase in salary level per annum	12.25%	15.50%
Expected mortality rate	SLIC 2001-2005 Setback 1 Year	SLIC 2001-2005 Setback 1 Year
Expected rate of return per annum	12.25%	15.50%

Plan assets include long term government bonds, equity instruments of listed companies, units of mutual funds, izafa certificates, treasury bills, sukuk certificates and term deposits with banks.

The Company is expected to contribute Rs 16.93 million to the gratuity fund in the next fiscal year.

(b) Pension plan

Management and executive staff hired before January 1, 2016 participate in the pension fund of the Company. On December 26, 2012, the Board of Trustees of the pension fund, decided to convert the defined benefit plan to defined contribution plan for all its active employees with effect from January 1, 2013 with no impact on the pensioners appearing on the pensioners' list as of that date. The proposed scheme was approved for implementation by the Commissioner Inland Revenue on February 22, 2013 and employees' consent to the proposed scheme was sought and obtained. Management and executive staff who have joined on or after January 1, 2016, do not participate in the pension fund.

Consequently, the pension fund currently operates two different plans for its members:

- Defined contribution plan for active employees hired before January 1, 2016; and
- Defined benefit plan for pensioners who have retired on or before December 31, 2012.

In respect of the defined contribution plan, the Company contributes 20.00% of members' monthly basic salary to the scheme; whereas, an employee may or may not opt to contribute 6.00% of his/her monthly basic salary to the scheme.

The obligation in respect of the defined benefit plan is determined by the Company's actuary at each year end. Any funding gap identified by the Company's actuary is paid by the Company from time to time. The last actuarial valuation was carried out as at December 31, 2024, based on the following assumptions:

	2024	2023
Discount rate per annum	12.25%	15.50%
Expected rate of increase in pension level per annum	12.25%	15.50%
Expected mortality rate	SLIC 2001-2005 Setback 1 Year	SLIC 2001-2005 Setback 1 Year
Expected rate of return per annum	12.25%	15.50%
Average duration of liability (years)	6	6

The Company operates defined benefit pension plan in accordance with the local regulatory framework in Pakistan. The plan provides benefits to members in the form of a pension amount payable at retirement. This is a trustee-administered fund. Plan assets held by the fund are subject to local regulations and practice. Responsibility for governance of the plan – including investment decisions and contributions schedules – lies jointly with the board of trustees which are either directors, senior executives or employees of the Company in accordance with the plan's regulations.

Plan assets include long term government bonds, equity instruments of listed companies, units of mutual funds, term finance certificates, izafa certificates, treasury bills, sukuk certificates and term deposits with banks.

The actual return on plan assets represents the difference between the fair value of plan assets at the beginning of the year and as at the end of the year after adjustments for contributions made by the Company as reduced by benefits paid during the year.

The Company ensures that its investment positions are managed within an asset-liability matching (ALM) framework developed to align with its pension obligations. Within this framework, the Company's ALM objective is to match assets to the pension obligations by investing in equity securities, floating-rate long-term bonds and short-term debt securities. The Company actively monitors how the duration and expected yield of these investments align with the expected cash outflows arising from the pension scheme obligations.

The amount recognised in unconsolidated statement of financial position represents the present value of the defined benefit obligation as reduced by the fair value of the plan assets.

Actuarial gains and losses arising from experience adjustments and changes in actuarial assumptions for the defined benefit plan are charged or credited to equity in other comprehensive income in the period in which they arise. Past service costs are recognised immediately in unconsolidated statement of profit or loss.

(ii) Defined contribution plans

A defined contribution plan is a post-employment benefit plan under which an entity pays fixed contribution into a separate entity and will have no legal or constructive obligation to pay further amounts. Obligations for contributions to defined contribution plans are recognised as an employee benefit expense in unconsolidated statement of profit or loss when they are due.

The Company operates a recognised/approved contributory provident fund for its permanent employees. Equal monthly contributions at the rate of 10.00% per annum of basic salaries plus dearness allowance and cost of living allowance are made by the Company and the employees to the fund. The Company has no further payment obligations once the contributions have been paid. Obligation for contributions to defined contribution plan is recognised as an expense in profit or loss as and when incurred. The nature of contributory pension fund has been explained in note 4.11.2(i)(b) above.

4.11.3 Accumulating compensated absences

The Company provides for accumulating compensated absences when the employees render services that increase their entitlement to future compensated absences. The annual leaves can be encashed at the time the employee leaves the Company on the basis of the gross salary while no encashment is available for medical leaves. The employees of the Company are entitled to earned annual and medical leaves on the basis of their service with the Company and in accordance with the Company policy. These are classified as 'other long-term employee benefit obligations' under IAS 19.

As per the Company's leaves policy, employees are entitled to following earned leaves along with their maximum accumulation.

	Earned leaves entitlement per year (days)	Maximum accumulation of compensated leaves (days)
Service up to 14 years	15	30
Service of 15 years or more	21	42

Provisions are made annually to cover the obligation for accumulating compensated absences based on actuarial valuation and are charged to unconsolidated statement of profit or loss. The most recent valuation was carried out as at December 31, 2024 using the "Projected Unit Credit Method".

The amount recognised in the unconsolidated statement of financial position represents the present value of the defined benefit obligations. Actuarial gains and losses are charged to the unconsolidated statement of profit or loss immediately in the period when these occur.

Projected unit credit method, using the following significant assumptions, has been used for valuation of accumulating compensated absences:

	2024	2023
Discount rate per annum	12.25%	15.50%
Expected rate of increase in salary level per annum	12.25%	15.50%
Expected mortality rate	SLIC 2001-2005 Setback 1 Year	SLIC 2001-2005 Setback 1 Year
Duration of the plan (years)	6	5

4.12 Other receivables

Other receivables are recognised initially at the amount of consideration that is unconditional, unless they contain significant financing component in which case such are recognised at fair value. The Company holds the other receivables with the objective of collecting the contractual cash flows and therefore measures the other receivables subsequently at amortised cost using the effective interest method less loss allowance. Refer note 4.8.4 to these unconsolidated financial statements for the Company's policy on the impairment of other receivables.

4.13 Cash and cash equivalents

For the purpose of presentation in the statement of cash flows, cash and cash equivalents include cash on hand, deposits held at call with financial institutions, and other short-term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and are subject to an insignificant risk of changes in value.

Additionally, cash and cash equivalents encompass short-term borrowings that are repayable on demand and are an integral part of the Company's cash management, as well as bank overdrafts. Bank overdrafts and short-term borrowings are presented within borrowings in current liabilities in the unconsolidated statement of financial position.

4.14 Borrowings

Borrowings are initially recognised at fair value, net of transaction costs incurred. Borrowings are subsequently accounted at amortised cost. Any difference between the proceeds (net of transaction costs) and the redemption amount is recognised in profit or loss over the period of the borrowings using the effective interest method.

Fees paid on the establishment of loan facilities are recognised as transaction costs of the loan to the extent that it is probable that some or all of the facility will be drawn down. In this case, the fee is deferred until the draw-down occurs. To the extent there is no evidence that it is probable that some or all of the facility will be drawn down, the fee is capitalised as a prepayment for liquidity services and amortised over the period of the facility to which it relates.

Borrowings are derecognised when the obligation specified in the contract is extinguished, cancelled or expired. The difference between the carrying amount of a financial liability that has been extinguished or transferred to another party and the consideration paid, including any non-cash assets transferred or liabilities assumed, is recognised in profit or loss as other income or finance costs.

Where the terms of a financial liability are renegotiated and the entity issues equity instruments to a creditor to extinguish all or part of the liability (debt for equity swap), a gain or loss is recognised in profit or loss, which is measured as the difference between the carrying amount of the financial liability and the fair value of the equity instruments issued.

Borrowings are classified as current liabilities unless the Company has an unconditional right to defer settlement of the liability for at least 12 months after the reporting period.

Covenants that the Company is required to comply with, on or before the end of the reporting period, are considered in classifying loan arrangements with covenants as current or non-current. Covenants that the Company is required to comply with after the reporting period do not affect the classification at the reporting date.

4.15 Trade and other payables

Trade and other payables are obligations to pay for goods or services that have been acquired in the ordinary course of business from suppliers. Trade and other payables are presented as current liabilities unless payment is not due within 12 months after the reporting period. Trade and other payables are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method.

4.16 Finance income

Finance income comprises interest income on funds invested (financial assets), gain on disposal of financial assets and changes in fair value of investments. Interest income is recognized as it accrues in profit or loss, using effective interest method.

4.17 Foreign currency transactions and translation

a) Functional and presentation currency

Items included in these unconsolidated financial statements of the Company are measured using the currency of the primary economic environment in which the Company operates (the functional currency). The financial statements are presented in Pakistani Rupees ('Rupees' or 'Rs'), which is the Company's functional and presentation currency.

b) Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions, and from the translation of monetary assets and liabilities denominated in foreign currencies at year end exchange rates, are generally recognised in profit or loss.

Foreign exchange gains and losses that relate to borrowings are presented in the statement of profit or loss, within finance costs. All other foreign exchange gains and losses are presented in the statement of profit or loss on a net basis within other gains/(losses).

Non-monetary items that are measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined. Translation differences on assets and liabilities carried at fair value are reported as part of the fair value gain or loss. For example, translation differences on non-monetary assets and liabilities such as equities held at fair value through profit or loss are recognised in profit or loss as part of the fair value gain or loss, and translation differences on non-monetary assets such as equities classified as at fair value through other comprehensive income are recognised in other comprehensive income.

4.18 Borrowing costs

General and specific borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets, until such time as the assets are substantially ready for their intended use or sale. Qualifying assets are assets that necessarily take a substantial time to get ready for their intended use or sale.

Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalisation.

All other borrowing costs are recognised in statement of profit or loss in the period in which they are incurred.

4.19 Dividends and appropriation to reserves

Dividend distribution to the Company's members and appropriations to reserves are recognised in the financial statements in the period in which these are approved.

4.20 Compound financial instruments

Compound financial instruments issued by the Company represent preference shares/convertible stock that can be converted into ordinary shares or can be settled in cash.

The liability component of a compound financial instrument is recognised initially at the fair value of a similar liability that does not have an equity conversion option. The equity component is recognised initially at the difference between the fair value of the compound financial instrument as a whole and the fair value of the liability component. Any directly attributable transaction costs are allocated to the liability and equity components in proportion to their initial carrying amounts.

Subsequent to initial recognition, the liability component of a compound financial instrument is measured at amortised cost using the effective interest method. The equity component of a compound financial instrument is not remeasured subsequent to initial recognition.

4.21 Provisions

Provisions for legal claims and make good obligations are recognised when the Company has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources will be required to settle the obligation, and the amount can be reliably estimated.

Provisions are not recognised for future operating losses. Where there are a number of similar obligations, the likelihood that an outflow will be required in settlement is determined by considering the class of obligations as a whole. A provision is recognised even if the likelihood of an outflow with respect to any one item included in the same class of obligations may be small.

Provisions are measured at the present value of management's best estimate of the expenditure required to settle the present obligation at the end of the reporting period taking in consideration the amount that the Company would rationally pay to settle the obligation. The discount rate used to determine the present value is a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The increase in the provision due to the passage of time is recognised as interest expense.

4.22 Share capital

Ordinary shares are classified as equity and recognised at their face value. Incremental costs directly attributable to the issue of new shares are shown in equity as a deduction, net of tax, if any.

4.23 Earnings per share

The Company presents basic and diluted earnings per share ('EPS') data for its ordinary shares.

Basic EPS is calculated by dividing:

- the profit attributable to owners of the Company, excluding any costs of servicing equity other than ordinary shares.
- by the weighted average number of ordinary shares outstanding during the financial year, adjusted for bonus elements in ordinary shares issued during the year and excluding treasury shares.

Diluted EPS adjusts the figures used in the determination of basic earnings per share to take into account:

- the after-income tax effect of interest and other financing costs associated with dilutive potential ordinary shares, and
- the weighted average number of additional ordinary shares that would have been outstanding assuming the conversion of all dilutive potential ordinary shares.

4.24 Contingent liabilities and assets

Contingent liability is disclosed when:

- there is a possible obligation that arises from past events and whose existence will be confirmed only by the occurrence or non occurrence of one or more uncertain future events not wholly within the control of the Company; or
- there is present obligation that arises from past events but it is not probable that an outflow of resources embodying economic benefits will be required to settle the obligation or the amount of the obligation cannot be measured with sufficient reliability.

Contingent liabilities are not recognised. A contingent liability is disclosed unless the possibility of an outflow is remote.

Contingent asset is disclosed when an inflow of economic benefits is probable. Contingent assets are not recognised in the financial statements since this may result in recognition of income that may never be realised.

Contingent liabilities and assets are generally estimated using:

- The single most likely outcome;
- A weighted average of all the possible outcomes (the 'expected value' method). This is likely to be the most appropriate method for a large population of similar claims, but can also be applied to a single obligation with various possible outcomes.

4.25 Rounding of amounts

All amounts disclosed in the financial statements and notes have been rounded off to the nearest thousand Rupees unless otherwise stated.

5. Issued, subscribed and paid up share capital - ordinary share capital

	2024	2023		2024	2023

5.1 26,707,201 (2023: 26,707,201) ordinary shares of the Company are held by the Company's associate, IGI Investments (Private) Limited.

6. Other reserves

Movement in and composition of other reserves is as follows:

	Note	2024	2023
		(Rupees in thousand)	
Capital reserves			
- Share premium	6.1	3,766,738	3,766,738
- FVOCI reserve	6.2	23,214,961	25,953,732

		28,596,699	31,335,470
Revenue reserve			
- General reserve		22,810,333	22,810,333
		51,407,032	54,145,803

6.1 This reserve can be utilised by the Company only for the purposes specified in section 81 of the Act.

6.2 This represents unrealised gain on remeasurement of equity investments at FVOCI and is not available for distribution.

6.3 This reserve was created on account of redemption of 8.5 million preference shares/convertible stock of Rs 190 each in 2016 as per the requirements of section 85 of the repealed Companies Ordinance, 1984.

7. Long term finances from financial institutions

		6,938,900	6,751,400

7.1 Preference shares/convertible stock - unsecured

During the year 2009, the Company issued 10.00% local currency non-voting preference shares/convertible stock at the rate of Rs 190 per share amounting to USD 50 million equivalent to Rs 4,120.50 million under "Subscription Agreement" dated March 25, 2009 with International Finance Corporation ('IFC').

Terms of redemption/conversion

Each holder of preference shares/convertible stock shall have a right to settle at any time, at the option of holder, either in the form of fixed number of ordinary shares, one ordinary share for one preference share/convertible stock, or cash. The Company may, on its discretion, refuse to purchase the preference shares/convertible stock offered to it for purchase in cash. In case of refusal by the Company, preference shareholders shall have the right to either retain the preference shares/convertible stock or to convert them into ordinary shares. The preference shares/convertible stock can be held till perpetuity if preference shareholders do not opt for the conversion or cash settlement.

Rate of return

The preference share/convertible stock holders have a preferred right of return at the rate of 10.00% per annum on a non-cumulative basis till the date of settlement of preference shares/convertible stock either in cash or ordinary shares. In case the amount of dividend paid to an ordinary shareholder exceeds that paid to a preference shareholder, the preference shareholders have the right to share the excess amount with the ordinary shareholders on an as-converted basis.

Preference shares/convertible stock are recognised in the unconsolidated statement of financial position as follows:

	Note	2024	2023
		(Rupees in thousand)	
Face value of preference shares/convertible stock [8,186,842 (2023: 8,186,842) shares of Rs 190 each]			
Transaction costs		1,555,500 (16,628)	1,555,500 (16,628)
Equity component - classified under equity		1,538,872 (606,222)	1,538,872 (606,222)
Liability component - classified under long term finances		932,650	932,650
Accrued return on preference shares/convertible stock - classified under accrued finance cost	14	155,550	155,550

The fair value of the liability component of the preference shares/convertible stock is calculated by discounting cash flows at a rate of approximately 16.50% per annum till perpetuity which represents the rate of similar instrument with no associated equity component. The residual amount, representing the value of the equity conversion component, is included in shareholders' equity as preference shares/convertible stock.

7.1.1 Transactions with preference shareholders

This represents the additional entitlement of the preference shareholders as mentioned in note 7.1. In addition to the preferred right of return at the rate of 10 percent per annum, either in cash or ordinary shares on a non-cumulative basis till the date of settlement of preference shares/convertible stock, the preference shareholders also have the right to share the excess amount with the ordinary shareholders on an as-converted basis in case the amount of dividend per share paid to an ordinary shareholder exceeds the amount paid to a preference shareholder. Since ordinary dividend of Rs 27.50 per share was approved for the year ended December 31, 2023, which exceeded the preferred return for that year, the additional preference dividend to be paid to the preference shareholders has been distributed to the preference shareholders as participating dividend and charged directly to the equity.

9.8 For the principal actuarial assumptions used in the actuarial valuation, please refer note 4.11.2 to these unconsolidated financial statements.						
9.9 Risks faced by the Company on account of gratuity and pension obligations						
(i) Final salary risk (linked to inflation risk) - the risk that the Final salary at the time of cessation of service is greater than the assumed salary. Since the benefit is calculated on the Final salary (which will closely reflect inflation and other macroeconomic factors), the benefit amount increases as salary increases.						
(ii) Asset volatility - Most assets are invested in risk free investments of 3, 5 or 10 year Pakistan Investment Bonds or treasury bills. However, investments in equity instruments is subject to adverse fluctuations as a result of change in the market price.						
(iii) Discount rate fluctuation - The plan liabilities are calculated using a discount rate set with reference to corporate bond yields. A decrease in corporate bond yields will increase plan liabilities, although this will be partially offset by an increase in the value of the current plans' bond holdings.						
(iv) Investment risks - The risk of the investment underperforming and not being sufficient to meet the liabilities. This risk is mitigated by closely monitoring the performance of investments.						
(v) Risk of insufficiency of assets - This is managed by making regular contribution to the fund as per the trust deed.						
(vi) Demographic risks:						
- Mortality risk - the risk that the actual mortality experience is different than the assumed mortality. This effect is more pronounced in schemes where the age and service distribution is on the higher side.						
- Withdrawal risk - the risk of actual withdrawals experience is different from assumed withdrawal probability. The significance of the withdrawal risk varies with the age, service and the entitled benefits of the beneficiary.

10.5 The Company faces the following risks on account of accumulating compensated absences:

- (i) **Final salary risk (linked to inflation risk)** – the risk that the final salary at the time of cessation of service is greater than the assumed salary. Since the benefit is calculated on the final salary (which will closely reflect inflation and other macroeconomic factors), the benefit amount increases as salary increases.
- (ii) **Demographic risks:**
 - **Mortality Risk** - the risk that the actual mortality experience is different than the assumed mortality. This effect is more pronounced in schemes where the age and service distribution is on the higher side.
 - **Withdrawal Risk** - the risk of actual withdrawals experience is different from assumed withdrawal probability. The significance of the withdrawal risk varies with the age, service and the entitled benefits of the beneficiary.

12.1 Short term finances - secured

Short-term finances (Money Market loan) amounting to Rs 1,000 million (2023: Nil) which is a sub limit of the total running finances available, were obtained by the Company during the year from Allied Bank Limited. The rate of mark-up is based on three months KIBOR minus a spread of 1.5% per annum and ranges from 10.74% to 13.82% (2023: Nil) per annum on the balances outstanding. The mark-up is payable at maturity of three months. These loans are secured against the pledge of Nestle Pakistan Limited's shares owned by the Company under a 'Share Pledge Agreement'.

12.2 Running finances - secured

Short term running finances available from commercial banks under mark-up arrangements aggregate Rs 4,000 million (2023: Rs 2,000 million). The rates of mark-up are based on one to three month KIBOR plus spread of 0.0% to 0.10% per annum and range from 14.93% to 22.34% (2023: 16.4% to 22.77%) per annum or part thereof on the balances outstanding. The aggregate running finances are secured against pledge of Nestle Pakistan Limited's shares owned by the Company under a 'Share Pledge Agreement'.

12.3 Letters of credit and bank guarantees

Of the aggregate facilities of Rs 260 million (2023: Rs 260 million) for guarantees, the amounts utilised at December 31, 2024 was Rs 122.680 million (2023: Rs 116.680 million) respectively.

13.3 This includes provision amounting to Rs 550 million (2023: Rs 400 million) in respect of rent of land on lease from the Government of the Punjab ('GoPb') for the period from December 2015 to December 2024.

A portion of the land on which the Company's buildings are situated (note 17), measuring 231 kanals and 19 marlas, was leased out to the Company by GoPb from December 1955 till November 2015 after which the lease has not been renewed. During the year 2015, the Company approached the Board of Revenue ('BoR'), GoPb to renew the lease, however, adequate response was not received. On January 5, 2019, the Supreme Court of Pakistan ('Court'), summoned BoR, to which the BoR stated that the new policy of the GoPb is not to lease state land but to sell it through open auction. Consequently, the Company was directed to deposit Rs 500 million with the BoR as security to the payment of outstanding amount of rent to be determined, with such amount being adjustable against final amount of rent. The Company deposited such amount in compliance with the direction on January 10, 2019. The Court further directed Additional Advocate General, Punjab on January 16, 2019 that subject to the Court's approval, two surveyors be appointed for determination of rent based on industrial usage of the land for the period from December 2015 till date. The surveyors were appointed, who submitted their independent valuation reports to BoR and the Court. The matter is pending for further action as of the date of the authorization for issue of unconsolidated financial statements. Moreover, the Court has further decided that the land shall be sold as industrial land through an open auction with the Company getting the first right of refusal.

The management has, on the basis of assessment of fair value of the said portion of land by independent valuers, as appointed by the Court, and its understanding of the prevalent market terms relating to rent of such properties in the vicinity of the said portion of land, recognised an expense of Rs 150 million (2023: Rs 90 million) in respect of rent for the year ended December 31, 2024. The management is confident that the final amount of rent will be in congruence with the provision made in these unconsolidated financial statements, inter alia based on the fair value determined by the independent valuers and the relevant facts and circumstances.

Furthermore, the management also intends to acquire the title of the said portion of land when the open auction takes place and is confident that it will be able to meet the highest bid.

17.1.4 Included within this owned land is a land measuring 51.14 acres that is licensed and rented out to Packages Real Estate (Private) Limited ('PREPL') for its commercial activities and is not included within the leased land as mentioned in note 13.3. A piece of this land has been given as a security against a long term finance facility obtained by PREPL.

17.1.5 Included within this owned land is a land measuring 25 acres situated in Kasur with a book value of Rs 72.356 million (2023: Rs 72.356 million), rented out to StarchPack (Private) Limited ('SPL') for its industrial activities, which has been mortgaged in favour of Faysal Bank Limited and Meezan Bank Limited against term finance facilities of Rs 1,500 million each (2023: Rs 1,500 million) and in favour of Habib Bank Limited against term finance facility of Rs 1,900 million (2023: Rs 1,900 million) provided to SPL. This charge will be up-graded to joint pari passu charge in due course.

17.1.6 Fair value of the investment properties, based on the valuation carried out by an independent valuer, as at December 31, 2024 is Rs 47,033.899 million (2023: Rs 45,236.236 million). The valuation is considered to be level 2 in the fair value hierarchy due to significant observable inputs used in the valuation. The different levels have been defined in note 44.

Valuation techniques used to derive level 2 fair values

Level 2 fair value of investment property has been derived using a sales comparison approach. Sales prices of comparable land and buildings in close proximity are adjusted for differences in key attributes such as location and size of the property. The most significant input into this valuation approach is price per square foot.

19.4 Impairment assessment of investments in subsidiaries

In respect of the Company's investments in its three subsidiaries - Tri-Pack Films Limited (TPFL), Bulleh Shah Packaging (Private) Limited (BSPL), and StarchPack (Private) Limited (SPL), certain impairment indicators were observed that triggered management to carry out an impairment test of these investments at the reporting date.

Management assessed the recoverable amount of these investments as required by International Accounting Standard 36 - Impairment of Assets, determining it to be higher than the carrying amount. The recoverable amount was determined as the higher of its value in use and fair value less costs of disposal. Hence, the investments are un-impaired as of the reporting date.

20. Long term loan to subsidiary

In the prior year, 2023, the Company entered into an unsecured, interest-bearing long-term loan facility agreement of Rs 750 million with its wholly owned subsidiary, StarchPack (Private) Limited (SPL), to finance SPL's fixed capital expenditure. Out of the total facility, the Company disbursed Rs 250 million in the prior year, which was to be repaid in five equal semi-annual instalments, following a grace period of two years, with repayments starting in March 2026. The remaining facility remains unutilised as of the balance sheet date.

However, the Company entered into an addendum agreement, whereby it was agreed that the Company, at any time during the loan's tenure and before the loan's maturity date, has the right, but not the obligation, to convert all or any part of the outstanding principal amount of the loan into fully paid and non-assessable ordinary shares of SPL at a conversion price and on terms mutually agreed upon by the parties after settlement of any accrued and unpaid interest.

Consequently, on December 30, 2024, the Company's Board of Directors decided to convert the loan into an investment in the equity securities of SPL, as noted in note 19.3 as share deposit money.

On the same date, the Company entered into another unsecured, interest-bearing long-term loan facility agreement, subordinated to the external long term lenders of the Company, of Rs 1,000 million to finance SPL's fixed capital expenditure and disbursed the full amount to SPL. This facility carries an interest rate of six-month KIBOR plus a spread of 0.15% per annum and is to be repaid in five equal semi-annual instalments, following a grace period of two years, with repayments starting in June 2027.

22.2.2 The maximum aggregate amount of dividend receivable from these subsidiaries at the end of any month during the year was Rs 300 million (2023: Rs 1,033.654 million).

22.3 Prepayments include Rs 22.302 million (2023: Rs 16.105 million) made to IGI Life Insurance Limited, a related party.

22.4 Sales tax recoverable

(a) The Deputy Commissioner Inland Revenue ('DCIR') through order dated June 24, 2015 alleged that in respect of tax periods from 2008 to 2012, the Company had incorrectly adjusted input sales tax credit amounting to Rs 146.107 million on purchases of raw materials from certain suppliers who were subsequently blacklisted / suspended and disallowed the same along with levy of default surcharge and penalty thereon with the total demand aggregating to Rs 292.214 million. In 2016, the taxation authorities adjusted an amount of Rs 292.214 million from income tax refunds of the Company against the said demand.

However, the Appellate Tribunal Inland Revenue ('ATIR'), through order dated August 28, 2017, decided the case in favour of the Company. The Company filed an application before the respective authorities to give effect to the order, the outcome of which is still pending. The tax authorities filed an appeal in Sindh High Court in the year 2018 against the decision of the ATIR and the case is pending adjudication. Since the case has been decided in the Company's favour on merits by ATIR, no provision for the above amount of Rs 292.214 million has been made in these unconsolidated financial statements.

- (b) In respect of tax periods from 2014 to 2016, the Additional Commissioner, Punjab Revenue Authority, through an order dated August 8, 2018 created a demand of Rs 757.841 million in respect of alleged default on withholding of Punjab Sales Tax on various heads of accounts along with penalty thereon. The Company filed an appeal against the above order with the Commissioner Inland Revenue (Appeals) ('CIR-A') on December 13, 2018 on the basis of following major grounds:

- the relevant section of the Punjab Sales Tax on Services Act, 2012 has been wrongly applied retrospectively to the alleged period of default;
- the heads of accounts include multiple line items on which Punjab Sales Tax is not applicable; and
- it has been wrongly assumed that all the expenses disclosed in the unconsolidated financial statements under the identified heads have actually been paid during the said tax periods.

During the year 2020, Commissioner (Appeals) ordered an inquiry under section 64(5) of The Punjab Sales Tax on Services Act, 2012 which was conducted by Additional Commissioner Enforcement-III and the inquiry report was submitted to Commissioner (Appeals) on May 27, 2019 whereby the demand was reduced to Rs 457.570 million upon verification of the documents provided by the Company. The final outcome of the appeal is still awaited.

During the year, the recovery proceedings were reinitiated and the Additional Commissioner, Punjab Revenue Authority, through an order dated December 18, 2023 again created a demand of Rs 757.841 million whereby the Company was required to deposit the amount of tax along with default surcharge and penalty by December 26, 2023. The Company had obtained stay from recovery proceedings until April 23, 2025.

The Company has not made any provision against the above demand as the management is confident that the ultimate outcome of the appeal would be in favour of the Company, inter alia on the basis of the advice of the tax consultant and the relevant law and facts.

- (c) In respect of tax periods from January 2016 to December 2016, the DCIR through an order dated December 28, 2018 created a demand of Rs 493.391 million in respect of disallowance of input tax claimed by the Company, alleged default on charging of output sales tax and default on withholding of sales tax along with penalty thereon. The Company appealed against the order before the Commissioner Inland Revenue (Appeals) ['CIR(A)'] dated January 26, 2019 and the appeal was decided partially in favour of the Company dated September 18, 2019 and an amount of Rs 311 million was waived, therefore, reducing the demand to Rs 182.391 million. The department and the Company, both, have filed an appeal before the ATIR against CIR(A)'s order, the final outcome of which is still awaited.

The Company has not made any provision against the above demand as the management is confident that the ultimate outcome of the appeal would be in favour of the Company, inter alia on the basis of the advice of the tax consultant and the relevant law and facts.

- (d) In respect of sales tax periods from January 2019 to December 2019, the DCIR, through his order No. 3/146/2021-22 dated February 28, 2022 created a demand of Rs 515.70 million in respect of disallowance of input tax claimed by the Company, alleged default on charging of output sales tax and default on withholding of sales tax along with penalty and default surcharge thereon.

Being aggrieved by the order of DCIR, the Company filed an appeal before CIR(A) on various grounds including that the order of the DCIR erred due to not considering the correct facts of the proceedings for the conduct of the audit despite the identification of the submissions available on record at various occasions during the proceedings and due to wrong applicability of various provisions of the Sales Tax Act, 1990.

During the last year, the CIR(A) through his order dated April 18, 2023 has accepted all of the contentions of the Company and has set aside all of the demands created except for an input tax claim amounting to Rs 211.900 million. CIR(A) has directed the DCIR to reconsider the demand in light of the documentary evidence that has been provided by the Company.

Being aggrieved by the decision of the CIR(A), the DCIR has filed an appeal before the ATIR that the order of the CIR(A) be set aside and the order of DCIR be restored.

The Company has not made any provision against the above demand as the management is confident that the ultimate outcome of the appeal would be in favor of the Company, inter alia on the basis of the advice of the tax consultant and the relevant law and facts.

- (e) In respect of sales tax periods from January 2018 to December 2018, the DCIR through his order No. 4/146 dated April 27, 2022 created a recovery demand of Rs 1,170 million in respect of disallowance of input tax claimed by the Company, alleged default on charging of output sales tax and default on claiming input sales tax along with penalty thereon.

Being aggrieved by the order of DCIR, the Company filed an appeal before the CIR(A) on the grounds that various sections of input tax have been erroneously applied in disallowing the input tax. Furthermore, input tax related to specific suppliers has been disallowed more than once and alleged as inadmissible. DCIR has also held that sales tax along with further tax be recoverable on categories of fixed assets that were scrapped during the period.

During the last year, CIR(A) through his order dated April 26, 2023 has accepted all of the contentions of the Company and has set aside all of the demands created except for an input tax claim amounting to Rs 641.931 million. CIR(A) has directed the DCIR to confront the Company under specific provisions of the law and inference is to be drawn after duly rebutting each and every argument of the Company.

Being aggrieved by the decision of the CIR(A), the DCIR has filed an appeal before the ATIR that the order of the CIR(A) be set aside and the order of DCIR be restored.

The Company has not made any provision against the above demand as the management is confident that the ultimate outcome of the appeal would be in favor of the Company, inter alia on the basis of the advice of the tax consultant and the relevant law and facts.

- (f) In respect of tax periods from 2015 to 2020, the Additional Commissioner, Punjab Revenue Authority, through his order dated January 11, 2023 has created a demand of Rs 62.33 million in respect of alleged default on withholding of Punjab Sales Tax on various heads of accounts along with penalty thereon. The Company being aggrieved, has filed an appeal against the above order with the Commissioner (Appeals), Punjab Revenue Authority, on December 21, 2023. During the year, the recovery proceedings were reinitiated and the Additional Commissioner, Punjab Revenue Authority, through an order dated December 17, 2024 again created a demand of Rs 62.33 million whereby the Company was required to deposit the amount of tax along with default surcharge and penalty by December 27, 2024.

In response to this notice and to avert any recovery measures, the Company paid tax of Rs 6.233 million equating to 10% of the total demanded amount. This payment was executed in accordance with the provisions of Section 70(1) of the Punjab Sales Tax on Services Act, 2012 (Act), which held no action shall be taken against the Company whilst pendency of the appeal under section 63 of the Act subject to payment of 10 percent of the tax demand.

The Company has not made any provision against the above demand as the management is confident that the ultimate outcome of the appeal would be in favor of the Company, inter alia on the basis of the advice of the tax consultant and the relevant law and facts.

Income tax recoverable	36,013	36,013
	2,294,994	2,218,255

23.1 In respect of tax year 2007, the department rejected the Company's claim for interest / additional payment for delayed refunds for the tax years from 1983-84 to 2003 amounting to Rs 64.616 million and adjusted the Company's tax liability for the said year accordingly. The Company being aggrieved of the said order filed an appeal with Commissioner Inland Revenue (Appeals) ['CIR(A)']. CIR(A) through his order dated January 26, 2009 maintained the rejection. An appeal against the said order was filed by the Company with ATIR. ATIR through its order dated February 23, 2010 maintained the rejection. The Company filed an appeal in the High Court of Sindh against ATIR's order on June 28, 2010, the outcome of which is still pending. However, the Company has not made any provision against the above recoverable as the management is confident that the ultimate outcome of the appeal would be in favor of the Company, inter alia on the basis of the advices of the tax consultant and legal counsel, the relevant law and facts.

23.2 In respect of tax year 2014, the department amended the deemed assessment for the year raising a tax demand of Rs 606.328 million. In this order, among other issues, the department did not accept the Company's contention for non-taxation of the transfer of paper and paperboard and corrugated business segments to BSPPL under section 97 of the Income Tax Ordinance, 2001. Such transfer has been taxed as capital gain on the value of assets transferred.

Further, certain other disallowances inter alia including on account of allocation of various expenses towards dividend and other incomes, effectively reducing the available tax losses by approximately Rs 1,200 million, were also made by the department in respect of previous tax years.

The Company being aggrieved of the above order filed an appeal before the CIR(A), who through order dated March 2, 2018, has accepted all the contentions of the Company except non-taxation of the transfer of paper and paperboard and corrugated business segments to BSPPL and taxation of provision for retirement benefits on accrual basis thereby reducing the tax refundable claimed by the Company from Rs 352.953 million to Rs 273.986 million and also reducing the original demand to Rs 78.967 million. The Company has filed an appeal against the above order before ATIR on May 4, 2018, the outcome of which is still pending. The ATIR through order No. ITA 723/KB/2018 issued on July 01, 2021 decided the main issue of transfer of assets in between wholly owned subsidiary subject to tax under capital gain in favour of the Company. However, ATIR upheld the decision of CIR(A) on account of claim of provisions for approved staff retirement benefit funds as inadmissible amounting to Rs 259.4 million. Further, being aggrieved by the unfavourable decision of ATIR against inadmissibility of provision against retirement funds, the Company filed an appeal before the Sindh High Court (SHC) on September 24, 2021. The department being aggrieved by the unfavourable decision of ATIR against deletion of output tax, penalty and default surcharge also filed an appeal before the SHC. The Company has not made any provision against the above demand and disallowance as the management is confident that the ultimate outcome of the appeal would be in the Company's favour, inter alia on the basis of the advice of the tax consultant and the relevant law and facts.

23.3 In respect of tax year 2016, the department amended the assessment for the year raising a tax demand of Rs 464.187 million. The Company being aggrieved of the said order filed an appeal before the CIR(A), who through order dated December 11, 2017, accepted all the contentions of the Company except the allowability of provision for Workers' Profit Participation Fund on payment rather than accrual basis and remanded back credit for minimum tax, thereby, reducing the tax demand to Rs 86.864 million. The Company filed an appeal against the above order before ATIR on January 9, 2018, the outcome of which is still pending. No provision for this amount has been made in the financial statements as according to the management of the Company, there are meritorious grounds that the ultimate decision would be in its favour.

23.4 In respect of tax year 2017, the Deputy Commissioner Inland Revenue ('DCIR') raised a demand through an order dated April 29, 2021, amounting to Rs 1,520 million under section 137(2) of the Income Tax Ordinance 2001, primarily by disallowing certain expenses and also including certain additions in the taxable income. Management believes that the action taken by the DCIR is, in an adhoc and arbitrary manner, despite all matters concluded in the audit for tax year 2014 on similar issues as well as the data provided during the monitoring proceedings for that year have been finalized without providing an adequate opportunity of being heard to the Company and the above mentioned additions / disallowances are made on an 'ex parte basis'. Being aggrieved, the Company filed an appeal before the CIR(A) dated May 28, 2021 against this impugned order, and at the same time, the Company also filed an application for stay against any coercive action taken by Federal Board of Revenue in Sindh High Court dated June 1, 2021. The stay is valid till the decision of CIR(A).

Based on the advice of the Company's tax advisor, the management believes that there are meritorious grounds to support the Company's stance in respect of this matter. Consequently, no provision for this amount has been made in these unconsolidated financial statements.

23.5 In respect of tax year 2021, a demand amounting to Rs 307.80 million was raised under sections 161, 205 and 182 of the Income Tax Ordinance 2001 by the Deputy Commissioner Inland Revenue ('DCIR') through an order dated March 31, 2022. The tax authorities raised the demand primarily on account of non-withholding of the income tax.

Being aggrieved by the order of the DCIR, the Company filed an appeal before CIR(A) on the grounds that the order of the DCIR is erred in holding the Company as "Assessee-In-Default" for not withholding tax on payments of salaries which are below taxable slabs and pertains to the reimbursements for employees travelling and conveyance expenses, and professional taxes etc. The outcome of the appeal is still awaited.

Based on the advice of the Company's tax advisor, the management believes that there are meritorious grounds to support the Company's stance in respect of this matter. Consequently, no provision for this amount has been made in these unconsolidated financial statements.

23.6 In respect of tax year 2019, a demand amounting to Rs 378.79 million was raised under sections 161, 205 and 182 of the Income Tax Ordinance 2001 by the Deputy Commissioner Inland Revenue ('DCIR') through an order dated December 31, 2024. The tax authorities raised the demand primarily on account of non-withholding of the income tax.

Being aggrieved by the order of the DCIR, the Company filed an appeal before ATIR on the grounds that the order of the DCIR is erred in holding the Company as "Assessee-In-Default" for not withholding tax on payments of salaries which are below taxable slabs and pertains to the reimbursements for employees travelling and conveyance expenses, and professional taxes etc. The outcome of the appeal is still awaited.

Based on the advice of the Company's tax advisor, the management believes that there are meritorious grounds to support the Company's stance in respect of this matter. Consequently, no provision for this amount has been made in these unconsolidated financial statements.

40. Financial risk management

40.1 Financial risk factors

The Company's activities expose it to a variety of financial risks: market risk (including currency risk, interest rate risk and other price risk), credit risk and liquidity risk. The Company's overall risk management programme focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the Company's financial performance.

Risk management is carried out by the Company's finance department under policies approved by the Board of Directors. The Company's finance department evaluates and hedges financial risks. The Board of Directors provides written principles for overall risk management, as well as written policies covering specific areas, such as currency risk, interest rate risk, credit risk, and investment of excess liquidity.

The Company's overall risk management procedures to minimize the potential adverse effects of financial market on the Company's performance are as follows:

(a) Market risk

(i) Foreign exchange risk

Foreign exchange risk is the risk that the fair value of future cash flows of a financial instrument shall fluctuate because of changes in foreign exchange rates.

The Company is exposed to currency risk arising primarily with respect to the USD and the Euro. Currency risk arises from future commercial transactions and recognised assets and liabilities. Currency risk arises when future commercial transactions or recognised assets or liabilities or net investments in foreign operations that are denominated in a currency that is not the Company's functional currency. Currently, the Company's currency risk is restricted to cash in hand, amounts receivable and amounts payable to foreign entities.

Impact on profit or loss of currency risk is not considered material as at December 31, 2024 and as at December 31, 2023, hence, not disclosed.

(ii) Other price risk

Other price risk represents the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices (other than those arising from interest rate risk or currency risk), whether those changes are caused by factors specific to the individual financial instrument or its issuer, or factors affecting all similar financial instruments traded in the market.

The Company is exposed to equity securities price risk because of investments held by the Company and classified as fair value through other comprehensive income. Material investments within the portfolio are managed on an individual basis and all buy and sell decisions are approved by the Board. The primary goal of the Company's investment strategy is to maximise investment returns.

The Company's certain investments in equity instruments are publicly traded on the Pakistan Stock Exchange Limited.

The table below summarises the impact of increases/decreases of the KSE-100 index on the Company's pre-tax profit for the year and on equity. The analysis is based on the assumption that the KSE-100 index had increased/decreased by 10% with all other variables held constant and all the Company's equity investments moved in line with the index:

Impact on other than post-tax profit components of equity	2024	2023
	(Rupees in thousand)	
2,721,550	2,993,478	

Pakistan Stock Exchange Limited

As at December 31, 2024, the Company does not hold any investment that is carried at fair value through profit or loss ('FVPL'). As at December 31, 2023, the Company had short term investment in mutual fund that was carried at fair value through profit or loss ('FVPL'). Therefore, the Company was exposed to other price risk due to macroeconomic factors.

As at December 31, 2023, if the market value of Company's investment in units held in mutual fund had been 10% higher/lower, with all other variables held constant, the impact would have been as follows:

Impact on profit for the year	
2024	2023
(Rupees in thousand)	

Short term investment - 24,036

(iii) Cash flow and fair value interest rate risk

Interest rate risk represents the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates.

The Company's interest rate risk arises mainly from short term and long-term borrowings, bank balances and preference shares. These borrowings issued at variable rates expose the Company to cash flow interest rate risk.

The Company analyses its interest rate exposure on a dynamic basis. Various scenarios are simulated taking into consideration refinancing, renewal of existing positions, alternative financing and hedging. Based on these scenarios, the Company calculates the impact on profit or loss of a defined interest rate shift. The scenarios are run only for liabilities that represent the major interest-bearing positions

Fair value sensitivity analysis for fixed rate instruments

The Company does not account for any fixed rate financial assets and liabilities at fair value through profit or loss. Therefore, a change in interest rate at the reporting date would not affect profit or loss of the Company.

Cash flow sensitivity analysis for variable rate instruments

At December 31, 2024, if interest rates on floating rate borrowings had been 3% higher/lower with all other variables held constant, post-tax profit for the year would have been Rs 197.606 million (2023: Rs 169.007 million) lower/higher, mainly as a result of higher/lower interest expense on floating rate borrowings.

(b) Credit risk

Credit risk represents the risk of financial loss being caused if counter party fails to discharge an obligation.

Credit risk of the Company arises from deposits with banks and financial institutions, as well as outstanding receivables and committed transactions. The management assesses the credit quality of the debtors, taking into account their financial position, past experience and other factors. Individual risk limits are set based on internal or external ratings in accordance with limits set by the Board of Directors. The utilisation of credit limits is regularly monitored. For banks and financial institutions, only independently rated parties with a strong credit rating are accepted.

(i) Exposure to credit risk

The Company monitors the credit quality of its financial assets with reference to historical performance of such assets and available external credit ratings. The gross carrying values of financial assets exposed to credit risk are as under:

2024		2023
		(Rupees in thousand)
3,713	2,602

934,238	1,497,711	
154,931	123,078	
2,202,882	2,263,747	

(ii) Impairment of financial assets

The Company's bank balances, deposits and other receivables are subject to the impairment requirements of IFRS 9. The identified impairment loss on other receivables was material and therefore, has been recognised in these unconsolidated financial statements as referred to in note 22.5. The balances were due for more than 365 days.

(iii) Credit quality of financial assets

The credit quality of Company's financial assets that are neither past due nor impaired (mainly bank balances) can be assessed with reference to external credit ratings (if available) or to historical information about counterparty default rate:

(c) Liquidity risk

Liquidity risk represents the risk that the Company shall encounter difficulties in meeting obligations associated with financial liabilities.

The Company manages liquidity risk by maintaining sufficient cash and bank balances and the availability of funding through an adequate amount of committed credit facilities. At December 31, 2024, the Company has borrowing limits available from financial institutions as disclosed in note 12, and cash and bank balances as disclosed in note 25. The Company follows an effective cash management and planning policy to ensure availability of funds and to take appropriate measures for new requirements.

Management monitors the forecasts of the Company's cash and cash equivalents (note 36.2) on the basis of expected cash flow. This is generally carried out in accordance with practice and limits set by the Company. These limits vary by location to take into account the liquidity of the market in which the entity operates. In addition, the Company's liquidity management policy involves projecting cash flows in each quarter and considering the level of liquid assets necessary to meet its liabilities, monitoring unconsolidated statement of financial position liquidity ratios against internal and external regulatory requirements and maintaining debt financing plans.

The table below analyses the Company's financial liabilities into relevant maturity groupings based on the remaining period at the unconsolidated statement of financial position to the contractual maturity date. The amounts disclosed in the table are the contractual undiscounted cash flows. Balances due within 12 months equal their carrying balances, because the impact of discounting is not significant.

42. Offsetting financial assets and financial liabilities

There are no significant financial assets and financial liabilities that are subject to offsetting, enforceable master netting arrangements and similar agreements.

43. Capital management

The Company's objectives when managing capital are to safeguard the Company's ability to continue as a going concern in order to provide returns for shareholders and benefits for other stakeholders and to maintain an optimal capital structure to reduce the cost of capital.

The Company manages its capital structure and makes adjustments to it in the light of changes in economic conditions. In order to maintain or adjust the capital structure, the Company may adjust the amount of dividends paid to shareholders or issue new shares.

Consistent with others in the industry and the requirements of the lenders, the Company monitors the capital structure on the basis of gearing ratio. This ratio is calculated as net debt divided by total debt and equity (as shown in the unconsolidated statement of financial position). Net debt is calculated as total borrowings (including current and non-current borrowings) including bank overdraft less cash and bank balances..

The gearing ratio as at December 31, 2024 and 2023 were as follows:

	Note	2024	2023
		(Rupees in thousand)	
Borrowings	7 & 12	9,251,400	
Less: Cash and bank balances	25	159,674

Total equity		55,218,543	
Gearing ratio Percentage		14.14%	
		58,653,535	
		11.08%	

In accordance with the terms of agreements for long term finances, (as disclosed in note 7.1 to these unconsolidated financial statements), the Company has complied with all the covenants throughout the year.

In accordance with the terms of agreement for preference shares with IFC, (as disclosed in note 7.1 to these unconsolidated financial statements), the Company is required to comply with the following financial covenants:

- the debt service coverage ratio, calculated according to the terms of the above mentioned agreement shall not be less than 1.30.
- the current ratio shall not be less than 1:1. Current assets for the purpose of computing current ratio, as per the terms of the above mentioned agreement, do not include prepayments.
- the debt to equity ratio, as calculated under the terms of the said agreement, must be not more than 60%.

The Company has complied with these covenants throughout the reporting period. As at December 31, 2024, the debt service coverage ratio was 14.70 (2023: 15.49), the current ratio was 1.1:1 (2023: 2.43:1) and the debt to equity ratio is as above.

44. Fair value estimation

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction in the principal (or most advantageous) market at the measurement date under current market conditions (i.e. an exit price) regardless of whether that price is directly observable or estimated using another valuation technique.

The table below analyses the financial instruments carried at fair value, by valuation method. The different levels have been defined as follows:

- Quoted prices (unadjusted) in active markets for identical assets or liabilities (level 1).
- Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices) (level 2).
- Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs) (level 3).

The following table presents the Company's assets that are measured at fair value:

At December 31, 2024

Recurring fair value measurements Assets

Long term investments - FVOCI

Level 1	Level 2	Level 3	Total
(Rupees in thousand)			
27,215,515	-	5,025	27,220,540

At December 31, 2023

29,954,286	-	5,025	29,959,311

30,194,642	-	5,025	30,199,667
------------	---	-------	------------

Movement in the above mentioned assets has been disclosed in note 19 to these unconsolidated financial statements and movement in fair value reserve has been disclosed in the unconsolidated statement of changes in equity. There were no transfers between Levels 1 and 2 & Levels 2 and 3 during the year and there were no changes in valuation techniques during the year. Since the ordinary shares of Coca-Cola Beverages Pakistan Limited and Pakistan Tourism Development Corporation Limited are not listed, therefore these are included in Level 3. The Company's policy is to recognise transfers into and transfers out of fair value hierarchy levels as at the end of the reporting period. Changes in level 2 and 3 fair values are analysed at the end of each reporting period during the annual valuation discussion between the Chief Financial Officer and the investment advisor. As part of this discussion, the investment advisor presents a report that explains the reason for the fair value movements.

The fair value of financial instruments traded in active markets is based on quoted market prices at the reporting date. A market is regarded as active if quoted prices are readily and regularly available from an exchange, dealer, broker, industry group, pricing service, or regulatory agency, and those prices represent actual and regularly occurring market transactions on an arm's length basis. The quoted market price used for financial assets held by the Company is the current bid price. These instruments are included in Level 1.

The fair value of financial instruments that are not traded in an active market is determined by using valuation techniques. These valuation techniques maximise the use of observable market data where it is available and rely as little as possible on entity specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in Level 2.

If one or more of the significant inputs is not based on observable market data, the instrument is included in Level 3.

The carrying values of all financial assets and liabilities reflected in the financial statements approximate their fair values. Fair value is determined on the basis of objective evidence at reporting date.

45. Disclosure requirement for Companies not engaged in Shariah non-permissible business activities

46. Date of authorisation for issue of financial statements

These unconsolidated financial statements were authorised for issue on March 25, 2025 by the Board of Directors of the Company. The Board of Directors have the power to amend and re-issue the financial statements.

47. Event after the reporting period

The Board of Directors have proposed a dividend of Rupee 15.00 per share, amounting to Rs 1,340.693 million at their meeting held on March 25, 2025 for approval of the members at the Annual General Meeting to be held on April 30, 2025. These financial statements do not include the effect of the above dividend that will be accounted for in the period in which it is approved.

48. Corresponding figures

Corresponding figures have been re-arranged and reclassified, wherever necessary, for the purposes of comparison and better presentation as per reporting framework. However, no significant re-arrangements have been made.

Directors' Report On Consolidated Financial Statements

For the Year Ended December 31, 2024

The Directors of the Parent Company take pleasure in presenting the consolidated financial statements of the Group for the year ended December 31, 2024. Comparison of consolidated results for the year 2024 as against year 2023 is as follows:

	2024	2023
	(Rupees in million)	(Rupees in million)
Sales – net	176,761	156,972
Profit from operations - EBIT	18,764	23,507
Share of profit in associates and joint venture	418	289
Bargain purchase gain on acquisition of Hoechst Pakistan Limited	-	4,136
Investment income	618	998
Finance cost	(18,356)	(13,534)
Profit before levy & income tax	1,444	15,396

During the year 2024, the Group achieved net sales of Rs 176,761 million against net sales of Rs 156,972 million achieved during last year representing sales growth of 13% with an operating profit of Rs 18,764 million as compared to Rs 23,507 million generated during last year. This decline is mainly attributable to adverse sales mix, higher material and fuel costs which have not been fully recovered from the end customers and high depreciation expense on account of strategic capital expenditure made in previous years. The management of these subsidiaries are taking steps to address this issue through better product mix, fixed costs control and timely passing on cost increases to the customers.

The Group has recorded profit before levy and income tax of Rs 1,444 million as compared to Rs 15,396 million generated during last year, representing a decline of 91%. The decreased profitability is primarily on account of lower operating profit as fully described above, increased finance cost by Rs 4,822 million mainly attributable to increased loans availed for the purpose of making capital expenditure and new strategic investments in StarchPack (Private) Limited and Packages Trading FZCO and a one-time bargain purchase gain of Rs 4,136 million on the acquisition of shareholding in Hoechst Pakistan Limited (formerly Sanofi-Aventis Pakistan Limited) during last year.

A brief review of the operational performance of the Group subsidiaries is as follows:

PACKAGES CONVERTORS LIMITED

Packages Convertors Limited ('PCL') is an un-listed public limited wholly owned subsidiary of the Group. It is principally engaged in the manufacture and sale of packaging materials, tissue products and sanitary napkins. PCL has achieved net sales of Rs 49,176 million during the year 2024 as compared

to Rs 49,379 million during 2023, representing decline of 0.4%. PCL has generated profit before tax of Rs 4,717 million during the year 2024 as compared to Rs 5,387 million during 2023, representing a decrease of 12%. This is mainly on account of adverse sales mix combined with low customer volumes in the packaging division. Moving forward, the management will focus on improving operating results through higher volumes, cost efficiency, product and process optimization, and disciplined working capital management.

BULLEH SHAH PACKAGING (PRIVATE) LIMITED

Bulleh Shah Packaging (Private) Limited ('BSPL') is a wholly owned subsidiary of the Group, which is principally engaged in the manufacturing and conversion of paper and paper board and corrugated boxes. BSPL has achieved sales of Rs 57,870 million during the year 2024 as compared to Rs 59,074 million during 2023, representing decline of 2% despite a volumetric increase of 11% as compared to the previous year. BSPL has recorded loss before levy and income tax of Rs 6,426 million during the year 2024 as compared to profit before levy and income tax of Rs 1,452 million during 2023. Losses sustained are mainly on account of unrestricted imports of board and paper products, adverse sales mix, increased material and fuel costs which could not be passed on to customers and higher finance cost on account of strategic capital expenditure made by the company. Moving forward, BSPL will focus on improving operating results through volume growth, favourable sales mix, lower finance cost and tighter cost controls.

DIC PAKISTAN LIMITED

DIC Pakistan Limited ('DIC') is an un-listed public limited subsidiary of the Group, which is principally engaged in the manufacturing, processing and selling of industrial inks. DIC has achieved net sales of Rs 11,750 million during the year 2024 as compared to Rs 10,632 million last year, representing sales growth of 11%. DIC has generated profit before levy and income tax of Rs 1,702 million during the year 2024 as against Rs 1,876 million in 2023. This is mainly due to product mix variation, higher selling expenses and finance costs. Moving forward, the management will focus on improving operating results through volume growth and tighter cost control. The company is in the process of relocation and expected to commence commercial operations from its new efficient site at Kasur by end of Q2-2025.

PACKAGES LANKA (PRIVATE) LIMITED

Packages Lanka (Private) Limited ('PLL') is a Sri Lankan based subsidiary of the Group, which is primarily engaged in the production and sale of flexible packaging. PLL has achieved sales of SLR 4,999 million during 2024 as compared to SLR 4,659 million in 2023, representing increase of 7%. The Company has generated profit before tax of SLR 1,006 million in the year 2024 as compared to profit before tax of SLR 818 million in 2023, representing increase of 23%. This has come mainly on account of improved product mix, tighter cost controls, lower interest rates and effective working capital management.

PACKAGES REAL ESTATE (PRIVATE) LIMITED

Packages Real Estate (Private) Limited ('PREPL') is a subsidiary of the Group, which is primarily engaged in development of real estate. It is currently operating a real estate project titled 'Packages Mall' and also leases out office space to corporate customers. PREPL has achieved net revenue of Rs 6,018 million during the year 2024 as compared to Rs 5,311 million during 2023, representing growth of 13%. PREPL has recorded profit before levy and income tax of Rs 989 million during the year 2024 as compared to Rs 672 million in 2023, representing growth of 47%.

STARCHPACK (PRIVATE) LIMITED

StarchPack (Private) Limited ('SPL') is a wholly owned subsidiary of the Group, which is principally engaged in the manufacture and sale of corn-based starch products, its derivates, by-products and trading of corn. The commercial production of its native starch plant was achieved on 1st of December 2023, while commercial production of its modified starch and glucose plants was achieved in H2 2024. With the commencement of these, SPL has achieved successful commercial operations of all its manufacturing facilities. During the current year, being its first year of operations, SPL achieved net revenue of Rs 3,599 million and a loss before levy and income tax of Rs 1,933 million. SPL is targeting a stable performance in FY 2025 with increased product portfolio especially in value-added starches, efficient production and efficient corn procurement.

TRI-PACK FILMS LIMITED

Tri-Pack Films Limited ('TPFL') is a listed public limited subsidiary of the Group, which is principally engaged in the manufacturing and sale of Biaxially Oriented Polypropylene (BOPP) film and Cast Polypropylene (CPP) film. TPFL has achieved net sales of Rs 29,413 million during the year 2024 as compared to sales of Rs 24,919 million achieved during 2023, representing sales growth of 18% driven primarily by higher exports of BOPP film. TPFL has generated a loss before levy and income tax of Rs 290 million as against profit before levy and income tax of Rs 1,708 million achieved during last year. This decrease is primarily on account of capitalization of its new BOPP line, leading to increased depreciation and finance cost and normalization of local BOPP prices in the current year. Moving forward, the company expects to recoup the benefits of the strategic capital expenditure by higher volumes, effective working capital management and tighter fixed cost controls.

PACKAGES TRADING FZCO, DUBAI, UAE

Packages Trading FZCO ('FZCO') is a wholly owned subsidiary of the Group, which is incorporated under Dubai Integrated Economic Zones Authority Implementing Regulations, 2022 and registered with Dubai Integrated Economic Zones Authority. The subsidiary is primarily engaged in commercial trading with import, export, distribution and warehousing as its ancillary activities. During the current year, the Parent

Company made an investment of AED 1,330 million as equity and FZCO achieved net revenue of AED 106 million as compared to net revenue of AED 5.5 million achieved during 2023 and a profit of AED 1.8 million as against a loss before tax of AED 0.8 million during last year. This was the first full year of operations and FZCO is expected to provide both export and import synergies to group companies in future years.

HOECHST PAKISTAN LIMITED (FORMERLY SANOFI-AVENTIS PAKISTAN LIMITED)

Hoechst Pakistan Limited (formerly Sanofi-Aventis Pakistan Limited) ('HPL') is principally engaged in the manufacturing, selling and trading of pharmaceutical and related products. HPL has achieved net revenue of Rs 26,748 million during 2024 as compared to Rs 21,369 million during 2023, representing revenue growth of 25%. HPL has generated profit before levy and income tax of Rs 3,479 million during the current year as compared to Rs 916 million during 2023, representing increase of 3.8 times, mainly driven from sales growth, favourable product mix, higher end sale prices and effective working capital management.

FUTURE OUTLOOK

Pakistan's macroeconomic performance in 2024 demonstrated resilience and gradual improvement. The Group expects that the economic outlook of the country would continue to improve on the back of prudent policy management, continued implementation of reforms aimed to maintain fiscal discipline, improving foreign exchange reserves, political stability and economic assistance from friendly nations.

The first loan tranche received in 2024 from Extended Fund Facility Arrangement (EEF) of \$7 billion under the International Monetary Fund (IMF) program has also been crucial in providing much-needed financial support, helping to restore investor confidence and stabilize the macroeconomic environment. Overall, these measures are setting a positive trajectory for economic diversification, future sustainable growth and stability.

Owing to first year operating losses sustained by StarchPack (Private) Limited ('SPAC'), higher depreciation and finance cost of Tri-Pack Films Limited ('TPFL') owing to strategic capital expenditure and adverse market conditions faced by Bulleh Shah Packaging (Private) Limited ('BSPL'), the returns from these investments had been affected. The management is confident of an eventual recovery and is taking steps to ensure a return to profitability. In this regard, a revised three-year strategy was developed after which the Board of Directors of the Parent Company approved injection of up to Rs. 3 billion into SPAC and Rs. 8 billion into BSPL in various forms including ordinary share capital, subordinated debt and potential conversion of prior loan to equity in order to optimize the capital structure of both the companies.

INDEPENDENT AUDITOR'S REPORT

To the members of Packages Limited

Report on the Audit of the Consolidated Financial Statements

Opinion

We have audited the annexed consolidated financial statements of Packages Limited and its subsidiaries (the Group), which comprise the consolidated statement of financial position as at December 31, 2024, and the consolidated statement of profit or loss, the consolidated statement of comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the year then ended, and notes to the consolidated financial statements, including material accounting policy information and other explanatory information.

In our opinion, consolidated financial statements give a true and fair view of the consolidated financial position of the Group as at December 31, 2024, and of its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with the accounting and reporting standards as applicable in Pakistan.

Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs) as applicable in Pakistan. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Consolidated Financial Statements* section of our report. We are independent of the Group in accordance with the International Ethics Standards Board for Accountants' *Code of Ethics for Professional Accountants* as adopted by the Institute of Chartered Accountants of Pakistan (the Code), and we have fulfilled our other ethical responsibilities in accordance with the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Following are the Key audit matters:

S. No.	Key audit matters	How the matter was addressed in our audit
1.	Revenue from contracts with customers <i>(Refer notes 4.20 and 37 to the annexed consolidated financial statements)</i> Revenue is recognised when or as performance obligations are satisfied by transferring control of a promised good or service to a customer, and control either transfers over time or at a point in time.	Our audit procedures included the following: <ul style="list-style-type: none"> Understood and evaluated management controls over revenue; Performed testing of a sample of revenue transactions with underlying documentation, including dispatch documents and sales invoices;

	The Group has recognised a net revenue of Rs 176,761.284 million during the current year, reflecting an increase of 12.61% in net revenue from the prior year. Due to revenue being one of the key performance indicators of the Group, the presence of various revenue streams, the large number of revenue transactions involving numerous customers, and the inherent risk of material misstatement, we consider it to be a key audit matter.	<ul style="list-style-type: none"> Performed cut-off procedures on a sample basis to ensure revenue was recognised in the correct period; Checked, on a sample basis, the approval of sales prices by the appropriate authority; Performed analytical procedures to analyse variations in the price and quantity sold during the year; Tested journal entries relating to revenue recognised during the year based on identified risk criteria; and Assessed the adequacy of disclosures made in the financial statements related to revenue.
2.	Assessment of recoverable amount of certain CGUs <i>(Refer notes 4.3.4 and 53.7 to the annexed consolidated financial statements)</i> As of the reporting date, impairment indicators were identified within certain Cash Generating Units (CGUs) of the Group, which encompass property, plant and equipment, right-of-use of assets and intangible assets. These indicators required management to perform an impairment test in accordance with International Accounting Standard 36 - Impairment of Assets. Management assessed the recoverable amounts of these CGUs, concluding that they exceeded their carrying amounts.	Our audit procedures included the following: <ul style="list-style-type: none"> Considered management's process for identifying impairment indicators for the Group's assets; Assessed the methodology used by management to calculate the recoverable amounts of the CGUs; Obtained an understanding of the work performed by management for the purpose of computing the recoverable amounts; Where cash flow techniques were used to calculate recoverable amounts, assessed the reasonableness of the key assumptions, including revenue, profit and cash flow growth rates, terminal growth rates, and the discount rates that management has applied; Where 'fair value less costs of disposal' was used, evaluated the professional qualification of management's expert and assessed its independence, competence, and experience in the field and involved auditor's expert to assess the adequacy of the work performed by the management's expert; Assessed the professional qualifications, experience, and competence of the management's

Information Other than the Unconsolidated and Consolidated Financial Statements and Auditor's Reports Thereon

Management is responsible for the other information. The other information comprises the information included in the annual report but does not include the unconsolidated and consolidated financial statements and our auditor's reports thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and the Board of Directors for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with accounting and reporting standards as applicable in Pakistan and the Companies Act, 2017 and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

The Board of Directors is responsible for overseeing the Group's financial reporting process.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with ISAs as applicable in Pakistan will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with ISAs as applicable in Pakistan, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk

of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with the Board of Directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the Board of Directors with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with the Board of Directors, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partner on the audit resulting in this independent auditor's report is Khurram Akbar Khan.

2. Basis of preparation

2.1 Statement of compliance

These consolidated financial statements have been prepared in accordance with the accounting and reporting standards as applicable in Pakistan. The accounting and reporting standards applicable in Pakistan comprise of:

- i) International Financial Reporting Standards ('IFRS') issued by the International Accounting Standards Board ('IASB') as notified under the Companies Act, 2017 (the 'Act'); and
- ii) Provisions of and directives issued under the Act.

Where provisions of and directives issued under the Act differ from the IFRS, the provisions of and directives issued under the Act have been followed.

2.2 Change in accounting policy

The Institute of Chartered Accountants of Pakistan has issued application guidance on accounting of minimum and final taxes vide its circular No. 07/2024 dated May 15, 2024 ('the Guidance'). According to the Guidance, the minimum taxes in excess of normal tax liability and tax deducted at source other than from dividends from subsidiaries, joint ventures and associates under final tax regime, are out of scope of IAS 12 'Income Taxes' and fall in the ambit of IFRIC 21 'Levies' and IAS 37 'Provisions, Contingent Liabilities and Contingent Assets'.

Accordingly, the Group has changed its accounting policy to recognise such taxes as 'levies' which were previously being recognised as 'income tax'. This change has been accounted for retrospectively in line with the requirements of IAS 8 'Accounting Policies, Changes in Accounting Estimates and Errors'. There has been no effect on the consolidated statement of financial position, the consolidated statement of comprehensive income, the consolidated statement of cash flows, the consolidated statement of changes in equity and earnings per share as a result of this change.

The effects of change in accounting policy are as follows:

	Had there been no change in accounting policy	Impact of change in accounting policy	After incorporating effects of change in accounting policy

For the year ended December 31, 2024

Income tax	5,003,209	(1,107,026)	3,896,183

2.3 Initial application of standard, amendments or an interpretation to existing standards

The following amendments to existing standards have been published that are applicable to the Group's consolidated financial statements covering annual periods, beginning on or after the following dates:

2.3.1 Standards, amendments to published standards and interpretations that are effective in the current year

Certain standards, amendments and interpretations to IFRS are effective for accounting period beginning on January 1, 2024 but are considered not to be relevant or to have any significant effect on the Group's operations (although they may affect the accounting for future transactions and events) and are, therefore, not detailed in these consolidated financial statements, except for the following:

a) Amendment to International Accounting Standard (IAS) 1 - Non-current liabilities with covenants

The amendment clarifies how conditions that an entity must comply with within twelve months after the reporting period affect the classification of a liability. The amendment also aims to improve the information an entity provides

related to liabilities subject to these amendments. The amendment clarifies that a liability should be classified as a current liability if a breach of covenant that gives the lender the right to demand immediate repayment occurs at or prior to the end of the reporting period, unless sufficient relief is granted by the lender before or at the end of the reporting period.

The above amendment did not result in any significant changes to these consolidated financial statements.

(b) IFRIC Agenda Decision – Disclosure of Revenues and Expenses for Reportable Segments (IFRS 8)

In its July 2024 meeting, the IASB discussed and did not object to an IFRIC agenda decision on ‘Disclosure of Revenues and Expenses for Reportable Segments (IFRS 8 Operating Segments)’. IFRS 8 Operating Segments requires an entity to disclose specific information about assets, liabilities, and profit or loss by segment. Specifically, IFRS 8 paragraph 23 requires an entity to disclose certain specified items of profit or loss if these are included in the measure of segment profit or loss reviewed by the chief operating decision maker, or are otherwise regularly provided to the chief operating decision maker, even if not included in that measure of segment profit or loss. Some of the requirements in paragraph 23 are very straightforward – for example, ‘revenues from external customers’ and ‘interest expense’. Others, such as the requirement to disclose ‘material items of income and expense disclosed in accordance with paragraph 97 of IAS 1’, are much more judgmental. The decision clarifies how an entity applies those requirements. The key takeaways are that:

- i) Material items of income and expense that need to be disclosed as specified items are not limited to only unusual or non-recurring items.
- ii) Determining how much detail needs to be included in the segment reporting will be a matter of judgment considering the entity’s specific facts and circumstances, the core principle of IFRS 8, and the principles of materiality.
- iii) An entity is not required to disclose by reportable segment each item of income and expense presented in its statement of profit or loss or disclosed in the notes.

The above amendments did not result in any significant changes to these consolidated financial statements.

2.3.2 Standards, amendments and interpretations to existing standards that are not yet effective and have not been early adopted by the Group

There are certain standards, amendments to the accounting standards and interpretations that are mandatory for the Group’s accounting periods beginning on or after January 1, 2025 but are considered not to be relevant or to have any significant effect on the Group’s operations and are, therefore, not detailed in these consolidated financial statements, except for the following:

(a) Amendments to IFRS 9 and IFRS 7 - Classification and Measurement of Financial Instruments (effective for annual period beginning on January 1, 2026)

The amendments:

- clarify the requirements for the timing of recognition and derecognition of some financial assets and liabilities, with a new exception for some financial liabilities settled through an electronic cash transfer system;
- clarify and add further guidance for assessing whether a financial asset meets the solely payments of principal and interest (SPPI) criterion;
- add new disclosures for certain instruments with contractual terms that can change cash flows (such as some instruments with features linked to the achievement of environment, social and governance (ESG) targets); and
- make updates to the disclosures for equity instruments designated at Fair Value through Other Comprehensive Income (FVOCI).

An important clarification brought about in these amendments is that a payment instruction (e.g. a cheque) that is prepared for a future payment will generally not meet the requirements for the financial liability to be discharged and hence derecognised. The previous practice of financial liabilities being derecognized upon issuance of cheques would need to be reconsidered.

(b) Annual improvements to International Financial Reporting Standards – Volume 11 (effective for annual period beginning on January 1, 2026)

Annual improvements are limited to changes that either clarify the wording in an Accounting Standard or correct relatively minor unintended consequences, oversights or conflicts between the requirements in the Accounting Standards. The 2024 amendments are to the following standards:

- IFRS 1 First-time Adoption of International Financial Reporting Standards;
- IFRS 7 Financial Instruments: Disclosures and its accompanying Guidance on implementing IFRS 7;
- IFRS 9 Financial Instruments;
- IFRS 10 Consolidated Financial Statements; and
- IAS 7 Statement of Cash Flows.

(c) International Financial Reporting Standard (IFRS) 18, ‘Presentation and Disclosure in Financial Statements’ (effective for annual period beginning on January 1, 2027)

This is the new standard on presentation and disclosure in financial statements, with a focus on updates to the statement of profit or loss. The key new concepts introduced in IFRS 18 relate to:

- the structure of the statement of profit or loss;
- required disclosures in the financial statements for certain profit or loss performance measures that are reported outside an entity’s financial statements (that is, management-defined performance measures); and
- enhanced principles on aggregation and disaggregation which apply to the primary financial statements and notes in general.

The Group is yet to assess the impact of this standard and amendments to existing standards on its consolidated financial statements.

3. Basis of measurement

3.1 These consolidated financial statements have been prepared under the historical cost convention except for the following:

- certain financial instruments and plan assets of defined benefit plans at fair value; and
- certain employee benefit obligations, provisions, security deposits and long term advances at present value.

3.2 Critical accounting estimates and judgements

The preparation of consolidated financial statements requires the use of accounting estimates which, by definition, will seldom equal the actual results. Management also needs to exercise judgement in applying the Group’s accounting policies.

This note provides an overview of the areas that involved a higher degree of judgement or complexity, and of items which are more likely to be materially adjusted due to the estimates and assumptions turning out to be wrong. Detailed information about each of these estimates and judgements is included in other notes together with information about the basis of calculation for each affected line item in the consolidated financial statements.

- i) Useful lives and residual values of property, plant and equipment, investment properties and intangible assets - notes 4.3, 4.4, 4.5.3, 23, 25 and 26
- ii) Employee benefit obligations and accumulating compensated absences - notes 4.8, 15 and 16

- iii) Provision for taxation and recognition of deferred tax - notes 4.2, 13, 35 and 45
- iv) Impairment of financial assets (other than investments in equity instruments) - notes 4.13 and 33
- v) Lease term and discount rate for leases - notes 4.6 and 9
- vi) Provision for obsolescence of stores, spare parts and stock in trade - notes 4.9, 4.10, 30 and 31
- vii) Provisions, contingent assets and contingent liabilities - notes 4.29 and 22

Estimates and judgements are continually evaluated. They are based on historical experience and other factors, including expectations of future events that may have a financial impact on the Group and that are believed to be reasonable under the circumstances.

4. Summary of Material Accounting Policies

The material accounting policies adopted in the preparation of these consolidated financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

4.1 Principles of consolidation and equity accounting

a) Subsidiaries

Subsidiaries are all entities (including structured entities) over which the Group has control. The Group controls an entity when the Group is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power to direct the activities of the entity. Subsidiaries are fully consolidated from the date on which control is transferred to the Group. They are deconsolidated from the date that control ceases.

The acquisition method of accounting is used to account for business combinations by the Group (refer to note 4.7).

Intercompany transactions, balances and unrealized gains on transactions between group companies are eliminated. Unrealized losses are also eliminated unless the transaction provides evidence of an impairment of the transferred asset. Accounting policies of subsidiaries have been changed where necessary to ensure consistency with the policies adopted by the Group.

Non-controlling interests ('NCI') in the results and equity of subsidiaries are shown separately in the consolidated statement of profit or loss, consolidated statement of comprehensive income, consolidated statement of changes in equity and consolidated statement of financial position respectively.

When control of subsidiary ceases, non-controlling interests in the equity of subsidiary is measured and disposed of at its proportionate share of the fair value of the net assets of the subsidiary.

b) Associates

Associates are all entities over which the Group has significant influence but not control or joint control. This is generally the case where the Group holds between 20% and 50% of the voting rights. Investments in associates are accounted for using the equity method of accounting (refer to note 4.1 (d)), after initially being recognised at cost in the consolidated statement of financial position.

c) Joint arrangements

Under IFRS 11, Joint Arrangements, investments in joint arrangements are classified as either joint operations or joint ventures. The classification depends on the contractual rights and obligations of each investor, rather than the legal structure of the joint arrangement. The Group has investments in joint ventures.

Joint ventures

Interests in joint ventures are accounted for using the equity method (refer to note 4.1 (d)), after initially being recognised at cost in the consolidated statement of financial position.

d) Equity method

Under the equity method of accounting, the investments are initially recognised at cost and adjusted thereafter to recognise the Group's share of the post-acquisition profits or losses of the investee in profit or loss, and the Group's share of movements in other comprehensive income of the investee in other comprehensive income. Dividends received or receivable from associates and joint ventures are recognised as a reduction in the carrying amount of the investment.

When the Group's share of losses in an equity-accounted investment equals or exceeds its interest in the entity, including any other unsecured long-term receivables, the Group does not recognise further losses, unless it has incurred obligations or made payments on behalf of the other entity.

Unrealized gains on transactions between the Group and its associates and joint ventures are eliminated to the extent of the Group's interest in these entities. Unrealized losses are also eliminated unless the transaction provides evidence of an impairment of the asset transferred. Accounting policies of equity accounted investees have been changed where necessary to ensure consistency with the policies adopted by the Group.

The Group determines at each reporting date whether there is any objective evidence that the investment in the associate is impaired. If this is the case, the Group calculates the amount of impairment as the difference between the recoverable amount of the associate and its carrying value and recognises the amount in the consolidated statement of profit or loss.

e) Changes in ownership interests

The Group treats transactions with non-controlling interests that do not result in a loss of control as transactions with equity owners of the Group. A change in ownership interest results in an adjustment between the carrying amounts of the controlling and non-controlling interests to reflect their relative interests in the subsidiary. Any difference between the amount of the adjustment to non-controlling interests and any consideration paid or received is recognised in a separate reserve within equity attributable to owners of the Group.

When the Group ceases to consolidate or equity account for an investment because of a loss of control, joint control or significant influence, any retained interest in the entity is remeasured to its fair value with the change in carrying amount recognised in the consolidated statement of profit or loss. This fair value becomes the initial carrying amount for the purposes of subsequently accounting for the retained interest as an associate, joint venture or financial asset. In addition, any amounts previously recognised in other comprehensive income in respect of that entity are accounted for as if the Group had directly disposed of the related assets or liabilities. This may mean that amounts previously recognised in other comprehensive income are reclassified to the consolidated statement of profit or loss.

If the ownership interest in a joint venture or an associate is reduced but joint control or significant influence is retained, only a proportionate share of the amounts previously recognised in other comprehensive income are reclassified to the consolidated statement of profit or loss where appropriate.

4.2 Taxation - income tax and levy

Income tax expense is recognized in the consolidated statement of profit or loss except to the extent that relates to items recognised directly in consolidated statement of changes in equity or consolidated statement of comprehensive income in which it is recognized directly in equity or in consolidated statements of comprehensive income.

Current

The charge for current income tax is calculated using prevailing tax rates or tax rates expected to apply to profit for the year if enacted or substantively enacted at the end of the reporting period in accordance with the prevailing law for taxation of income, after taking into account tax credits, rebates and exemptions, if any. Management periodically evaluates position taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation and considers whether it is probable that the tax authorities will accept an uncertain tax treatment. The charge for current tax also includes adjustments, where considered necessary, to provision for tax made in previous years arising from assessments framed during the year for such years. The Group measures its tax balances either based on the most likely amount or the expected value, depending on which method provides a better prediction of the resolution of the uncertainty. Current tax assets and tax liabilities are offset where the Group has a legally enforceable right to offset and intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

Deferred

Deferred income tax is provided in full using the liability method on temporary differences arising between the carrying amount of assets and liabilities in the consolidated statement of financial position and the corresponding tax bases used in the computation of the taxable profit. Deferred tax is not accounted for if it arises from initial recognition of an asset or liability in a transaction other than a business combination that at the time of transaction neither affects accounting nor taxable profit or loss. Deferred tax liabilities are generally recognised for all taxable temporary differences and deferred tax assets are recognised to the extent that it is probable that taxable profits will be available against which the deductible temporary differences, unused tax losses and tax credits can be utilised.

Deferred tax is calculated at the rates that are expected to apply to the period when the differences reverse, based on tax rates that have been enacted or substantively enacted by the reporting date. Deferred tax is charged or credited in the consolidated statement of profit or loss, except in the case of items credited or charged to other comprehensive income or equity in which case it is included in other comprehensive income or equity, in which case it is included in the consolidated statement of other comprehensive income or consolidated statement of changes in equity.

Deferred tax liability is not recognized in respect of taxable temporary differences associated with undistributed reserves and exchange translation reserves of subsidiaries, where the timing of the reversal of the temporary difference can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future. Deferred tax liability is recognised in respect of taxable temporary differences associated with undistributed reserves of associates and joint ventures.

Group taxation adjustments

The Securities and Exchange Commission of Pakistan ('SECP') vide its certificate dated March 1, 2023, has registered the Company, Bulleh Shah Packaging (Private) Limited ('BSPPL'), Packages Investments Limited ('PIL'), Packages Convertors Limited ('PCL'), StarchPack (Private) Limited ('SPL') and Packages Power (Private) Limited ('PPPL') (together the 'Taxation Group') as a Group for the purpose of group taxation under Section 59AA of the Income Tax Ordinance, 2001. Consequently, the Taxation Group is taxed as one fiscal unit from the tax year 2024 and onwards.

Any adjustments in the current and deferred taxes of the Taxation Group on account of group taxation are credited or charged to consolidated statement of profit or loss in the year in which they arise.

Levies

Minimum taxes that exceed the normal tax liability, as well as income tax deducted at source (other than from dividends received from subsidiaries, joint ventures, and associates) under the provisions of the Income Tax Ordinance, 2001 ('the Ordinance'), are not within the scope of IAS 12 - Income Taxes. Instead, these taxes fall under the provisions of IFRIC 21 - Levies, and IAS 37 - Provisions, Contingent Liabilities and Contingent Assets.

Consequently, a liability for these levies is recognized in accordance with IFRIC 21 when the event specified in the Ordinance that triggers the obligation occurs. Therefore, excess minimum taxes and final taxes are recognized as liabilities when they become due, ensuring compliance with the recognition and measurement principles outlined in IAS 37.

4.3 Property, plant and equipment

4.3.1 Operating fixed assets

Operating fixed assets, except freehold land and leasehold land, are stated at cost less accumulated depreciation and any identified impairment loss. Leasehold land is stated at cost less accumulated amortisation less any identified impairment loss and freehold land is stated at cost less any identified impairment loss. Cost of leasehold land is amortised using the straight line method over the period of lease term. An item of property, plant and equipment is recognised as an asset if it is probable that future economic benefits associated with the item will flow to the entity and the cost of the item can be measured reliably. Cost includes expenditure that is directly attributable to the acquisition of the asset.

Depreciation on all owned assets is charged to consolidated statement of profit or loss on straight-line method so as to write off the depreciable amount of an asset over its estimated useful life at the following annual rates:

- Leaschold land	1.01% to 10%
- Buildings	2.50% to 33.33%
- Plant and machinery	3.33% to 50.00%
- Other equipment	5.00% to 50.00%
- Furniture and fixtures	10.00% to 50.00%
- Vehicles	10.00% to 33.33%

The assets' residual values and useful lives are reviewed, at each financial year end, and adjusted if impact on depreciation is significant. The Group's estimate of the residual values and useful lives of its operating fixed assets as at December 31, 2024 has not required any adjustment as its impact is considered insignificant.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount as fully explained in note 4.3.4 to these consolidated financial statements.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item shall flow to the Group and the cost of the item can be measured reliably. All other repair and maintenance costs are charged to consolidated statement of profit or loss during the period in which they are incurred.

The gain or loss on disposal or retirement of an asset represented by the difference between the sale proceeds and the carrying amount of the asset is recognised as an income or expense.

4.3.2 Capital work-in-progress

Capital work-in-progress is stated at cost less any identified impairment loss. All expenditure connected with specific assets incurred during installation and construction period are carried under capital work-in-progress. These are transferred to owned assets as and when these are available for use.

4.3.3 Major spare parts and stand-by equipment

Major spare parts and stand-by equipment qualify as property, plant and equipment when the Group expects to use them for more than one year. Transfers are made to relevant owned assets category as and when such items are available for use.

4.3.4 Impairment of non-financial assets

Goodwill and intangible assets that have an indefinite useful life are not subject to amortisation and are tested annually for impairment, or more frequently if events or changes in circumstances indicate that they might be impaired. Other assets are tested for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs of disposal and value in use. For the purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash inflows which are largely independent of the cash inflows from other assets or groups of assets (cash-generating units). Non-financial assets other than goodwill that suffered an impairment are reviewed for possible reversal of the impairment at the end of each reporting period.

An impairment loss is reversed if there is a change in the estimates used to determine the recoverable amount. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortization, if no impairment loss had been recognised.

4.4 Investment properties

Property that is held for long-term rental yields or for capital appreciation or both, and that is not occupied by the Group, is classified as investment property. Land held for an undetermined future use is also classified as investment property. Investment property also includes property that is being constructed or developed for future use as investment property. Some of the investment properties are leased to tenants under long term operating leases with rentals, payable monthly. The investment properties of the Group comprise land, buildings and other equipment. The investment properties, except freehold land, are stated at cost less accumulated depreciation and any identified impairment losses. Freehold land is stated at cost less any identified impairment loss.

Depreciation on buildings and equipment is charged to consolidated statement of profit or loss on straight-line method so as to write off the depreciable amount of investment property over its estimated useful life at the rates ranging from 2.50% to 20.00% per annum.

The assets' residual values and useful lives are reviewed, at each financial year end, and adjusted if impact on depreciation is significant. The Group's estimate of the residual values and useful lives of its investment properties as at December 31, 2024 has not required any adjustment as its impact is considered insignificant.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount as fully explained in note 4.3.4 to these consolidated financial statements.

The gain or loss on disposal or retirement of an asset represented by the difference between the sale proceeds and the carrying amount of the asset is recognised as an income or expense.

If an investment property becomes owner-occupied, it is reclassified as property, plant and equipment, and its carrying value at the date of reclassification becomes its cost for subsequent accounting at the date of change in use.

4.5 Intangible assets

4.5.1 Goodwill

Goodwill arises through acquisitions of subsidiaries and represents the excess of the consideration transferred over the net fair value of the net identifiable assets, liabilities and contingent liabilities of the acquiree and the fair value of the non-controlling interests in the acquiree. Goodwill on acquisition of subsidiaries is included in 'intangible assets'. Goodwill on acquisitions of associates and joint ventures is included in 'investments in associates' and 'investments in joint ventures' respectively and is tested for impairment as part of the overall balance. Separately recognised goodwill is tested annually for impairment and carried at cost less accumulated impairment losses. Impairment losses on goodwill are not reversed. Gains and losses on the disposal of an entity include the carrying amount of goodwill relating to the entity sold.

Goodwill is allocated to cash-generating units for the purpose of impairment testing. The allocation is made to those cash-generating units or groups of cash-generating units that are expected to benefit.

4.5.2 Software

Expenditure incurred to acquire computer software and SAP Enterprise Resource Planning ('ERP') System and develop websites are capitalised as intangible assets and stated at cost less accumulated amortisation and any identified impairment loss.

Costs associated with maintaining computer software programmes are recognised as an expense when incurred. However, costs that are directly attributable to identifiable software and have probable economic benefits exceeding one year, are recognised as an intangible asset. Direct costs include the purchase cost of software (license fee) and related overhead cost.

4.5.3 Trademarks

Trademarks, licences and customer contracts acquired in a business combination are recognised at fair value at the acquisition date. Trademarks represent brand names of medicines being sold. These are considered to have indefinite useful lives since they are expected to generate net cashflows indefinitely and have minimum renewal cost. These are tested for impairment annually at each reporting date.

4.5.4 Research and development

Research expenditure and development expenditure that do not meet the criteria in 4.5.2 above are recognised as an expense as incurred. Development costs previously recognised as an expense are not recognised as an asset in a subsequent period.

4.5.5 Amortisation methods and periods

Intangible assets that have a finite useful life are amortised using the straight line method over the estimated useful lives at the annual rates ranging from 10.00% to 20.00%. Goodwill and intangible assets that have an indefinite useful life are not subject to amortisation and are tested annually for impairment, or more frequently if events or changes in circumstances indicate that they might be impaired. Useful lives of intangible assets are reviewed, at each statement of financial position date and adjusted if the impact of amortisation is significant. The Group's estimate of the useful lives of its intangible assets as at December 31, 2024 has not required any adjustment as its impact is considered insignificant.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount as fully explained in note 4.3.4 to these consolidated financial statements.

4.6 Leases

(1) The Group is the lessee:

At inception of a contract, the Group assesses whether a contract is, or contains, a lease based on whether the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. Lease terms are negotiated on an individual basis and contain a wide range of different terms and conditions.

Leases are recognised as a right-of-use asset and a corresponding liability at the date at which the leased asset is available for use by the Group.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease, or if that rate cannot be readily determined, the Group's incremental borrowing rate.

Lease payments include fixed payments, variable lease payments that are based on an index or a rate, amounts expected to be payable by the lessee under residual value guarantees, the exercise price of a purchase option if the lessee is reasonably certain to exercise that option, payments of penalties for terminating the lease, if the lease term reflects the lessee exercising that option, less any lease incentives receivable. The extension and termination options are incorporated in determination of lease term only when the Group is reasonably certain to exercise these options.

The lease liability is subsequently measured at amortised cost using the effective interest rate method. It is remeasured when there is a change in future lease payments arising from a change in fixed lease payments or an index or rate, change in the Group's estimate of the amount expected to be payable under a residual value guarantee, or if the Group changes its assessment of whether it will exercise a purchase, extension or termination option. The corresponding adjustment is made to the carrying amount of the right-of-use asset, or is recorded in the statement of profit or loss if the carrying amount of right-of-use asset has been reduced to zero.

The right-of-use asset is initially measured based on the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred and an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, less any lease incentive received. The right-of-use asset is depreciated on a straight line method over the lease term as this method most closely reflects the expected pattern of consumption of future economic benefits. The right-of-use asset is reduced by impairment losses, if any, as fully explained in note 4.3.4 to these consolidated financial statements and adjusted for certain remeasurements of the lease liability.

Payments associated with short-term leases and all leases of low-value assets are recognised on a straight-line basis as an expense in profit or loss. Short-term leases are leases with a lease term of 12 months or less without a purchase option.

When there is a change in scope of a lease, or the consideration for a lease, that was not part of the original terms and conditions of the lease, it is accounted for as a lease modification. The lease modification is accounted for as a separate lease if modification increases the scope of lease by adding the right to use one or more underlying assets and the consideration for lease increases by an amount that is commensurate with the stand-alone price for the increase in scope adjusted to reflect the circumstances of the particular contracts, if any. When the lease modification is not accounted for as a separate lease, the lease liability is remeasured and corresponding adjustment is made to right-of-use asset.

(2) The Group is the lessor:

Operating leases

Leases where a significant portion of the risks and rewards of ownership are retained by the lessor are classified as operating leases. Rental income received under operating leases (net of any incentives given to the lessee) is recognised as income on a straight-line basis over the lease term, except where an alternative basis is more representative of the pattern of benefits to be derived from the leased asset. The respective leased assets are included in the consolidated statement of financial position as investment properties.

4.7 Business combinations

The acquisition method of accounting is used to account for all business combinations, regardless of whether equity instruments or other assets are acquired. The consideration transferred for the acquisition of a subsidiary comprises the following:

- fair values of the assets transferred;
- liabilities incurred to the former owners of the acquired business;
- equity interests issued by the Group;
- fair value of any asset or liability resulting from a contingent consideration arrangement; and
- fair value of any pre-existing equity interest in the subsidiary.

Identifiable assets acquired and liabilities and contingent liabilities assumed in a business combination are, with limited exceptions, measured initially at their fair values at the acquisition date. The Group recognises any non-controlling interests in the acquired entity on an acquisition-by-acquisition basis either at fair value or at the non-controlling interest's proportionate share of the acquired entity's net identifiable assets.

Acquisition-related costs are expensed as incurred.

The excess of the:

- consideration transferred;
- amount of any non-controlling interest in the acquired entity; and
- acquisition-date fair value of any previous equity interest in the acquired entity

over the fair value of the net identifiable assets acquired is recorded as goodwill. If those amounts are less than the fair value of the net identifiable assets of the subsidiary acquired, the difference is recognised directly in the consolidated statement of profit or loss as a bargain purchase.

Where settlement of any part of cash consideration is deferred, the amounts payable in the future are discounted to their present value as at the date of exchange. The discount rate used is the entity's incremental borrowing rate, being the rate at which a similar borrowing could be obtained from an independent financier under comparable terms and conditions.

Contingent consideration is classified either as equity or a financial liability. Amounts classified as a financial liability are subsequently remeasured to fair value with changes in fair value recognised in the consolidated statement of profit or loss.

If the business combination is achieved in stages, the acquisition date carrying value of the acquirer's previously held equity interest in the acquiree is remeasured to fair value at the acquisition date. Any gains or losses arising from such remeasurement are recognised in the consolidated statement of profit or loss.

4.8 Employee benefits

4.8.1 Short term obligations

Liabilities for wages and salaries, including non-monetary benefits and accumulating annual leaves that are expected to be settled wholly within twelve months after the end of the period in which the employees render the related service are recognised in respect of employees' services up to the end of the reporting period and are measured at the amounts expected to be paid when the liabilities are settled. The liabilities are presented as current employee benefit obligations in the statement of financial position.

4.8.2 Post employment benefits

(i) Defined benefit plans

A defined benefit plan is a post-employment benefit plan other than the defined contribution plan. The Group's net obligation in respect of defined benefit plans is calculated by estimating the amount of future benefit that employees have earned in return for their service in current and prior periods; that benefit is discounted to determine its present value. The calculation is performed annually by a qualified actuary using the Projected Unit Credit method.

(a) Gratuity plan

There are approved funded defined benefit gratuity plans for all permanent employees of the Parent Company, BSPPL, DIC, PCL, PREPL, TPFL, Packages Trading FZCO and HPL subject to attainment of service of prescribed minimum period. Monthly contributions are made to the funds on the basis of actuarial recommendations at the rate of 4.50 percent per annum of basic salaries. The latest actuarial valuation for the gratuity scheme was carried out as at December 31, 2024. The eligible employees are entitled to gratuity payments on the basis of their service with the Group and in accordance with the Group policy.

The Group operates defined benefit gratuity plan in accordance with the local regulatory framework in Pakistan. The plan provides benefits to members in the form of a gratuity amount payable at the end of employment. This is a trustee-administered fund. Plan assets held by the fund are subject to local regulations and practice. Responsibility for governance of the plan – including investment decisions and contributions schedules – lies jointly with the board of trustees which are either directors, senior executives or employees of the Group in accordance with the plan's regulations.

The actual return on plan assets represents the difference between the fair value of plan assets at the beginning of the year and as at the end of the year after adjustments for contributions made by the Group as reduced by benefits paid during the year. The actual return on plan assets during the year was Rs 264.773 million (2023: Rs 202.521 million).

The Group ensures that its investment positions are managed within an asset-liability matching (ALM) framework developed to align with its gratuity obligations. Within this framework, the Group's ALM objective is to match assets to the gratuity obligations by investing in equity securities, floating-rate long-term bonds and short-term debt securities. The Group actively monitors how the duration and expected yield of these investments align with the expected cash outflows arising from the gratuity scheme obligations.

The amount recognized in statement of financial position represents the present value of the defined benefit obligation as reduced by the fair value of the plan assets.

Actuarial gains and losses arising from experience adjustments and changes in actuarial assumptions are charged or credited to equity in other comprehensive income in the year in which they arise. Past service costs are recognized immediately in the statement of profit or loss.

The future contribution rates of these plans include allowances for deficit and surplus. Projected unit credit method, using the following significant assumptions, is used for valuation of this scheme:

	2024	2023
Discount rate per annum	12.25% - 15.50%	14.50% - 15.50%
Expected rate per annum of increase in salary level	10% - 12.25%	15.50%
Expected mortality rate	SLIC 2001 - 2005	SLIC 2001 - 2005
Expected rate of return per annum	Setback 1 Year	Setback 1 Year
Retirement Assumption	12.25% - 15.50%	14.50% - 15.50%
	58 Years	58 Years

Plan assets include long term government bonds, equity instruments of listed companies, units of mutual funds, izafa certificates, treasury bills, sukuk and term deposits with banks.

The Group is expected to contribute Rs 128.383 million to the gratuity funds in the next financial year.

Actuarial gains and losses arising from experience adjustments and changes in actuarial assumptions are charged or credited to equity through other comprehensive income in the period in which they arise. Past service costs are recognised immediately in consolidated statement of profit or loss.

(b) Pension plan

Management and executive staff of the Parent Company hired before January 1, 2016 and management and executive staff of TPFL hired before March 15, 2018, participate in the pension fund managed by the Parent Company.

On December 26, 2012, the Board of Trustees of the pension fund, decided to convert the defined benefit plan to defined contribution plan for all its active employees with effect from January 1, 2013 with no impact on the pensioners appearing on the pensioners' list as of that date. The proposed scheme was approved for implementation by the Commissioner Inland Revenue on February 22, 2013 and employees' consent to the proposed scheme was sought and obtained.

Management and executive staff of the Parent Company who have joined on or after January 1, 2016, and management and executive staff of TPFL who have joined on or after March 15, 2018, do not participate in the pension fund.

Consequently, the pension fund currently operates two different plans for its members:

- Defined contribution plan for active employees hired before January 1, 2016 of the Parent Company and March 15, 2018 for active employees of TPFL; and
- Defined benefit plan for pensioners who have retired on or before December 31, 2012.

In respect of the defined contribution plan for active employees as above, the Group contributes 20.00% of members' monthly basic salary to the scheme; whereas, an employee may or may not opt to contribute 6.00% of his monthly basic salary to the scheme.

The obligation in respect of the defined benefit plans are determined by the funds' actuary at each year end. Any funding gap identified by the funds' actuary is paid by the Group from time to time. The last actuarial valuation was carried out as at December 31, 2024, based on the following assumptions:

	2024	2023
Discount rate per annum	12.25%	15.50%
Expected rate of increase in pension level per annum	10% - 12.25%	15.50%
Expected mortality rate	SLIC 2001-2005 Setback 1 Year	SLIC 2001-2005 Setback 1 Year
Expected rate of return per annum	12.25%	15.50%
Average duration of liability	6 Years	6 Years

The Group operates defined benefit pension plan in accordance with the local regulatory framework in Pakistan. The plan provides benefits to members in the form of a pension amount payable at retirement. This is a trustee-administered fund. Plan assets held by the fund are subject to local regulations and practice. Responsibility for governance of the plan – including investment decisions and contributions schedules – lies jointly with the board of trustees which are either directors, senior executives or employees of the Group in accordance with the plan's regulations.

Plan assets include long term government bonds, equity instruments of listed companies, units of mutual funds, term finance certificates, izafa certificates, treasury bills, sukuk and term deposits with banks.

The actual return on plan assets represents the difference between the fair value of plan assets at the beginning of the year and as at the end of the year after adjustments for contributions made by the Group as reduced by benefits paid during the year.

The Group ensures that its investment positions are managed within an asset-liability matching (ALM) framework developed to align with its pension obligations. Within this framework, the Group's ALM objective is to match assets to the pension obligations by investing in equity securities, floating-rate long-term bonds and short-term debt securities. The Group actively monitors how the duration and expected yield of these investments align with the expected cash outflows arising from the pension scheme obligations.

The amount recognised in consolidated statement of financial position represents the present value of the defined benefit obligation as reduced by the fair value of the plan assets.

Actuarial gains and losses arising from experience adjustments and changes in actuarial assumptions for the defined benefit plan are charged or credited to equity in other comprehensive income in the period in which they arise. Past service costs are recognised immediately in consolidated statement of profit or loss.

(ii) Defined contribution plans

A defined contribution plan is a post-employment benefit plan under which an entity pays fixed contribution into a separate entity and will have no legal or constructive obligation to pay further amounts. Obligations for contributions to defined contribution plans are recognised as an employee benefit expense in consolidated statement of profit or loss when they are due. Prepaid contributions are recognised as an asset to the extent that a cash refund or a reduction in future payments is available.

The Parent Company, BSPPL, DIC, PCL, PREPL, TPFL and HPL operate a recognised/approved contributory provident fund for its permanent employees. Equal monthly contributions at the rate of 10.00% per annum of basic salaries plus dearness allowance and cost of living allowance are made by the Group and the employees to the fund. The nature of contributory pension fund has been explained in note 4.8.2 (b) above.

Employees of Packages Lanka (Private) Limited, a subsidiary incorporated in Sri Lanka, are eligible for Employees' Provident Fund Contributions and Employees' Trust Fund Contributions in line with the respective statutes and regulations. The contributions are made at the rate of 12.00% and 3.00% per annum of gross emoluments of employees to Employees' Provident Fund and Employees' Trust Fund, respectively.

4.8.3 Accumulating compensated absences

The Group provides for accumulating compensated absences when the employees render services that increase their entitlement to future compensated absences. The annual leaves can be encashed at the time the employee leaves the Group on the basis of gross salary while no encashment is available for medical leaves. The employees of the Group are entitled to earned annual and medical leaves on basis of their service with the Group and in accordance with the Group policy.

As per the Group's leaves policy, employees are entitled to following earned leaves along with their maximum accumulation.

Earned leaves entitlement per year (days)	Maximum accumulation of compensated leaves (days)
15	30
21	42

Service up to 14 years
Service of 15 years or more

Provisions are made annually to cover the obligation for accumulating compensated absences based on actuarial valuation and are charged to consolidated statement of profit or loss. The most recent valuation was carried out as at December 31, 2024 using the Projected Unit Credit Method.

The amount recognised in the consolidated statement of financial position represents the present value of the defined benefit obligations. Actuarial gains and losses are charged to the consolidated statement of profit or loss immediately in the period when these occur.

Projected Unit Credit method, using the following significant assumptions, has been used for valuation of accumulating compensated absences:

	2024	2023
Discount rate per annum	12.25% - 15.5%	14.5% - 15.5%
Expected rate of increase in salary level per annum	10% - 12.25%	15.50%
Expected mortality rate	SLIC 2001-2005	SLIC 2001-2005
Average Duration of the plan	Setback 1 Year 6 years	Setback 1 Year 5 years

4.9 Stores and spares

Stores and spares are valued at moving weighted average cost except for items in transit which are stated at invoice value plus other charges paid thereon till the reporting date. For items which are slow-moving and/or identified as obsolete, adequate provision is made for any excess book value over estimated realisable value on a regular basis. The Group reviews the carrying amount of stores and spares on a regular basis and provision is made for obsolescence.

4.10 Stock-in-trade

Stock of raw materials (except for those in transit), work-in-process and finished goods are valued principally at the lower of weighted average cost and net realisable value ('NRV'). Stock of packing material is valued principally at moving average cost. Cost of work-in-process and finished goods comprises cost of direct materials, labour and related production overheads (based on normal operating capacity). It excludes borrowing cost.

Materials in transit are stated at cost comprising invoice value plus other charges paid thereon.

Net realisable value is determined on the basis of estimated selling price of the product in the ordinary course of business less estimated costs of completion and the estimated costs necessary to make the sale.

If the expected net realisable value is lower than the carrying amount, a write-down is recognised for the amount by which the carrying amount exceeds its net realisable value. Provision is made in the consolidated financial statements for obsolete and slow moving stock-in-trade based on management estimate.

4.11 Investments

Investments intended to be held for less than twelve months from the statement of financial position date or to be sold to raise operating capital, are included in current assets, all other investments are classified as non-current. Management determines the appropriate classification of its investments at the time of the purchase and re-evaluates such designation on a regular basis.

4.11.1 Investments in equity instruments of associates and joint ventures

Investments in equity instruments of associates and joint ventures are accounted for using the equity method of accounting as referred to in note 4.1 (d).

4.12 Financial assets

4.12.1 Classification

The Group classifies its financial assets other than investments in subsidiaries in the following measurement categories:

- those to be measured subsequently at fair value [either through other comprehensive income ('OCI') or through profit or loss]; and
- those to be measured at amortised cost.

The classification depends on the Group's business model for managing the financial assets and the contractual terms of the cash flows.

For assets measured at fair value, gains and losses will either be recorded in profit or loss or OCI. For investments in equity instruments that are not held for trading, this will depend on whether the Group has made an irrevocable election at the time of initial recognition to account for the equity investment at fair value through other comprehensive income.

The Group reclassifies debt investments when and only when its business model for managing those assets changes.

4.12.2 Recognition and derecognition

Regular way purchases and sales of financial assets are recognised on trade date, being the date on which the Group commits to purchase or sell the asset. Financial assets are derecognised when the rights to receive cash flows from the financial assets have expired or have been transferred and the Group has transferred substantially all the risks and rewards of ownership.

4.12.3 Measurement

At initial recognition, the Group measures a financial asset at its fair value plus, in the case of a financial asset not at fair value through profit or loss (FVPL), transaction costs that are directly attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at FVPL are expensed in profit or loss.

Financial assets with embedded derivatives are considered in their entirety when determining whether their cash flows are solely payments of principal and interest.

Debt instruments

Subsequent measurement of debt instruments depends on the Group's business model for managing the asset and the cash flow characteristics of the asset. There are three measurement categories into which the Group classifies its debt instruments:

- i) **Amortised cost:** Assets that are held for collection of contractual cash flows, where those cash flows represent solely payments of principal and interest, are measured at amortised cost. Interest income from these financial assets is included in other income using the effective interest rate method. Any gain or loss arising on derecognition is recognised directly in profit or loss. Impairment losses are presented as a separate line item in the consolidated statement of profit or loss.
- ii) **FVOCI:** Assets that are held for collection of contractual cash flows and for selling the financial assets, where the assets' cash flows represent solely payments of principal and interest, are measured at FVOCI. Movements in the carrying amount are taken through OCI, except for the recognition of impairment gains or losses, interest income and foreign exchange gains and losses, which are recognised in profit or loss. When the financial asset is derecognised, the cumulative gain or loss previously recognised in OCI is reclassified from equity to profit or loss. Interest income from these financial assets is included in other income using the effective interest rate method. Impairment expenses are presented as a separate line item in the consolidated statement of profit or loss.
- iii) **FVPL:** Assets that do not meet the criteria for amortised cost or FVOCI are measured at FVPL. A gain or loss on a debt investment that is subsequently measured at FVPL is recognised in profit or loss in the period in which it arises.

Equity instruments

The Group subsequently measures all equity investments at fair value other than investments in associates and joint ventures. Where the Group's management has elected to present fair value gains and losses on equity investments in OCI, there is no subsequent reclassification of fair value gains and losses to profit or loss following the derecognition of the investment. Dividends from such investments continue to be recognised in profit or loss as other income when the Group's right to receive payments is established.

Changes in the fair value of financial assets at FVPL are recognised in the consolidated statement of profit or loss. Impairment losses (and reversal of impairment losses) on equity investments measured at FVOCI are not reported separately from other changes in fair value.

4.13 Impairment of financial assets other than investment in equity instruments

The Group assesses on a forward-looking basis, the expected credit losses ('ECL') associated with its financial assets. The impairment methodology applied depends on whether there has been a significant increase in credit risk. For trade debts and contract assets, the Group applies IFRS 9 simplified approach to measure the ECL ('loss allowance') which uses a life time expected loss allowance to be recognised from initial recognition, while general 3-stage approach is applied for other financial assets such as deposits, loans, other receivables, short term investments and bank balances i.e. to measure ECL through loss allowance at an amount equal to 12-month ECL if credit risk on a financial instrument or a group of financial instruments has not increased significantly since initial recognition.

Following are the financial assets that are subject to the ECL model:

- Trade debts;
- Loans, deposits and other receivables;
- Long term security deposits and loans;
- Bank balances; and
- Short term investments.

The measurement of expected credit losses is a function of the probability of default, loss given default (i.e. the magnitude of the loss if there is a default) and the exposure at default. The assessment of the probability of default and loss given default is based on historical data adjusted by forward-looking information (adjusted for factors that are specific to the counterparty, general economic conditions and an assessment of both the current as well as the forecast direction of conditions at the reporting date, including time value of money where appropriate). As for the exposure at default for financial assets, this is represented by the assets' gross carrying amount at the reporting date. Loss allowances are forward looking, based on 12 month expected credit losses where there has not been a significant increase in credit risk rating, otherwise allowances are based on lifetime expected losses. The Group considers that a financial asset is in default when a contractual payment is 90 days past due. The definition is based on the Group's internal credit risk management policy.

The measurement of ECL reflects:

- an unbiased and probability-weighted amount that is determined by evaluating a range of possible outcomes;
- the time value of money; and
- reasonable and supportable information that is available at the reporting date about past events, current conditions and forecasts of future economic conditions.

The Group recognizes an impairment gain or loss in the statement of profit or loss for financial assets with a corresponding adjustment to their carrying amount through a loss allowance account.

The Group writes off financial assets, in whole or in part, when it has exhausted all practical recovery efforts and has concluded that there is no reasonable expectation of recovery. The assessment of no reasonable expectation of recovery is based on unavailability of debtor's sources of income or assets to generate sufficient future cash flows to repay the amount. The Group may write-off financial assets that are still subject to enforcement activity. Subsequent recoveries of amounts previously written off will result in impairment gains.

4.14 Financial liabilities

All financial liabilities are recognized at the time when the Group becomes a party to the contractual provisions of the instrument. Financial liabilities at amortised cost are initially measured at fair value less transaction costs. Financial liabilities at fair value through profit or loss are initially recognised at fair value and transaction costs are expensed in profit or loss.

Financial liabilities, other than those at fair value through profit or loss, are subsequently measured at amortised cost using the effective yield method. Gains and losses are recognised in the consolidated statement of profit or loss, when the liabilities are derecognised, as well as through effective interest rate amortization process.

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expired. Where an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a derecognition of the original liability and the recognition of a new liability, and the difference in respective carrying amounts is recognized in the consolidated statement of profit or loss.

4.15 Offsetting of financial assets and liabilities

Financial assets and liabilities are offset and the net amount is reported in the consolidated financial statements only when there is a legally enforceable right to set off the recognised amount and the Group intends either to settle on a net basis or to realize the assets and to settle the liabilities simultaneously.

4.16 Trade debts and other receivables

Trade debts and other receivables are recognised initially at the amount of consideration that is unconditional, unless they contain significant financing component in which case such are recognised at fair value. The Group holds the trade debts with the objective of collecting the contractual cash flows and therefore measures the trade debts subsequently at amortised cost using the effective interest rate method, less loss allowance.

4.17 Cash and cash equivalents

For the purpose of presentation in the statement of cash flows, cash and cash equivalents include cash on hand, deposits held at call with financial institutions, and other short-term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and are subject to an insignificant risk of changes in value.

Additionally, cash and cash equivalents encompass short-term borrowings that are repayable on demand and are an integral part of the Group's cash management, as well as bank overdrafts. Bank overdrafts and short-term borrowings are presented within borrowings in current liabilities in the statement of financial position.

4.18 Borrowings

Borrowings are recognised initially at fair value (proceeds received), net of transaction costs incurred. Borrowings are subsequently accounted at amortised cost; any difference between the proceeds (net of transaction costs) and the redemption value is recognised in the consolidated statement of profit or loss over the period of the borrowings using the effective interest method.

Fees paid on the establishment of loan facilities are recognised as transaction costs of the loan to the extent that it is probable that some or all of the facility will be drawn down. In this case, the fee is deferred until the draw-down occurs. To the extent there is no evidence that it is probable that some or all of the facility will be drawn down, the fee is capitalised as a pre-payment for liquidity services and amortised over the period of the facility to which it relates.

Borrowings are removed from the consolidated statement of financial position when the obligation specified in the contract is discharged, cancelled or expired. The difference between the carrying amount of a financial liability that has been extinguished or transferred to another party and the consideration paid, including any non-cash assets transferred or liabilities assumed, is recognised in consolidated statement of profit or loss as other income or finance costs.

Where the terms of a financial liability are renegotiated and the entity issues equity instruments to a creditor to extinguish all or part of the liability (debt for equity swap), a gain or loss is recognised in profit or loss, which is measured as the difference between the carrying amount of the financial liability and the fair value of the equity instruments issued.

Borrowings are classified as current liabilities unless the Group has an unconditional right to defer settlement of the liability for at least 12 months after the reporting period.

Covenants that the Group is required to comply with, on or before the end of the reporting period, are considered in classifying loan arrangements with covenants as current or non-current. Covenants that the Company is required to comply with after the reporting period do not affect the classification at the reporting date.

4.19 Trade and other payables

Trade and other payables are obligations to pay for goods or services that have been acquired in the ordinary course of business from suppliers. Trade and other payables are classified as current liabilities if payment is due within one year or less (or in the normal operating cycle of the business if longer).

Trade and other payables are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method.

4.20 Revenue recognition

Revenue is recognised when or as performance obligations are satisfied by transferring control of a promised good or service to a customer, and control either transfers over time or at a point in time. Revenue is measured at fair value of the consideration received or receivable, excluding discounts, commissions and government levies. Revenue is recognised upon satisfaction of performance obligations and specific criteria has been met for each of the Group's activities as described below:

- (i) Sales revenue is recognised when or as performance obligations are satisfied by transferring control of a promised good or service to a customer. In case of local sales, revenue is recognized at the time of delivery of goods to the customer. In case of export sales, revenue is recognized at the time of delivery of goods at the port of destination.

No significant element of financing is deemed present as the sales are generally made with a credit term of 30 days, which is consistent with market practice. The Group has no obligation to repair or replace faulty products.

- (ii) Service and management charges are recognized in the period in which the services are rendered. When the Group is acting as an agent, the commission rather than gross income is recorded as revenue.
- (iii) Ancillary and marketing income is recognized when the event is performed.

4.21 Foreign currency transactions and translation

a) Functional and presentation currency

Items included in the consolidated financial statements of the each of the Group's entities are measured using the currency of the primary economic environment in which the entity operates (the 'functional currency'). The consolidated financial statements are presented in Pakistani Rupees ('Rupees' or 'Rs'), which is the Group's functional and presentation currency.

b) Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions, and from the translation of monetary assets and liabilities denominated in foreign currencies at year end exchange rates, are generally recognised in profit or loss.

Foreign exchange gains and losses that relate to borrowings are presented in the consolidated statement of profit or loss, within finance costs. All other foreign exchange gains and losses are presented in the consolidated statement of profit or loss on a net basis within other expenses/(income).

Non-monetary items that are measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined. Translation differences on assets and liabilities carried at fair value are reported as part of the fair value gain or loss. For example, translation differences on non-monetary assets and liabilities such as equities held at fair value through profit or loss are recognised in profit or loss as part of the fair value gain or loss, and translation differences on non-monetary assets such as equities classified as at fair value through other comprehensive income are recognised in other comprehensive income.

c) Group companies

The results and financial position of all the group entities (none of which has the currency of a hyper-inflationary economy) that have a functional currency different from the presentation currency are translated into the presentation currency as follows:

- (i) assets and liabilities for each consolidated statement of financial position item presented are translated at the closing rate at the date of that consolidated statement of financial position;
- (ii) income and expenses for each item of consolidated statement of profit or loss are translated at average exchange rates (unless this average is not a reasonable approximation of the cumulative effect of the rates prevailing on the transaction dates, in which case income and expenses are translated at the rate on the dates of the transactions); and
- (iii) all resulting exchange differences are recognised in consolidated other comprehensive income.

Goodwill and fair value adjustments arising on the acquisition of a foreign entity are treated as assets and liabilities of the foreign entity and translated at the closing rate. Exchange differences arising are recognised in consolidated other comprehensive income.

4.22 Borrowing costs

General and specific borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets, until such time as the assets are substantially ready for their intended use or sale. Qualifying assets are assets that necessarily take a substantial time to get ready for their intended use or sale.

Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalisation.

All other borrowing/finance costs are recognised in consolidated statement profit or loss in the period in which they are incurred.

4.23 Dividend and appropriation to reserves

Dividend distribution to the members and appropriations to reserves are recognised in the financial statements in the period in which these are approved.

4.24 Compound financial instruments

Compound financial instruments issued by the Group represent preference shares/convertible stock that can be converted into ordinary shares or can be settled in cash.

The liability component of a compound financial instrument is recognised initially at the fair value of a similar liability that does not have an equity conversion option. The equity component is recognised initially at the difference between the fair value of the compound financial instrument as a whole and the fair value of the liability component. Any directly attributable transaction costs are allocated to the liability and equity components in proportion to their initial carrying amounts.

Subsequent to initial recognition, the liability component of a compound financial instrument is measured at amortised cost using the effective interest method. The equity component of a compound financial instrument is not remeasured subsequent to initial recognition.

4.25 Segment reporting

Segment reporting is based on the operating (business) segments of the Group. An operating segment is a component of the Group that engages in business activities from which it may earn revenues and incur expenses, including revenues and expenses that relate to transactions with any of the Group's other components. An operating segment's operating results are reviewed regularly by the Chief Operating Decision Makers ('the CODMs') to make decisions about resources to be allocated to the segment and assess its performance, and for which discrete financial information is available. The CODM, who is responsible for allocating resources and assessing performance of the operating segments, has been identified as the Board of Directors of the Parent Company.

Segment results that are reported to the CODMs include items directly attributable to a segment as well as those that can be allocated on a reasonable basis. Unallocated items comprise mainly corporate assets, income tax assets, liabilities and related income and expenses. Segment capital expenditure is the total cost incurred during the year to acquire property, plant and equipment and investment property.

The business segments are engaged in providing products or services which are subject to risks and rewards which differ from the risk and rewards of other segments.

The Group's strategic steering committee, consisting of the Board of Directors of the Parent Company, examines the Group's performance, both from a product and geographic perspective, and has identified the following reportable segments of its business:

Types of Segments	Nature of business
Packaging	Manufacture and market packing products
Consumer Products	Manufacture and market consumer/tissue products
Ink	Manufacture and market industrial and commercial ink products
Real Estate	Construction and development of real estate
Paper and Board	Manufacture and market paper and board products
Plastic	Manufacture and market Biaxially Oriented Polypropylene (BoPP) film and Cast Polypropylene (CPP) films
Pharmaceutical Products	Manufacture, sale and trading of pharmaceutical and related products
Corn Starch Products	Manufacture and sale of Corn-based starch products, its derivatives, by-products and trading of Corn
Trading	Trading of paper and related products, raw materials, crude plastic, nylon, packing materials and equipment, as well as agricultural materials and waste.
Unallocated	Workshop and other general business

4.26 Provisions

Provisions for legal claims and make good obligations are recognised when the Group has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources will be required to settle the obligation, and the amount can be reliably estimated.

Provisions are not recognised for future operating losses. Where there are a number of similar obligations, the likelihood that an outflow will be required in settlement is determined by considering the class of obligations as a whole. A provision is recognised even if the likelihood of an outflow with respect to any one item included in the same class of obligations may be small.

Provisions are measured at the present value of management's best estimate of the expenditure required to settle the present obligation at the end of the reporting period. The discount rate used to determine the present value is a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The increase in the provision due to the passage of time is recognised as interest expense.

4.27 Share capital

Ordinary shares are classified as equity and recognised at their face value. Incremental costs directly attributable to the issue of new shares are shown in equity as a deduction, net of tax, if any.

4.28 Earnings per share

The Group presents basic and diluted earnings per share ('EPS') data for its ordinary shares.

Basic EPS is calculated by dividing:

- the profit attributable to owners of the Group, excluding any costs of servicing equity other than ordinary shares.
- by the weighted average number of ordinary shares outstanding during the financial year, adjusted for bonus elements in ordinary shares issued during the year and excluding treasury shares.

Diluted EPS adjusts the figures used in the determination of basic earnings per share to take into account:

- the after-income tax effect of interest and other financing costs associated with dilutive potential ordinary shares, and
- the weighted average number of additional ordinary shares that would have been outstanding assuming the conversion of all dilutive potential ordinary shares.

4.29 Contingent liabilities and assets

Contingent liability is disclosed when:

- there is a possible obligation that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Group; or
- there is present obligation that arises from past events but it is not probable that an outflow of resources embodying economic benefits will be required to settle the obligation or the amount of the obligation cannot be measured with sufficient reliability.

Contingent liabilities are not recognised. A contingent liability is disclosed unless the possibility of an outflow is remote.

Contingent asset is disclosed when an inflow of economic benefits is probable. Contingent assets are not recognised in the financial statements since this may result in recognition of income that may never be realised.

Contingent liabilities and assets are generally estimated using:

- The single most likely outcome; or
- A weighted average of all the possible outcomes (the 'expected value' method). This is likely to be the most appropriate method for a large population of similar claims, but can also be applied to a single obligation with various possible outcomes.

4.30 Contract asset and contract liability

A contract asset is recognised for the Group's right to consideration in exchange for goods or services that it has transferred to a customer. If the Group performs by transferring goods or services to a customer before the customer pays consideration or before payment is due, the Group presents the amount as a contract asset, excluding any amounts presented as a receivable.

A contract liability is recognised for the Group's obligation to transfer goods or services to a customer for which the Group has received consideration (or an amount of consideration is due) from the customer. If a customer pays consideration, or the Group has a right to an amount of consideration that is unconditional (i.e. a receivable), before the Group transfers a good or service to the customer, the entity shall present the contract as a contract liability when the payment is made or the payment is due (whichever is earlier).

4.31 Finance income

Finance income comprises interest income on funds invested (financial assets), gain on disposal of financial assets and changes in fair value of investments. Interest income is recognized as it accrues in profit or loss, using effective interest method.

4.32 Rounding of amounts

All amounts disclosed in the consolidated financial statements and notes have been rounded off to the nearest thousand Rupees unless otherwise stated.

5. Issued, subscribed and paid up share capital - ordinary share capital

	2024	2023
	(Number of Shares)	
	33,603,295	33,603,295
Ordinary shares of Rs 10 each fully paid in cash		
148,780	148,780	Ordinary shares of Rs 10 each issued for consideration other than cash (property, plant and equipment)
5,000,000	5,000,000	Ordinary shares of Rs 10 each issued against shares/convertible stock
50,627,429	50,627,429	Ordinary shares of Rs 10 each issued as bonus shares
89,379,504	89,379,504	

5.1 26,707,201 (2023: 26,707,201) ordinary shares of the Parent Company are held by its associate, IGI Investments (Private) Limited.

6. Other reserves

Composition of other reserves is as follows:

	Note	2024	2023
		(Rupees in thousand)	
Capital reserves			
- Share premium	6.1	3,766,738	3,766,738
- Exchange differences on translation of foreign operations	6.2	309,043	185,677
- FVOCI reserve	6.3	23,214,960	25,953,731
- Other reserves relating to associates and joint ventures	6.4	3,508,292	3,591,121
- Transaction with non-controlling interests	6.5	80,653	80,653
- Capital redemption reserve	6.6	1,615,000	1,615,000
		32,494,686	35,192,920
Revenue reserve			
- General reserve		22,810,333	22,810,333
		55,305,019	58,003,253

6.1 This reserve can be utilised by the Group only for the purposes specified in section 81 of the Act.

6.2 This represents exchange differences arising on translation of the foreign controlled entities that are recognised in other comprehensive income as described in note 4.21. The cumulative amount is reclassified to consolidated statement of profit or loss when the net investment is disposed off.

6.3 This represents the unrealized gain on remeasurement of investments at FVOCI and is not available for distribution.

6.4 This represents Group's share of net other comprehensive income of the associates and joint ventures. The amount shall be transferred to consolidated statement of profit or loss on subsequent reclassification.

6.5 This reserve is used to record the differences described in note 4.1 (e) which may arise as a result of transactions with non-controlling interests that do not result in a loss of control.

6.6 This reserve was created on account of redemption of 8.5 million preference shares/convertible stock of Rs 190 each in 2016 as per the requirements of section 85 of the repealed Companies Ordinance, 1984.

7. Equity portion of loan from shareholder of the Parent Company

This represents equity portion of interest free loan from a shareholder of the Parent Company. The loan was initially payable to the shareholder, however, it was assigned to Babar Ali Foundation ('BAF') on May 07, 2018. The entire amount of the outstanding balance of loan (debt portion) was repaid to BAF on December 31, 2021.

8. Long term finances

These are composed of:

- Local currency loans from financial institutions - secured

8.54 Preference shares/convertible stock - unsecured

During the year 2009, the Parent Company issued 10.00% local currency non-voting preference shares/convertible stock at the rate of Rs 190 per share amounting to USD 50 million equivalent to Rs 4,120.50 million under "Subscription Agreement" dated March 25, 2009 with International Finance Corporation ('IFC').

Terms of redemption/conversion

Each holder of preference shares/convertible stock shall have a right to settle at any time, at the option of holder, either in the form of fixed number of ordinary shares, one ordinary share for one preference share/convertible stock, or cash. The Group may, on its discretion, refuse to purchase the preference shares/convertible stock offered to it for purchase in cash. In case of refusal by the Group, preference shareholders shall have the right to either retain the preference shares/convertible stock or to convert them into ordinary shares. The preference shares/convertible stock can be held till perpetuity if preference shareholders do not opt for the conversion or cash settlement.

Rate of return

The preference share/convertible stock holders have a preferred right of return at the rate of 10.00% per annum on a non-cumulative basis till the date of settlement of preference shares/convertible stock either in cash or ordinary shares. In case the amount of dividend paid to an ordinary shareholder exceeds that paid to a preference shareholder, the preference shareholders have the right to share the excess amount with the ordinary shareholders on an as-converted basis.

Preference shares/convertible stock are recognised in the consolidated statement of financial position as follows:

Note	2024		2023	
	(Rupees in thousand)		(Rupees in thousand)	
Face value of preference shares/convertible stock [8,186,842 (2023: 8,186,842) shares of Rs 190 each]	1,555,500		1,555,500	
Transaction costs	(16,628)		(16,628)	
Equity component - classified under equity	1,538,872		1,538,872	
Liability component - classified under long term finances	(606,222)		(606,222)	
	8			
Accrued return on preference shares/convertible stock - classified under accrued finance cost	932,650		932,650	
	21	155,550	155,550	

The fair value of the liability component of the preference shares/convertible stock is calculated by discounting cash flows at a rate of approximately 16.50% till perpetuity which represents the rate of similar instrument with no associated equity component. The residual amount, representing the value of the equity conversion component, is included in shareholders' equity as preference shares/convertible stock.

8.54.1 Transactions with preference shareholders

This represents the additional entitlement of the preference shareholders. In addition to the preferred right of return at the rate of 10 percent per annum, either in cash or ordinary shares on a non-cumulative basis till the date of settlement of preference shares/convertible stock, the preference shareholders also have the right to share the excess amount with the ordinary shareholders on an as-converted basis in case the amount of dividend per share paid to an ordinary shareholder exceeds that paid to a preference shareholder. Since ordinary dividend of Rs 27.50 per share was approved for the year ended December 31, 2023 (December 31, 2022: Rs 27.50 per share), which exceeded the preferred return for that year, the additional preference dividend to be paid to the preference shareholders has been distributed to the preference shareholders as participating dividend and charged directly to the equity.

8.55 The reconciliation of the carrying amount of long term finances is as follows:

Security deposits against rental contracts	10.1	479,423	466,582
--	------	---------	---------

10.1 Interest-free security deposits from tenants are classified as liabilities and are repayable upon cancellation or withdrawal of the license/lease agreements, or upon cessation of business with the Group. As of December 31, 2024, the gross value of these deposits received from tenants is Rs 823.26 million(2023: Rs 791.536 million).

These deposits are measured at amortized cost, utilizing market interest rates ranging from 11% to 17% for similar instruments (2023: 10% to 14%). The gain on initial recognition is recognized as deferred income (refer to note 11) and is amortized over the term of the respective license/lease agreements.

The Group does not maintain these deposits in separate bank accounts, as it has the flexibility to utilize the funds for any purposes stipulated in the agreements with tenants.

13.1 The unabsorbed depreciation loss of Rs 3,218.255 million (2023: Rs 3,218.255 million) is available for set off against income of BSPPL under separate return for indefinite period, but not available under the group taxation model.

13.2 For the purpose of current taxation, unused tax losses available for carry forward to the Group are Rs 1,422.28 million (2023: Rs 1,422.28 million). The Group has not recognized any related deferred tax asset due to certain unsettled tax positions.

13.3 Deferred tax asset on tax losses and tax credits available for carry forward have been recognized to the extent that the realisation of related tax benefits is probable from reversal of existing taxable temporary differences and future taxable profits. Based on the approved business plans of entities comprising the Taxation Group, it is probable that sufficient taxable profits will be available for utilization of deferred tax asset. However, the Group has not recognised deferred tax asset in respect of minimum tax available for carry forward under section 113 of the Income Tax Ordinance, 2001 amounting to Rs 1,026.386 million (2023: nil), as sufficient taxable profits would not be available to utilise these in the foreseeable future. Minimum tax on which deferred tax has not been created is set to expire in the following two tax years:

14. Long term advances

This represents contributions made by employees for purchase of the Group's vehicles. The vehicles are transferred to employees at the end of six years as per Group policy. The interest free long term advances have been carried at amortized cost using market interest rates ranging from 7.05% to 22.09% (2023: 7.05% to 22.09%) per annum to arrive at the present value. 15.1.4 Risks faced by the Group on account of gratuity and pension funds

- (i) **Final salary risk (linked to inflation risk)** - the risk that the final salary at the time of cessation of service is greater than the assumed salary. Since the benefit is calculated on the final salary (which will closely reflect inflation and other macroeconomic factors), the benefit amount increases as salary increases.
- (ii) **Asset volatility** - Most assets are invested in risk free investments of 3, 5 or 10 year Pakistan investment bonds or treasury bills. However, investments in equity instruments are subject to adverse fluctuations as a result of change in the market price.
- (iii) **Discount rate fluctuation** - The plan liabilities are calculated using a discount rate set with reference to corporate bond yields. A decrease in corporate bond yields will increase plan liabilities, although this will be partially offset by an increase in the value of the current plans bond holdings.
- (iv) **Investment risks** - The risk of the investment underperforming and not being sufficient to meet the liabilities. This risk is mitigated by closely monitoring the performance of investments.
- (v) **Risk of insufficiency of assets** - This is managed by making regular contribution to the fund as per the trust deed.
- (vi) **Demographic risks:**
 - **Mortality risk** - the risk that the actual mortality experience is different than the assumed mortality. This effect is more pronounced in schemes where the age and service distribution is on the higher side.
 - **Withdrawal risk** - the risk of actual withdrawals experience is different from assumed withdrawal probability. The significance of the withdrawal risk varies with the age, service and the entitled benefits of the beneficiary.

18.1 Running finances from financial institutions - secured

Short term running finances available from commercial banks under mark-up arrangements amount to Rs 72,600 million (2023: Rs 64,210 million). The rates of mark-up are based on KIBOR plus spread and range from 12.34% to 23.11% (2023: 16.3% to 24.06%) per annum or part thereof on the balances outstanding. In the event, the Group fails to pay the balances on the expiry of the quarter, year or earlier demand, mark-up is to be computed at the rate 20% to 30% (2023: 20% to 30%) per annum or part thereof on the balances unpaid. The aggregate running finances are secured by hypothecation of stores, spares, stock-in-trade and trade debts of the Group.

18.2 Short term finances from financial institutions - secured

Facilities for obtaining short term finances of Rs 42,475 million (2023: Rs 27,910 million) are available to the Group as a sub-limit of the running finance facilities referred to in note 18.1. The rates of mark-up are based on KIBOR plus spread ranging from 6.5% to 23.43% (2023: 7.79% to 23.18%) per annum or part thereof on the balances outstanding. The aggregate short term finances are secured by hypothecation of current assets of the Group including stores, spares, stock-in-trade and trade debts, and also pledge of Nestle Pakistan Limited's shares owned by the Group under a "Share Pledge Agreement".

18.3 Letters of credit and bank guarantees

Of the aggregate facilities of Rs 77,123 million (2023: Rs 74,184 million) for opening letters of credit (including Rs 15,500 million available to Group as sub-limit of the running finance facilities referred to in note 18.1) and Rs 9,067 million (2023: Rs 7,362 million) for guarantees, the amounts utilised at December 31, 2024 were Rs 10,303 million (2023: Rs 17,948 million) and Rs 3,385.15 million (2023: Rs 3,048.77 million) respectively. The facilities for guarantees are secured by second hypothecation charge over stores, spares, stock-in-trade and trade debts.

19.3 On August 13, 2020, the Honourable Supreme Court announced the order relating to the levy imposed under Gas Infrastructure Development Cess Act, 2015 whereby all arrears of Gas Infrastructure Development Cess ('GIDC') that have become due up to July 31, 2020 and have not been recovered so far, shall be recovered from the gas consumers in twenty-four equal monthly instalments starting from August 1, 2020 without the component of late payment surcharge ('LPS') on the outstanding balance of GIDC. The LPS shall only become payable for the delays that may occur in the payment of any of the twenty-four instalments. Accrued liabilities include an amount of Rs 86.865 million (2023: Rs 86.865 million) in respect of GIDC prior to the promulgation date of GIDC Act, 2015 related to the paper and paperboard segment.

However, on September 18, 2020, the Group obtained a stay order from Honourable Lahore High Court ('LHC') against payment of this GIDC to Sui Northern Gas Pipelines Limited ('SNGPL') on the premise that the matter of the Group is still unresolved at the end of High Level Committee of SNGPL to be formed under Writ Petition No. 31491 of 2016. Therefore, till the time High Level Committee of SNGPL resolves the exact liability of the Group, SNGPL cannot recover the same from the Group. The matter was decided in the favour of the Group on June 17, 2021 by the LHC, while SNGPL filed a review petition against the decision.

The Honourable Lahore High Court ('LHC') disposed of the review petition by an order dated September 21, 2022 by stating the fact that High powered committee already constituted by Government of Pakistan is directed to be activated within a period of two months and thereafter, upon scrutiny and evaluation of the record and documents, the matter of recovery of Cess may commence as per recommendation and directions of the committee.

It also includes a provision of Rs 594.636 million (2023: Rs 594.636 million), in respect of GIDC provided by the Plastic segment. During the previous year, the Plastic segment stopped making payments of instalments as a stay order has been obtained by the Group from honourable High Court of Sindh.

19.4 This includes provision amounting to Rs 550 million (2023: Rs 400 million) in respect of rent of land on lease from the Government of the Punjab ('GoPb') for the period from December 2015 to December 2024.

A portion of the land on which the Group's buildings are situated (note 25), measuring 231 kanals and 19 marlas, was leased out to the Group by GoPb from December 1955 till November 2015 after which the lease has not been renewed. During the year 2015, the Group approached the Board of Revenue ('BoR'), GoPb to renew the lease, however, adequate response was not received. On January 5, 2019, the Supreme Court of Pakistan ('Court'), summoned BoR, to which the BoR stated that the new policy of the GoPb is not to lease state land but to sell it through open auction. Consequently, the Group was directed to deposit Rs 500 million with the BoR as security to the payment of outstanding amount of rent to be determined, with such amount being adjustable against final amount of rent. The Group deposited such amount in compliance with the direction on January 10, 2019. The Court further directed Additional Advocate General, Punjab on January 16, 2019 that subject to the Court's approval, two surveyors be appointed for determination of rent based on industrial usage of the land for the period from December 2015 till date. The surveyors were appointed, who submitted their independent valuation reports to BoR and the Court. The matter is pending for further action as of the date of the authorization for issue of consolidated financial statements. Moreover, the Court has further decided that the land shall be sold as industrial land through an open auction with the Group getting the first right of refusal.

The management has, on the basis of assessment of fair value of the said portion of land by independent valuers, as appointed by the Court, and its understanding of the prevalent market terms relating to rent of such properties in the vicinity of the said portion of land, recognised an expense of Rs 150 million (2023: Rs 90 million) in respect of rent for the year ended December 31, 2024. The management is confident that the final amount of rent will be in congruence with the provision made in these consolidated financial statements, inter alia based on the fair value determined by the independent valuers and the relevant facts and circumstances.

Furthermore, the management also intends to acquire the title of the said portion of land when the open auction takes place and is confident that it will be able to meet the highest bid.

19.5 These include Rs 1,136.99 million (2023: Rs 762.44 million) levied through The Sindh Development and Maintenance of Infrastructure Cess Act, 2017, which superseded the previous levy under Sindh Finance Act, 1994. As per order dated September 1, 2021, the Honourable Supreme Court of Pakistan has directed the petitioners to provide 100% bank guarantees towards the Cess liability.

19.6 This represents contract liabilities of the Group towards various parties. Revenue recognized in the current year that was included in the contract liability balance at the beginning of the year amounting to Rs 998.917 million (2023: Rs 992.495 million).

19.7 Employees' provident and management staff pension funds related disclosure

All investments in collective investment schemes, listed equity, and listed debt securities out of provident fund and management staff pension fund (defined contribution plan) have been made in accordance with the provisions of Section 218 of the Act and the conditions specified thereunder as applicable at the time of making such investments. All fresh investments are now being made in accordance with the newly introduced Employees Contributory Funds (Investment in Listed Securities) Regulations, 2018.

19.8 This represents amounts received from suppliers and truckers as per the respective agreements and kept in separate bank account maintained for that purpose as required under Section 217(2) of the Act. These deposits have not been utilized by the Group.

23.1.1 The Group's land, measuring 119 Kanals, 15 marlas, and 62.25 sq. ft., located in Lahore, has a book value of Rs 6,149 million (2023: Rs 6,149 million) (the "Mortgaged Security"). This land has been mortgaged under a first exclusive equitable charge of Rs 7,800 million (2023: Rs 7,800 million) in favor of MCB Bank Limited. This charge is against a term finance facility of up to Rs 4,500 million (2023: Rs 4,500 million) and a running finance facility of up to Rs 2,000 million (2023: Rs 2,000 million), both provided to the Real Estate segment under a tri-partite agreement involving the Parent Company, MCB Bank Limited, and the Real Estate segment.

In addition to the arrangements with MCB Bank Limited, the Mortgaged Security is also secured under a first pari passu charge in favor of Allied Bank Limited. This charge covers a term finance facility of up to Rs 4,667 million (2023: Rs 4,667 million), which is likewise provided to the Real Estate segment under a tri-partite agreement among the Parent Company, Allied Bank Limited, and the Real Estate segment.

23.1.2 Included within this owned land is a land measuring 25 acres situated in Kasur with a book value of Rs 72,356 million (2023: Rs 72,356 million), rented out to Corn Starch segment for its industrial activities, which has been mortgaged in favour of Faysal Bank Limited and Meezan Bank Limited against term finance facilities of Rs 1,500 million each (2023: Rs 1,500 million) and in favour of Habib Bank Limited against term finance facility of Rs 1,900 million (2023: Rs 1,900 million) provided to Corn Starch segment. This charge will be up-graded to joint pari passu charge in due course.

23.1.3 Leasehold land comprises lands situated in Karachi and Haripur which were obtained by the Group on lease and are being amortized over the term of 36.5 years to 81.3 years respectively. The title of lands remains with the lessor at end of the lease term. However, leasehold lands have been included in property, plant and equipment in accordance with clarification issued by the Institute of Chartered Accountants of Pakistan through selected opinion.

25.1.4 Fair value of investment properties

Level 2 fair values

Fair value of certain investment properties, based on the valuation carried out by an independent valuer, as at December 31, 2024 is Rs 567,462 million (2023: Rs 567,462 million). The valuation is considered to be level 2 in the fair value hierarchy due to significant observable inputs used in the valuation. The different levels have been defined in note 58.

Valuation techniques used to derive level 2 fair values

Level 2 fair value of investment properties has been derived using a sales comparison approach. Sales prices of comparable land and buildings in close proximity are adjusted for differences in key attributes such as location and size of the property. The most significant input into this valuation approach is price per square foot.

Level 3 fair values

In the absence of current prices in an active market, the fair value is determined by considering the aggregate of the estimated cash flows expected to be received from licensing / leasing out the property less the costs to complete and the estimated operating expenses. The valuation is considered to be level 3 in the fair value hierarchy due to significant unobservable inputs used in the valuation. The different levels have been defined in note 58. Fair value of such investment properties has been determined to be Rs 33,185 million (2023: Rs 15,761 million).

Valuation techniques used to derive level 3 fair values

The Group has determined the fair value of investment properties of the Real Estate segment as on December 31, 2024 by internally generated valuation model instead of involving independent, professionally qualified valuer. The valuation is considered to be level 3 in the fair value hierarchy due to unobservable inputs used in the valuation. The major assumptions used in valuation model and valuation result at reporting date are as follows:

	2024	2023
	(Rupees in thousand)	
Gross rentable area (sq. ft)	702,838	670,030
Rent rates assumed per sq. ft (Rs)	79 - 1713	77 - 1610
Inflation in rent and operating costs	6% - 15%	6% - 15%
Discount rate (%)	13.03%	20.31%
Fair value (Rs in million)	33,185	15,761

The Group has determined the fair value of investment properties of pharmaceutical segment by involving an accredited independent valuer. As at December 31, 2024, the fair value and forced sales value of leasehold land amounts to Rs 750 million (2023: Rs 750 million) and Rs 564.5 million (2023: Rs 564.5 million), respectively, and of buildings on leasehold land amounts to Rs 55.5 million (2023: Rs 52.3 million) and Rs 41.62 million (2023: Rs 39.04 million), respectively. The fair values of these properties have been determined under level 3 with reference to market-based evidence after making adjustments for size, location, time, amenities and other relevant factors by comparing the subject asset with identical or similar assets for which price information is available. Valuation techniques used to derive the fair values of the investment properties have been summarised in the table below:

	2024			
	Fair Value	Valuation Technique	Key unobservable Input	Rate per square meter
	(Rupees in thousand)			
Leaschold land	750,000	Market comparable approach	Price per square meter	151,210
Buildings on leasehold land	55,500			20,893

26.2 Material brands of medicine distributed by the pharmaceutical segment were identified as intangible assets during the business combination. Although the contract lives are limited, these assets have an indefinite useful life because they are expected to generate net cash flows indefinitely and have minimal renewal costs. The Group tests intangibles with indefinite useful lives for impairment on an annual basis. As of December 31, 2024, management determined the recoverable amount of these intangibles by assessing the fair value of the underlying assets using the Relief from Royalty Method. The valuation is considered to be Level 3 in the fair value hierarchy due to the unobservable inputs used. The calculations use revenue projections based on approved budgets and projections. No impairment was identified.

Approach and the key assumptions used to determine the fair value were as follows:

Unobservable inputs	Key assumptions	Approach to determine key assumptions
Revenue forecast period	5 years	Board of the pharmaceutical segment reviewed three-year forecasts which are prepared by the pharmaceutical segment's management. Revenues beyond the three-year period is extrapolated using the estimated growth rates stated below.
Post-tax discount rate (%)	15.70%	Reflects specific risks relating to the pharmaceutical segment and the country in which the Group operates.
Long-term growth rate (%)	3.77%	This is the weighted average growth rate used to extrapolate the cash flows beyond the budget period. The rates are consistent with forecasts included in the industry reports.
Royalty rate (%)	4.28% to 6.1%	For the determination of royalty rates, an average has been taken from the 50 transactions that have happened in the global pharmaceutical sector over the past 20 years.
Revenue increase/(decrease) (%)	-23% to 12%	The compound annual growth rate (CAGR) has been calculated by using six year historical brand-wise revenues and projected five-year revenues. The lower rate between the two has been selected.

34.5 This includes sales tax amounting to Rs 138 million (2023: Rs 1,468.13 million) relating to sales tax on the import of plant and machinery.

34.6 Sales tax recoverable

(a) The Deputy Commissioner Inland Revenue ('DCIR') through order dated June 24, 2015 alleged that in respect of tax periods from 2008 to 2012, the Group had incorrectly adjusted input sales tax credit amounting to Rs 146.107 million on purchases of raw materials from certain suppliers who were subsequently blacklisted / suspended and disallowed the same along with levy of default surcharge and penalty thereon with the total demand aggregating to Rs 292.214 million. In 2016, the taxation authorities adjusted an amount of Rs 292.214 million from income tax refunds of the Group against the said demand.

However, the Appellate Tribunal Inland Revenue ('ATIR'), through order dated August 28, 2017, has decided the case in favour of the Group. The Group has filed an application before the respective authorities to give effect to the order, the outcome of which is still pending. The tax authorities have filed an appeal in High Court of Sindh in the year 2018 against the decision of the ATIR and the case is pending adjudication. Since the case has been decided in the Group's favour on merits by ATIR, no provision for the above amount of Rs 292.214 million has been made in these consolidated financial statements. The case is pending before Sindh High Court.

(b) In respect of tax periods from 2014 to 2016, the Additional Commissioner, Punjab Revenue Authority, through his order dated August 8, 2018 has created a demand of Rs 757.841 million in respect of alleged default on withholding of Punjab Sales Tax on various heads of accounts along with penalty thereon. The Group filed an appeal against the above order with the Commissioner (Appeals) on December 13, 2018. The appeal against the impugned order has been filed on the basis of following major grounds:

- the relevant section of the Punjab Sales Tax on Services Act, 2012 has been wrongly applied retrospectively to the alleged period of default;
- the heads of accounts include multiple line items on which Punjab Sales Tax is not applicable; and
- it has been wrongly assumed that all the expenses disclosed in the consolidated financial statements under the identified heads have actually been paid during the said tax periods.

During the year 2020, Commissioner (Appeals) ordered an inquiry under section 64(5) of The Punjab Sales Tax on Services Act, 2012 which was conducted by Additional Commissioner Enforcement-III and the inquiry report was submitted to Commissioner (Appeals) on May 27, 2019 whereby the demand was reduced to Rs 457.570 million upon verification of the documents provided by the Group. The final outcome of the appeal is still awaited.

During the year 2023, the recovery proceedings were reinitiated and the Additional Commissioner, Punjab Revenue Authority, through an order dated December 18, 2023 again created a demand of Rs 757.841 million whereby the Group was required to deposit the amount of tax along with default surcharge and penalty by December 26, 2023. The Group has obtained stay from recovery proceedings.

The Group has not made any provision against the above demand as the management is confident that the ultimate outcome of the appeal would be in favour of the Group, inter alia on the basis of the advice of the tax consultant and the relevant law and facts.

(c) In respect of tax periods from January 2016 to December 2016, the DCIR through an order dated December 28, 2018 created a demand of Rs 493.391 million in respect of disallowance of input tax claimed by the Group, alleged default on charging of output sales tax and default on withholding of sales tax along with penalty thereon. The Group appealed against the order before the Commissioner Inland Revenue (Appeals) ['CIR(A)'] dated January 26, 2019 and the appeal was decided partially in favour of the Group dated September 18, 2019 and an amount of Rs 311 million was waived, therefore, reducing the demand to Rs 182.391 million. The department and the Group, both, have filed an appeal before the ATIR against CIR(A)'s order, the final outcome of which is still awaited.

The Group has not made any provision against the above demand as the management is confident that the ultimate outcome of the appeal would be in favour of the Group, inter alia on the basis of the advice of the tax consultant and the relevant law and facts.

(d) In respect of sales tax periods from January 2019 to December 2019, the DCIR, through his order No. 3/146/2021-22 dated February 28, 2022 created a demand of Rs 515.70 million in respect of disallowance of input tax claimed by the Group, alleged default on charging of output sales tax and default on withholding of sales tax along with penalty and default surcharge thereon.

Being aggrieved by the order of DCIR, the Group filed an appeal before CIR(A) on various grounds including that the order of the DCIR erred due to not considering the correct facts of the proceedings for the conduct of the audit, despite the identification of the submissions available on record at various occasions during the proceedings and due to wrong applicability of various provisions of the Sales Tax Act, 1990.

During the year 2023, the CIR(A) through his order dated April 18, 2023 has accepted all of the contentions of the Group and has set aside all of the demands created except for an input tax claim amounting to Rs 211.900 million. CIR(A) has directed the DCIR to reconsider the demand in light of the documentary evidence that has been provided by the Group.

Being aggrieved by the decision of the CIR(A), the DCIR has filed an appeal before the ATIR that the order of the CIR(A) be set aside and the order of DCIR be restored.

The Group has not made any provision against the above demand as the management is confident that the ultimate outcome of the appeal would be in favour of the Group, inter alia on the basis of the advice of the tax consultant and the relevant law and facts.

- (e) In respect of sales tax periods from January 2018 to December 2018, the DCIR through his order 4/146 dated April 27, 2022 has created a recovery demand of Rs 1,170 million in respect of disallowance of input tax claimed by the Group, alleged default on charging of output sales tax and default on claiming input sales tax along with penalty thereon.

Being aggrieved by the order of DCIR, the Group filed an appeal before the CIR(A) on the grounds that various sections of input tax have been erroneously applied in disallowing the input tax. Furthermore, input tax related to specific suppliers has been disallowed more than once and alleged as inadmissible. DCIR has also held that sales tax along with further tax be recoverable on categories of fixed assets that were scrapped during the period.

During the year 2023, CIR(A) through his order dated April 26, 2023 has accepted all of the contentions of the Group and has set aside all of the demands created except for an input tax claim amounting to Rs 641.931 million. CIR(A) has directed the DCIR to confront the Group under specific provisions of the law and inference is to be drawn after duly rebutting each and every argument of the Group.

Being aggrieved by the decision of the CIR(A), the DCIR has filed an appeal before the ATIR that the order of the CIR(A) be set aside and the order of DCIR be restored.

The Group has not made any provision against the above demand as the management is confident that the ultimate outcome of the appeal would be in favour of the Group, inter alia on the basis of the advice of the tax consultant and the relevant law and facts.

- (f) In respect of tax periods from 2015 to 2020, the Additional Commissioner, Punjab Revenue Authority, through his order dated January 11, 2023 created a demand of Rs 62.33 million in respect of alleged default on withholding of Punjab Sales Tax on various heads of accounts along with penalty thereon. The Group being aggrieved, filed an appeal against the above order with the Commissioner (Appeals), Punjab Revenue Authority, on December 21, 2023. As of the reporting date, the date of hearing has not been fixed.

The Group has not made any provision against the above demand as the management is confident that the ultimate outcome of the appeal would be in favour of the Group, inter alia on the basis of the advice of the tax consultant and the relevant law and facts.

- (g) For the sales tax periods July 2017 to June 2018, the Deputy Commissioner Inland Revenue ['DCIR'], Unit-3, Audit-III, Large Taxpayers Office, through order dated October 28, 2020 raised an additional sales tax demand of Rs 239.48 million (2023: Rs 239.48 million) along with default surcharge and penalty. The sales tax demand primarily pertains to disallowance of input tax claimed by the Group. The matter was appealed by the Group before the Commissioner Inland Revenue (Appeals) which is currently pending adjudication. Further, the DCIR did not allow credit of Rs 2,046,122 million being voluntarily paid input tax. In this regard, the Group filed appeal before the Commissioner (Appeals) which was heard and the order is awaited. After the refusal by the Commissioner Appeals to grant further stay, the Group through its legal counsel approached the High Court of Sindh, who vide order in C.P.No. D-2927 of 2021 dated April 28, 2021 granted further stay. The management, in consultation with their legal advisor, is of the view that these sales tax matters will eventually be decided in the favour of the Group, therefore no provision has been made in these consolidated financial statements.

(h) For the sales tax periods January 2019 to December 2019, the DCIR, Unit-3, Audit-III, Large Taxpayers Office, issued a notice dated January 17, 2022 under section 25 of Sales Tax Act, 1990. Through the said notice, the DCIR required certain details and information in connection with the audit proceedings for the above tax periods. The said notice was duly complied by the Group. Thereafter the DCIR through assessment order dated December 31, 2022 raised sales tax demand of Rs 661.697 million along with default surcharge and penalty. The sales tax demand primarily pertains to disallowance of input tax claimed on import and local purchased items which are not allowed under section 8 with SRO 490(I)/2004 as amended by SRO 450(I)/2013. The DCIR has also raised demand in respect of various other issues. However, an appeal dated March 1, 2023 has been filed against the assessment order by the Group before the Commissioner Inland Revenue (Appeals), which is currently pending adjudication. The case was remanded back to DCIR by order no. STA/220/LTO/2023/27 dated 28 April 2023. DCIR fixed the hearing on August 25, 2023. The DCIR issued notice bearing No. DCIR/Remand Back-STA-220/Zone-I/LTO/KHI/2022 dated July 26, 2023. The said notice was issued to initiate proceedings for re-adjudication of the matters remanded back through the appellate order No. STA/220/LTP/2023/27 dated April 28, 2023 passed by the Commissioner Inland Revenue (Appeals-I), Karachi. The compliance of the said notice is under process by the Group. The management, in consultation with their legal advisor, is of the view that these sales tax matters will eventually be decided in the favour of the Group; therefore no provision has been made in these financial statements.

34.7 Other receivables include Rs 4.542 million (2023: Nil) from IGI General Insurance Limited, an associate. It is neither past due, nor impaired.

33.8 The reconciliation of loss allowance is as follows:

	2024	2023
	(Rupees in thousand)	
Opening balance	333,274	-
Recognition on acquisition of HPL	-	161,121
Loss allowance recognised during the year	-	279,708
Reversal of loss allowance	-	(107,555)
Closing balance	333,274	333,274

35. Income tax receivable

Income tax refundable	4,642,041	3,727,076
Income tax recoverable	2,526,108	2,542,435
	7,168,149	6,269,511

Contingencies related to income tax:

Based on the advice of the Group's tax advisor and/or established precedents, management believes there are meritorious grounds to support the Group's position regarding the matters disclosed below. Consequently, no provision for these amounts has been made in these consolidated financial statements.

35.1 In respect of tax year 2007, the department rejected the Group's claim for interest / additional payment for delayed refunds for the tax years from 1983-84 to 2003 amounting to Rs 64.616 million and adjusted the Group's tax liability for the said year accordingly. The Group being aggrieved of the said order filed an appeal with Commissioner Inland Revenue (Appeals) ['CIR(A)']. CIR(A) through his order dated January 26, 2009 maintained the rejection. An appeal against the said order was filed by the Group with ATIR. ATIR through its order dated February 23, 2010 maintained the rejection. The Group has now filed an appeal in the High Court of Sindh against ATIR's order on June 28, 2010, the outcome of which is still pending. However, the Group has not made any provision against the above recoverable as the management is confident that the ultimate outcome of the appeal would be in favour of the Group, inter alia on the basis of the advices of the tax consultant and legal counsel, the relevant law and facts.

35.2 In respect of tax year 2014, the department amended the deemed assessment for the year raising a tax demand of Rs 606.328 million. In this order, among other issues, the department did not accept the Group's contention for non-taxation of the transfer of paper and paperboard and corrugated business segments to BSPPL under section 97 of the Income Tax Ordinance, 2001. Such transfer has been taxed as capital gain on the value of assets transferred.

Further, certain other disallowances inter alia including on account of allocation of various expenses towards dividend and other incomes, effectively reducing the available tax losses by approximately Rs 1,200 million, were also made by the department in respect of previous tax years.

The Group being aggrieved of the above order filed an appeal before the CIR(A), who through order dated March 2, 2018, has accepted all the contentions of the Group except non-taxation of the transfer of paper and paperboard and corrugated business segments to BSPPL and taxation of provision for retirement benefits on accrual basis thereby reducing the tax refundable claimed by the Group from Rs 352.953 million to Rs 273.986 million and also reducing the original demand to Rs 78.967 million. The Group has filed an appeal against the above order before ATIR on May 4, 2018, the outcome of which is still pending. The ATIR through order No. ITA 723/KB/2018 issued on July 01, 2021 decided the main issue of transfer of assets in between wholly owned subsidiary subject to tax under capital gain in favour of the Group. However, ATIR upheld the decision of CIR(A) on account of claim of provisions for approved staff retirement benefit funds as inadmissible amounting to Rs 259.4 million. Further, being aggrieved by the unfavourable decision of ATIR against inadmissibility of provision against retirement funds, the Group filed an appeal before the Sindh High Court (SHC) on September 24, 2021. The department being aggrieved by the unfavourable decision of ATIR against deleting of output tax, penalty and default surcharge also filed an appeal before the SHC. The Group has not made any provision against the above demand and disallowance as the management is confident that the ultimate outcome of the appeal would be in the Group's favour, inter alia on the basis of the advice of the tax consultant and the relevant law and facts.

35.3 In respect of tax year 2016, the department amended the assessment for the year raising a tax demand of Rs 464.187 million. The Group being aggrieved of the said order filed an appeal before the CIR(A), who through order dated December 11, 2017, accepted all the contentions of the Group except the allowability of provision for Workers' Profit Participation Fund on payment rather than accrual basis and remanded back credit for minimum tax, thereby, reducing the tax demand to Rs 86.864 million. The Group filed an appeal against the above order before ATIR on January 9, 2018, the outcome of which is still pending.

35.4 In respect of tax year 2017, the Deputy Commissioner Inland Revenue ('DCIR') raised a demand through an order dated April 29, 2021, amounting to Rs 1,520 million under section 137(2) of the Income Tax Ordinance 2001, primarily by disallowing certain expenses and also including certain additions in the taxable income. Management believes that the action taken by DCIR is, in an ad hoc and arbitrary manner, despite all matters concluded in the audit for tax year 2014 on similar issues as well as the data provided during the monitoring proceedings for that year have been finalized without providing an adequate opportunity of being heard to the Group and the above mentioned additions/disallowances are made on an 'ex parte basis'. Being aggrieved, the Group filed an appeal before the CIR(A) dated May 28, 2021 against this impugned order, and at the same time, the Group also filed an application for stay against any coercive action taken by Federal Board of Revenue in Sindh High Court dated June 1, 2021. The stay is valid till the decision of CIR(A).

35.5 In respect of tax year 2021, a demand amounting to Rs 307.80 million raised under sections 161, 205 and 182 of the Income Tax Ordinance 2001 by the Deputy Commissioner Inland Revenue ('DCIR') through an order dated March 31, 2022. The tax authorities raised the demand primarily on account of non-withholding of the income tax.

Being aggrieved by the order of the DCIR, the Group filed an appeal before Commissioner Inland Revenue (Appeals) (CIR-A) on the grounds that the order of the DCIR is erred in holding the Group as "Assessee-In-Default" for not withholding tax on payments of salaries which are below taxable slabs and pertains to the reimbursements for employees travelling and conveyance expenses, and professional taxes etc. The outcome of the appeal is still awaited.

Based on the advice of the Group's tax advisor, the management believes that there are meritorious grounds to support the Group's stance in respect of this matter. Consequently, no provision for this amount has been made in these consolidated financial statements.

35.6 In respect of tax year 2017, the DCIR issued notice dated March 11, 2020 under section 177(1) of the Income Tax Ordinance, 2001 in which the DCIR intimated that the Group had been selected for audit under the provisions of Clause 72B of Part-IV of the Second Schedule to the Income Tax Ordinance, 2001 for the above tax year and required the Group to furnish information and documents. The above notice was fully complied by the Group. Based on submissions and explanations, the DCIR vide his notice dated December 22, 2021 issued under section 122(9) of the Ordinance identified some discrepancies and intend to amend the deemed assessment order under section 120 of the Ordinance. In this regard, the Group duly furnished and complied the said notice. In response to the reply to the aforesaid notice, the DCIR passed an order dated April 28, 2022, in which the DCIR worked out tax demand amounting to Rs. 428.944 million. Being aggrieved of the order the Group filed an appeal before the CIR(A). The CIR(A) vide its appellate order dated January 26, 2023 deleted or remanded back the majority disallowances except carry forward of minimum tax paid under section 113(2)(c) of the Ordinance amounting to Rs 426.274 million which is brought forward from tax years 2014, 2015 and 2016. Being aggrieved of the above appellate order to the extent of carry forward of the minimum tax, the Group has filed an appeal before the ATIR however the hearing thereof is pending.

35.7 The Deputy Commissioner Inland Revenue (DCIR), initiated monitoring proceedings under section 156/161 of Income Tax Ordinance, 2001 (the Ordinance) for Tax Year 2009 vide letter dated November 12, 2010. The Group filed constitutional petition before the High Court of Sindh which remanded back the matter vide order dated December 24, 2012. After disposal of constitutional petition, the proceedings were reinitiated by DCIR vide his letter dated December 26, 2012 requiring the Group to explain its position on advertisement and sales promotion expenses amounting to Rs 203.963 million.

In the order dated April 29, 2013, issued under section 161/205 of the Ordinance, the DCIR had imposed tax under section 161 of the Ordinance amounting to Rs. 11.663 million for non deduction of tax under section 156 of the Ordinance from certain payments under the head 'Advertisement and Sales Promotion'.

The Group filed constitutional petition before the High Court of Sindh ('HCS') which restrained the tax department from any coercive recovery measure in respect of the impugned demand till disposal of the petition. The department, however, later adjusted this outstanding demand without issuance of any recovery notice to the Group, against refunds pertaining to Tax Year 2012. The HCS dismissed the petition on May 25, 2013 and directed the petitioner to pursue departmental hierarchy.

The Group then filed an appeal before the Commissioner Inland Revenue (Appeals) [CIR(A)] against the impugned order. The CIR(A) disposed-off the appeal vide order dated August 25, 2015 remanding back the matter to the department. The Group filed an appeal against the CIR(A)'s order before the Appellate Tribunal Inland Revenue (ATIR) dated October 05, 2015. The ATIR passed an order on December 24, 2021 against the Group and dismissed the appeal. The Group filed a reference before the HCS in March 2022, hearing of which is still pending.

The Group also filed a rectification application before the ATIR which allowed the application vide order dated July 29, 2022 and remanded back the matter to the tax officer. The remand back proceedings are still pending.

35.8 The Group's case was selected in the Parametric balloting done for selection of cases for audit for the Tax Year 2011 on February 25, 2013 by the Federal Board of Revenue (FBR) under section 214C of the Ordinance. The Group filed a representation against the said selection before the review panel of the FBR in terms of circular dated February 25, 2013. Without prejudice to the representation against the audit selection, the Group made complete compliance to the Information Document Request (IDR) notice dated April 04, 2013. Later, the DCIR issued the show cause notice under section 122(9) of the Ordinance to which the Group made compliance. However, the DCIR issued amended order dated June 17, 2014 and made additions of Rs. 124.115 million on various expenses. The Group filed an appeal against the DCIR order before the CIR-A, who vide order dated September 10, 2015 had disposed-off the appeal but upheld additions of sundry promotional expenses of Rs. 36.973 million. Accordingly, the Group filed appeal before the ATIR which maintained the disallowance of Rs. 36.973 million vide order dated July 14, 2021. The Group filed a constitutional petition against the ATIR order and rectification application was also filed with the ATIR by the Group dated September 06, 2021.

The ATIR passed order in favour of the Group and allowed the aforementioned expenses through order dated November 29, 2021. Further, the department's appeal for Tax Year 2011 challenging Commissioner Appeal's verdict to delete the disallowances at Rs. 87.142 million has been dismissed by the ATIR vide order dated July 06, 2022. The Department has filed an appeal before the HCS against the ATIR order, hearing of which is still pending.

35.9 The DCIR, amended the deemed assessment vide order dated December 28, 2017, for Tax Year 2014 increasing the tax liability by Rs 275.6 million due to disallowance of certain expenses, hence, adjusting the tax refundable as assessed by the Group in the tax return. The Group was required to pay an amount of Rs. 110.6 million being the short payment on account of reassessed tax liability. The Group paid the said amount under protest and filed an appeal with the CIR(A) against the said order. The CIR(A) decided on the above issue against the Group vide order dated May 6, 2019. The Group filed an appeal dated through July 12, 2019 thereagainst with the ATIR, which is pending to be heard.

35.10 In March 2022, DCIR raised demand under section 122(1) of the Ordinance against disallowance / addition from and to the taxable income mainly on account of non-furnishing of details and documentary evidence. Being aggrieved of the said order, the Group filed an appeal before the Commissioner (Appeals) vide letter CT 1476 dated April 29, 2022. The Commissioner (Appeals) has granted stay against the recovery of tax demand and no appellate order in this regard has yet been passed. The maximum exposure as at December 31, 2022 is approximately Rs 217.186 million. The management and their tax advisors are of the opinion that the position of the Group is sound on a technical basis and eventual outcome is expected to be in favour of the Group.

35.11 In August 2023, the ADCIR passed an order under section 122(5A) of the Ordinance for the tax year 2019, thereby disallowing certain deductions. The ADCIR also levied the super tax under section 4B and disallowed deductible allowance under section 60A. Being aggrieved, the Group has filed appeal before the Commissioner (Appeals). The same has been heard and order is being awaited. The maximum exposure as at December 31, 2023 is approximately Rs 94.037 million. The management and their tax advisors are of the opinion that the position of the Group is sound on a technical basis and eventual outcome is expected to be in favour of the Group.

35.12 In respect of tax years 2015, 2018 and 2019, the Commissioner Inland Revenue (Appeals) through order dated August 31, 2020, upheld super tax under section 4B on ex parte basis. The Group filed an appeal before CIRA against which a rectified order was issued dated October 23, 2020 reducing the levy of Super tax for 2015 to nil. Subsequently, the Group received a combined Appellate order dated December 31, 2021 for tax years 2018 and 2019 demanding a levy of super tax under section 4B of Rs 17.7 million and Rs 35.13 million respectively. During the previous year, the Group filed an appeal on the basis of the rectified order which is pending before ATIR. Based on the advise of its tax consultants, the Group is confident that the ultimate decision in respect of the aforementioned matter shall be made in its favour.

35.13 The matters of adjustments of tax credits for tax years 2014 and 2015 amounting to Rs 119.62 million and Rs 68.86 million respectively, adjustment of brought forward losses of Rs 1,683 million and calculation of levy of Workers' Welfare Fund have been directed to be rectified. The Group filed an appeal before the Appellate Tribunal Inland Revenue in respect of the matters maintained. During the previous year, an order dated June 29, 2022 was received on the basis of which a demand of Rs 9.64 million was raised. In relation to this, the Group filed an appeal before CIR(A) which is still pending. The management of the Group, based on the advise of its tax consultants, is confident that the ultimate decision in respect of the aforementioned matter shall be made in its favour.

35.14 In respect of tax year 2022, the Commissioner Inland Revenue (Appeals) through appeals order (under section 170(4)) dated July 13, 2023 short allowed the credit of taxes claimed by Rs 37.451 million pertaining to tax credit under section 61, taxes deducted under various sections and casting errors amounting to Rs 6.04 million, Rs 31.42 million and Rs 9.2 million respectively. Consistent with the previous refund orders issued at the time of seeking exemption certificates, refund was restricted to the extent of the adjustments required for issuance. Accordingly, during the year 2023, on August 10, 2023, the Group filed rectification order. The Group based on the advise of its tax consultant did not file the appeal as they consider that consistent with the previous years, matter can be resolved by way of rectification.

35.15 During the year 2023, on October 26, the Group received notices for the Sindh Workers' Welfare Fund for the tax years 2018, 2019, 2021, 2022, and 2023. No further correspondence was received by year-end for the notices pertaining to the tax years 2018 and 2019. However, for the tax years 2021, 2022, and 2023, demands amounting to Rs 23.8 million, Rs 38.2 million, and Rs 34.4 million, respectively, were raised through Order-in-Original.

As a trans-provincial entity, the Group is liable to pay the Workers' Welfare Fund to the Federal Board of Revenue. Consequently, an appeal was filed by the Group before the CIR (SRB). Based on the advise of its tax consultants, the Group is confident that the ultimate decision regarding the aforementioned matter will be in its favor.

35.16 In respect of the tax year 2020, the Commissioner Inland Revenue (Appeals), through an appeals order (under section 170(4)) dated March 31, 2021, short-allowed the credit of taxes claimed by Rs 235.42 million, pertaining to tax credit under section 61, taxes deducted under various sections, and adjustments from the tax year 2015 amounting to Rs 17.98 million, Rs 3.23 million, and Rs 214 million, respectively. The Group filed an appeal before CIR(A) against the order dated March 31, 2023. During the previous year, on August 29, 2023, an appellate order was passed on an 'ex-parte' basis, which disposed of the appeal filed by the Group in CIR(A) against the order dated March 31, 2021. On August 30, 2023, rectification was filed before CIR(A) against the appellate order dated August 29, 2023. During the year, on January 20, 2024, CIR(A), through an appellate order, rectified the appellate order dated August 29, 2023, and remanded the matter back to the officer.

35.17 In respect of tax year 2019, a demand amounting to Rs 378.79 million was raised under sections 161, 205 and 182 of the Income Tax Ordinance 2001 by the Deputy Commissioner Inland Revenue ('DCIR') through an order dated December 31, 2024. The tax authorities raised the demand primarily on account of non-withholding of the income tax.

Being aggrieved by the order of the DCIR, the Group filed an appeal before ATIR on the grounds that the order of the DCIR is erred in holding the Group as "Assessee-In-Default" for not withholding tax on payments of salaries which are below taxable slabs and pertains to the reimbursements for employees travelling and conveyance expenses, and professional taxes etc. The outcome of the appeal is still awaited.

35.18 The Group received, notice dated April 22, 2024 under section 122(9) of the Income Tax Ordinance, 2001 ('the Ordinance'). Under the said notice the Additional Commissioner, Inland Revenue, Zone-I-Range-3, Zone-I, LTO, Lahore ('AC') disallowed certain expenses for the tax year 2018. The said notice was duly responded by the Group. On June 29, 2024, the AC, through order under section 122(5A), partially accepted the Group's stance and partially rejected it. Thus, as a result thereof, curtailing refunds of the Group by an amount of Rs 127.83 million. The Group being aggrieved, filed an appeal dated July 25, 2024 before the Appellate Tribunal Inland Revenue, Lahore which is pending adjudication.

45.3 Unrecognised temporary differences

Temporary differences relating to investments in subsidiaries for which deferred tax liabilities have not been recognised:

Note	2024	2023
	(Rupees in thousand)	(Rupees in thousand)
- Foreign currency translation - PLL	45.3.1 357,838	193,540
- Undistributed earnings	45.3.2 12,843,259	10,988,285
	13,201,097	11,181,825

45.3.1 Temporary differences have arisen as a result of the translation of the financial statements of the Group's subsidiary in Sri Lanka. However, a deferred tax liability has not been recognised as the liability will only crystallise in the event of disposal of the subsidiary, and no such disposal is expected in the foreseeable future.

45.3.2 The Group's subsidiaries have undistributed earnings which, if paid out as dividends, would be subject to tax in the hands of the recipient. An assessable temporary difference exists, but no deferred tax liability has been recognised as the Parent Company is able to control the timing of distributions from the subsidiaries and is not expected to distribute these profits in the foreseeable future.

46. Remuneration of Chief Executive, Directors and Executives

46.1 The aggregate amount charged in the consolidated financial statements for the year for remuneration, including certain benefits, to the Chief Executive, Executive and Non-Executive Directors of the Parent Company and Executives of the Group is as follows:

48. Capacity and production

Note	Capacity		Actual production	
	2024	2023	2024	2023
Paper and paperboard produced - metric tonnes	394,200	369,200	256,829	236,106
Paper and paperboard converted - metric tonnes	76,326	76,326	43,680	40,154
Plastics all sorts converted - metric tonnes	38,261	29,978	18,642	17,653
Inks produced - tonnes	17,095	16,826	10,166	8,929
BoPP and CPP films produced - microns/mils	111,300	83,800	54,339	42,788
Corrugator - tonnes	186,000	104,000	88,670	84,590
Corn-based starch product - metric tonnes	85,000	91,250	35,741	863

Other than corn-based starch products, the variance of actual production from capacity is primarily on account of production planned as per market demand.

48.1 Production during the year ended December 31, 2024 was lower than operational capacity as the plant is not operating to its full capacity due to second year of operations.

48.2 The capacity and production of the Pharmaceutical segment is not determinable as it is a multiproduct plant facility involving varying processes of manufacture.

53.7 As of the reporting date, certain impairment indicators were observed, prompting the Group management to conduct an impairment test on three of its Cash Generating Units (CGUs), which fall under the following segments: (i) Tri-Pack Films Limited (Plastic segment), (ii) Bulleh Shah Packaging (Private) Limited (Paper and Board segment), and (iii) StarchPack (Private) Limited (Corn-based starch products segment).

As of December 31, 2024, Property, plant, and equipment, right-of-use of assets and intangible assets of these CGUs have a cumulative carrying amount of Rs 72,454.20 million and Rs 67,805 million, respectively.

Considering the impairment indicators, Group management assessed the recoverable amounts of these CGUs, as required by International Accounting Standard 36 – Impairment of Assets, and concluded that it exceeded the carrying amounts of the CGUs. Therefore, the CGUs are not impaired as of the reporting date. The recoverable amount was determined to be the higher of its ‘value-in-use’ and ‘fair value less costs of disposal’.

53.8 Information about major customers

Included in the total revenue is revenue from six (2023: six) customers of the Group from the Packaging, Paper & board and Corrugator (2023: Packaging, Paper & board and Corrugator) segment which represents approximately Rs 24,693.538 million (2023: Rs 27,107.868 million) of the Group's total revenue. The Group's revenue from other segments is earned from a large mix of customers.

Fair value sensitivity analysis for fixed rate instruments

The Group does not account for any fixed rate financial assets and liabilities at fair value through profit or loss. Therefore, a change in interest rate at the reporting date would not affect profit or loss of the Group.

Cash flow sensitivity analysis for variable rate instruments

At December 31, 2024, if interest rates on floating rate borrowings had been 2% higher/lower with all other variables held constant, profit for the year would have been Rs 1,636.848 million (2023: Rs 1,336.627 million) lower/higher, mainly as a result of higher/lower interest expense on floating rate borrowings.

(b) Credit risk

Credit risk represents the risk of financial loss being caused if counter party fails to discharge an obligation.

Credit risk of the Group arises from cash and cash equivalents and deposits with banks and financial institutions, as well as credit exposures to distributors and customers, including outstanding receivables and committed transactions. The management assesses the credit quality of the customers, taking into account their financial position, past experience and other factors. Individual risk limits are set based on internal or external ratings in accordance with limits set by the Board. The utilization of credit limits is regularly monitored. For banks and financial institutions, only independently rated parties with a strong credit rating are accepted.

(i) Exposure to credit risk

The Group monitors the credit quality of its financial assets with reference to historical performance of such assets and available external credit ratings. The carrying values of financial assets exposed to credit risk are as under:

	2024	2023
	(Rupees in thousand)	(Rupees in thousand)
Long term loans	5,656	4,265
Long term security deposits	347,699	206,382
Trade debts	19,347,599	14,412,037
Short term investments	617,884	1,434,438
Loans, deposits and other receivables	2,230,881	1,676,966
Balances with banks	<u>3,763,530</u>	<u>2,898,235</u>
	<u>26,313,249</u>	<u>20,632,323</u>

(ii) Impairment of financial assets

The Group's trade debts against local and export sales are subject to the expected credit loss model. While bank balances and debt investments carried at amortised cost are also subject to the impairment requirements of IFRS 9, the identified impairment loss was immaterial and hence, not recognised.

Trade debts

The Group applies the IFRS 9 simplified approach to measuring expected credit losses which uses a lifetime expected loss allowance for all trade debts.

To measure the expected credit losses, trade receivables have been grouped based on shared credit risk characteristics and the days past due.

The expected loss rates are based on the payment profiles of sales over a period of 24 months before December 31, 2024 and 24 months before January 1, 2024 respectively and the corresponding historical credit losses experienced within this period. The historical loss rates are adjusted to reflect current and forward-looking information on macroeconomic factors affecting the ability of the customers to settle the receivables. The Group has identified the Gross Domestic Product and the Consumer Price Index of the country in which it majorly sells its goods and services to be the most relevant factors, and accordingly adjusts the historical loss rates based on expected changes in these factors.

On that basis, the loss allowance as at December 31, 2024 and December 31, 2023 was determined as follows:

Current balances	Up to 90 days	91 to 180 days	181 to 365 days	365 days or more	Total
(Rupees in thousand)					

December 31, 2024

Expected loss rate	0.22%	2.42%	23.64%	22.96%	87.02%

(iii) Credit quality of financial assets

The credit quality of Group's financial assets that are neither past due nor impaired (mainly bank balances) can be assessed with reference to external credit ratings (if available) or to historical information about counterparty default rate:

(c) Liquidity risk

Liquidity risk represents the risk that the Group shall encounter difficulties in meeting obligations associated with financial liabilities.

Prudent liquidity risk management implies maintaining sufficient cash and marketable securities, the availability of funding through an adequate amount of committed credit facilities. Due to the dynamic nature of the Group's businesses, the Group's finance department maintains flexibility in funding by maintaining availability under committed credit lines.

Management monitors the forecasts of the Group's cash and cash equivalents (note 51.2) on the basis of expected cash flow. This is generally carried out in accordance with practice and limits set by the Group. These limits vary by location to take into account the liquidity of the market in which the entity operates. In addition, the Group's liquidity management policy involves projecting cash flows in each quarter and considering the level of liquid assets necessary to meet its liabilities, monitoring statement of financial position liquidity ratios against internal and external regulatory requirements and maintaining debt financing plans.

56. Offsetting financial assets and financial liabilities

There are no significant financial assets and financial liabilities that are subject to offsetting, enforceable master netting arrangements and similar agreements.

57. Capital management

The Group's objectives when managing capital are to safeguard the Group's ability to continue as a going concern in order to provide returns for shareholders and benefits for other stakeholders and to maintain an optimal capital structure to reduce the cost of capital.

The Group manages its capital structure and makes adjustments to it in the light of changes in economic conditions. In order to maintain or adjust the capital structure, the Group may adjust the amount of dividends paid to shareholders or issue new shares.

Consistent with others in the industry and the requirements of the lenders, the Group monitors the capital structure on the basis of gearing ratio. This ratio is calculated as net debt divided by total capital. Net debt is calculated as total borrowings (including current and non-current borrowings) including bank overdraft less cash and bank balances and liquid investments.

The gearing ratios as at December 31, 2024 and 2023 were as follows:

	Note	2024 (Rupees in thousand)	2023 (Rupees in thousand)
Borrowings	8 & 18	116,203,681	95,061,343
Less: Cash and bank balances	36	3,784,458	2,923,901

Total capital		201,128,017	188,525,114
(Percentage)			
Gearing ratio		56%	49%

In accordance with the terms of agreements with the lenders of long term finance facilities (as disclosed in note 8 to these consolidated financial statements), the Group is required to comply with financial covenants. The Group has complied with these covenants throughout the reporting period.

- 57.1** Under the terms of the bank loans, which have a carrying amount of Rs 69,558 million (2023: Rs 54,373 million), the Group is required to comply with the covenants at the end of each year. There are no indications that the Group will have difficulties in complying with the covenants within the next 12 months.

58. Fair value estimation

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction in the principal (or most advantageous) market at the measurement date under current market conditions (i.e. an exit price) regardless of whether that price is directly observable or estimated using another valuation technique.

The table below analyses the financial instruments carried at fair value, by valuation method. The different levels have been defined as follows:

- Quoted prices (unadjusted) in active markets for identical assets or liabilities (level 1).
- Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices) (level 2).
- Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs) (level 3).

The following table presents the Group's assets that are measured at fair value:

At December 31, 2024

Recurring fair value measurements	Level 1	Level 2	Level 3	Total
Assets	(Rupees in thousand)			
Investments - FVPL	452,884	-	-	452,884

	27,668,399	-	5,025	27,673,424

At December 31, 2023

Recurring fair value measurements	Level 1	Level 2	Level 3	Total
Assets	(Rupees in thousand)			
Investments - FVPL	1,129,438	-	-	1,129,438
Investments - FVOCI	29,954,286	-	5,025	29,959,311
	31,083,724	-	5,025	31,088,749

Valuation techniques used to measure fair values

Fair valuation of investment properties for disclosure purposes has been disclosed in note 25.1.4 to these consolidated financial statements and movement in fair value reserve has been disclosed in the consolidated statement of changes in equity. There were no transfers between Levels 1 and 2 & Levels 2 and 3 during the year and there were no changes in valuation techniques during the year. Since the ordinary shares of Coca-Cola Beverages Pakistan Limited are not listed, therefore these are included in Level 3. The Group's policy is to recognise transfers into and transfers out of fair value hierarchy levels as at the end of the reporting period. Changes in Level 2 and 3 fair values are analysed at the end of each reporting period during the annual valuation discussion between the Chief Financial Officer and the investment advisor. As part of this discussion, the investment advisor presents a report that explains the reason for the fair value movements.

The fair value of financial instruments traded in active markets is based on quoted market prices at the reporting date. A market is regarded as active if quoted prices are readily and regularly available from an exchange, dealer, broker, industry group, pricing service, or regulatory agency, and those prices represent actual and regularly occurring market transactions on an arm's length basis. The quoted market price used for financial assets held by the Group is the current bid price. These instruments are included in Level 1.

The fair value of financial instruments that are not traded in an active market is determined by using valuation techniques. These valuation techniques maximize the use of observable market data where it is available and rely as little as possible on entity specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in Level 2.

If one or more of the significant inputs is not based on observable market data, the instrument is included in Level 3.

The carrying values of all financial assets and liabilities reflected in the consolidated financial statements approximate their fair values. Fair value is determined on the basis of objective evidence at reporting date.

59. Disclosure requirement for entities not engaged in Shariah non-permissible business activities

Statutory Code of Conduct at AGM

Shareholders are requested to observe the Statutory Code of Conduct at the AGM in accordance with Section 215 of the Companies Act, 2017 and Regulation 28 of the Companies (General Provisions and Forms) Regulations, 2018, whereby shareholders are not permitted to exert influence or approach the Management directly for decisions which may lead to creation of hurdles in the smooth functioning of the Management. As mentioned in these provisions, shareholders shall not bring material that may cause threat to participants or premises where the AGM is being held, confine themselves to the agenda items covered in the notice of the AGM and shall not conduct themselves in a manner to disclose any political affiliation. Additionally, the Company is not permitted to distribute gifts in any form to its shareholders in its meetings as per Section 185 of Companies Act, 2017.

Withholding Tax on Dividend Income

- i. Pursuant to Section 150 of the Income Tax Ordinance, 2001, withholding tax on dividend paid will be deducted for ‘Filer’ and ‘Non-Filer’ shareholders at 15% and 30% respectively. All shareholders whose names are not entered into the Active Tax-payers List (ATL) provided on the website of the Federal Board of Revenue (FBR), despite the fact that they are filers, are advised to make sure that their names along with their valid CNICs/NTNs (National Tax Numbers) are entered into ATL, before April 22, 2025; enabling the Company to make required tax deduction on the amount of cash dividend. Accordingly, shareholders are also advised to check and ensure their respective status as appearing in the ATL available at FBR’s website <http://www.fbr.gov.pk/> as well as to ensure that their CNIC/passport number has been recorded by the Participant/Investor Account Services or by Share Registrar (in case of physical shareholding). Corporate bodies (non-individual shareholders) should ensure that their names and NTNs are mentioned and appear in the ATL maintained on FBR’s website and recorded by respective Participant/Investor Account Services or in case of physical shareholding, by Company’s Share Registrar.

- ii. According to the FBR, withholding tax in case of joint shareholders accounts will be determined separately based on the ‘Filer/Non-Filer’ status of the principal shareholder as well as the status of the joint holder(s) as per their shareholding proportions. Shareholders who hold shares jointly with other shareholders are requested to provide, in writing, the shareholding proportions of the principal shareholder and the joint holder(s) in respect of shares held by them to the Company’s Share Registrar, FAMCO Shares Registration Services (Pvt.) Limited. In case the required information is not provided to the Company’s Registrar before April 22, 2025 it will be assumed that the shares are held in equal proportion by the principal shareholder and the joint holder(s).
- iii. Withholding tax exemption from dividend income shall only be allowed if a copy of valid tax exemption certificate is made available to the Company’s Share Registrar before April 22, 2025.
- iv. Non-resident shareholder(s) shall submit declaration of such undertaking with copy of valid passport under definition contained in Section 82 of the Income Tax Ordinance, 2001 for determination of their residential status for the purposes of tax deduction on dividend to the Company Share Registrar before April 22, 2025. Shareholder may send a declaration using a standard format as placed on Share Registrar and Company’s websites as mentioned below:

www.famcosrs.com & www.packages.com.pk

Zakat Deduction

To claim exemption from compulsory deduction of Zakat, shareholders are requested to submit a notarized copy of Zakat Declaration Form “CZ-50” on NJSP to the Share Registrar. In case shares are held in scrip less form, such Zakat Declaration Form (CZ -50) must be uploaded in the CDC account of the shareholder, through their Participant/Investor Account Services. Further, Non-Muslim shareholders are also required to file Solemn Affirmation (on the format available on Company’s website) with the Share Registrar of the Company in case shares are held in physical certificates or with CDC Participant/Investor Account Services in case shares are in scripless form. No exemption from deduction of Zakat will be allowed unless the above documents complete in all respects have been made available as above.

Payment of Cash Dividend Through Electronic Mode (Mandatory)

Under Section 242 of the Act, it is mandatory for all listed companies to pay cash dividend to its shareholders through electronic mode directly into the bank account designated by the entitled shareholders, in order to receive dividend directly into their bank account.

Furthermore, in accordance with the Companies (Distribution of Dividend) Regulations, 2017, shareholders are advised to provide their CNIC Number and International Bank Account Number (IBAN) details, if they have not already done so, to our Share Registrar (if shares are held in physical form) at their above-referred office address or to the respective Participants/Broker (if shares are held through CDS Account).

As per Regulation No. 6 of the Companies (Distribution of Dividend) Regulations, 2017 and Section 243(3) of the Companies Act, 2017, the Company will be constrained to withhold payment of dividend to shareholders in case of non-availability of CNIC and/or NTN of the shareholder or authorized person, as the case may be.

Unclaimed Dividend/Shares

Under Section 244 of the Companies Act, 2017 the Company is required to approach shareholders to claim their unclaimed dividend/shares. In this regard the Company has been periodically reaching out to its shareholders by publishing notices in newspapers after sending individual letters. Those shareholders, who have not claimed their dividend amounts as yet, are hereby once again requested to ensure that their claims for unclaimed dividend amounts and/or shares certificate are lodged promptly.

Change of Particulars (Postal/Email Address and IBAN etc.)

Shareholders having physical shares are requested to promptly notify any change in their particulars to Company’s Share Registrar, in writing whereas CDC account holders are requested to update their addresses with their CDC Participant/CDC Investor Account Services on immediate basis of any change occurring in the particulars.

Conversion of Physical Shares into CDC Account

As per Section 72 of the Companies Act, 2017, every existing listed company shall be required to replace its physical shares with book-entry form in a manner as may be specified and from the date notified by the SECP. The Company has periodically reached out to its shareholders through various newspaper notices requesting conversion of physical shareholding. The shareholders are hereby again encouraged to open a CDC sub-account with any broker or Investor Account directly with CDC to convert their

physical shares into scripless form. This is beneficial in many ways, including safe custody and sale of shares, any time they want, as the trading of physical shares is not permitted as per existing regulations of the Pakistan Stock Exchange.

Postal Ballot/E-Voting

In accordance with the Companies (Postal Ballot) Regulations, 2018, the right of vote through postal ballot shall be provided to the shareholders of every company, subject to the requirements of Sections 143 and 144 of the Companies Act, 2017.

- a) E-voting Procedure Details of the e-voting facility will be shared through an e-mail with those shareholders of the Company who have their valid CNIC numbers, cell numbers, and e-mail addresses available in the register of shareholders of the Company within due course. The web address, login details, will be communicated to shareholders via email. Identity of the shareholders intending to cast vote through e-voting shall be authenticated through electronic signature or authentication for login. E-voting lines will start from April 28, 2025, 09:00 a.m. and shall close on April 29, 2025 at 5:00 p.m. Shareholders can cast their votes any time in this period. Once the vote is cast by a shareholder, he/she shall not be allowed to change it subsequently.
- b) For voting through postal ballot, shareholders may exercise their right to vote as per provisions of the Companies (Postal Ballot) Regulations, 2018. The shareholders shall ensure that duly filled and signed ballot paper along with copy of CNIC should reach the Chairman of the meeting through post on the Company’s registered office situated at 4th Floor, The Forum, Suite # 416-422, G-20, Block 9, Khayaban-e-Jami, Clifton, Karachi or email at share.desk@packages.com.pk one day before the AGM i.e. on April 29, 2025, during working hours. The signature on the ballot paper shall match with the signature on CNIC. Ballot paper for voting through post will be published and will also be available on the Company’s website www.packages.com.pk
- c) A.F. Ferguson & Co. Chartered Accountants (the ‘firm’), has been appointed as a Scrutinizer. The firm has received a satisfactory rating under the quality review program of ICAP and is registered with the Audit Oversight Board of Pakistan. All partners of the firm are qualified and have sufficient experience to perform their duties in light of applicable laws regulations and said engagement.

<input type="checkbox"/>	آپشن 2: میرے رجسٹرڈ پوشل ایڈریس پر ہڈ کاپیز کی صورت میں

اس درخواست کے ذریعے کمپنی کو مزید اس بات کا اختیار دیتا ہوں/دیجئے ہیں کہ وہ مذکورہ ای میل ایڈریس کے ساتھ کمپنی کے ممبر رجسٹر میں مذکورہ بالا میری ہماری تفصیلات اپ ڈیٹ کرے۔

شیئر ہولڈر کے دھنٹ

کمپنیز (ڈسٹری بیوشن آف ڈیوڈنڈ) ریگولیشنز، 2017 کے ریگولیشن نمبر 6 اور کمپنیز ایکٹ، 2017 کے سیکشن 243(3) کے مطابق کمپنی شیئر ہولڈر یا مجاز فرد، جیسا معاملہ ہو، کہ NTN کی عدم دستیابی کی صورت میں، شیئر ہولڈر ز کو ڈیوڈنڈ کی ادائیگی روکنے پر مجبور ہوگی۔

غیر دعویٰ شدہ ڈیوڈنڈ / شیئر ز
کمپنیز ایکٹ، 2017 کے سیکشن 244 کے تحت، کمپنی کو چاہیے کہ وہ شیئر ہولڈر ز سے رجوع کرے تاکہ وہ اپنے غیر دعویٰ شدہ ڈیوڈنڈ / شیئر ز کا دعویٰ کریں۔ اس سلسلے میں کمپنی انفرادی خطوط پیچھے کے بعد اخبارات میں نوٹس شائع کر کے اپنے شیئر ہولڈر ز سے رابطہ میں ہے۔ وہ شیئر ہولڈر ز، جنہوں نے ابھی تک اپنے ڈیوڈنڈ کی رقم کا دعویٰ نہیں کیا ہے، ان سے ایک بار پھر اس بات کو یقینی بنانے کی درخواست کی جاتی ہے کہ غیر دعویٰ شدہ ڈیوڈنڈ کی رقم اور / یا شیئر ز سرفیکٹ کے لئے فوری طور پر دعویٰ درج کریں۔

تفصیلات کی تبدیلی (پوشل / ای میل ایڈریس اور IBAN وغیرہ)

فریکل شیئر ز رکھنے والے شیئر ہولڈر ز سے درخواست کی جاتی ہے کہ وہ اپنی تفصیلات میں ہونے والی کسی بھی تبدیلی کو فوری طور پر کمپنی کے شیئر رجسٹر ار کو تحریری طور پر مطلع کریں جبکہ CDC اکاؤنٹ ہولڈر ز سے درخواست کی جاتی ہے کہ وہ اپنی تفصیلات میں ہونے والی کسی بھی تبدیلی، اپنے پتے کو فوری بیان پر CDC پارٹنرپیٹ / CDC انویسٹر اکاؤنٹ سرویز کے ساتھ اپ ڈیٹ کر کے کریں۔

فریکل شیئر ز کی CDC اکاؤنٹ میں تبدیلی

کمپنیز ایکٹ، 2017 کے سیکشن 72 کے مطابق، ہر موجودہ اسٹڈ کمپنی کے لیے لازم ہے کہ وہ اپنے فریکل شیئر ز کو بک انٹری فارم میں تبدیل کرے جیسا کہ بیان کیا ہے اور SECP کی مطلع کردہ تاریخ سے کمپنی نے اپنے شیئر ہولڈر ز سے، جن کے پاس فریکل شیئر ہولڈر نگ ہے، اخباری نوٹس کے ذریعے درخواست کی ہے۔ شیئر ہولڈر ز کی ایک بار پھر حوصلہ افزائی کی جاتی ہے کہ وہ کسی بھی بروکر یا انویسٹر اکاؤنٹ میں براہ راست CDC کے ساتھ CDC کے ساتھ تکمیل کو ہوئیں جس میں وہ اپنے فریکل شیئر ز کو اسکرپ لیں فارم میں تبدیل کر سکتے ہیں، یہ بہت سے طریقوں سے فائدہ مند ہے، یہ میں شیئر ز کی محفوظ تحمل اور جب چاہیں ان کی فروخت، یوکنہ پاکستان اسٹاک ایکچن کے موجودہ ضوابط کے تحت فریکل شیئر ز کی تجارت کی اجازت نہیں ہے۔
